A governmental entity may require the disclosure by a provider of electronic communications services of the contents of an electronic communication that has been in electronic storage in an electronic communications system for more than one hundred and eighty days by the means available under subsection (b) of this section.

"(b) CONTENTS OF ELECTRONIC COMMUNICATIONS IN A REMOTE COMPUTING SERVICE.—(1) A governmental entity may require a provider of remote computing service to disclose the contents of any electronic communication to which this paragraph is made applicable by paragraph (2) of this subsection—

"(A) without required notice to the subscriber or customer, if the governmental entity obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant; or

"(B) with prior notice from the governmental entity to the subscriber or customer if the governmental entity—

"(i) uses an administrative subpoena authorized by a Federal or State statute or a Federal or State grand jury subpoena; or

"(ii) obtains a court order for such disclosure under subsection (d) of this section;

except that delayed notice may be given pursuant to section 2705 of this title.

"(2) Paragraph (1) is applicable with respect to any electronic communication that is held or maintained on that service—

"(A) on behalf of, and received by means of electronic transmission from (or created by means of computer processing of communications received by means of electronic transmission from), a subscriber or customer of such remote computing service; and

"(B) solely for the purpose of providing storage or computer processing services to such subscriber or customer, if the provider is not authorized to access the contents of any such communications for purposes of providing any services other than storage or computer processing.

"(c) RECORDS CONCERNING ELECTRONIC COMMUNICATION SERVICE OR REMOTE COMPUTING SERVICE.—(1)(A) Except as provided in subparagraph (B), a provider of electronic communication service or remote computing service may disclose a record or other information pertaining to a subscriber to or customer of such service (not including the contents of communications covered by subsection (a) or (b) of this section) to any person other than a governmental entity.

"(B) A provider of electronic communication service or remote computing service shall disclose a record or other information pertaining to a subscriber to or customer of such service (not including the contents of communications covered by subsection (a) or (b) of this section) to a governmental entity only when the governmental entity—

"(i) uses an administrative subpoena authorized by a Federal or State statute, or a Federal or State grand jury subpoena;

"(ii) obtains a warrant issued under the Federal Rules of Criminal Procedure or equivalent State warrant;

"(iii) obtains a court order for such disclosure under subsection (d) of this section; or

"(iv) has the consent of the subscriber or customer to such disclosure.

"(2) A governmental entity receiving records or information under this subsection is not required to provide notice to a subscriber or customer.

"(d) REQUIREMENTS FOR COURT ORDER.—A court order for disclosure under subsection (b) or (c) of this section shall issue only if the governmental entity shows that there is reason to believe the contents of a wire or electronic communication, or the records or other information sought, are relevant to a legitimate law enforcement inquiry. In the case of a State governmental authority, such a court order shall not issue if prohibited by the law of such State. A court issuing an order pursuant to this section, on a motion made promptly by the service provider, may quash or modify such order, if the information or records requested are unusually voluminous in nature or compliance with such order otherwise would cause an undue burden on such provider.

"(e) NO CAUSE OF ACTION AGAINST A PROVIDER DISCLOSING INFORMATION UNDER THIS CHAPTER.—No cause of action shall lie in any court against any provider of wire or electronic communication service, its officers, employees, agents, or other specified persons for providing information, facilities, or assistance in accordance with the terms of a court order, warrant, subpoena, or certification under this chapter.

"§ 2704. Backup preservation

"(a) BACKUP PRESERVATION.—(1) A governmental entity acting under section 2703(b)(2) may include in its subpoena or court order a requirement that the service provider to whom the request is directed create a backup copy of the contents of the electronic communications sought in order to preserve those communications. Without notifying the subscriber or customer of such subpoena or court order, such service provider shall create such backup copy as soon as practicable consistent with its regular business practices and shall confirm to the governmental entity that such backup copy has been made. Such backup copy shall be created within two business days after receipt by the service provider of the subpoena or court order.

"(2) Notice to the subscriber or customer shall be made by the governmental entity within three days after receipt of such confirmation, unless such notice is delayed pursuant to section 2705(a).

"(3) The service provider shall not destroy such backup copy until the later of—

"(A) the delivery of the information; or

"(B) the resolution of any proceedings (including appeals of any proceeding) concerning the government's subpoena or court order.

"(4) The service provider shall release such backup copy to the requesting governmental entity no sooner than fourteen days after the governmental entity's notice to the subscriber or customer if such service provider—

"(A) has not received notice from the subscriber or customer that the subscriber or customer has challenged the governmental entity's request; and

"(B) has not initiated proceedings to challenge the request of the governmental entity.

"(5) A governmental entity may seek to require the creation of a backup copy under subsection (a)(1) of this section if in its sole discretion such entity determines that there is reason to believe that notification under section 2703 of this title of the existence of the subpoena or court order may result in destruction of or tampering with evidence. This determination is not subject to challenge by the subscriber or customer or service provider.

"(b) CUSTOMER CHALLENGES.—(1) Within fourteen days after notice by the governmen-

tal entity to the subscriber or customer under subsection (a)(2) of this section, such subscriber or customer may file a motion to quash such subpoena or vacate such court order, with copies served upon the governmental entity and with written notice of such challenge to the service provider. A motion to vacate a court order shall be filed in the court which issued such order. A motion to quash a subpoena shall be filed in the appropriate United States district court or State court. Such motion or application shall contain an affidavit or sworn statement—

"(A) stating that the applicant is a customer or subscriber to the service from which the contents of electronic communications maintained for him have been sought; and

"(B) stating the applicant's reasons for believing that the records sought are not relevant to a legitimate law enforcement inquiry or that there has not been substantial compliance with the provisions of this chapter in some other respect.

"(2) Service shall be made under this section upon a governmental entity by delivering or mailing by registered or certified mail a copy of the papers to the person, office, or department specified in the notice which the customer has received pursuant to this chapter. For the purposes of this section, the term 'delivery' has the meaning given that term in the Federal Rules of Civil Procedure.

"(3) If the court finds that the customer has complied with paragraphs (1) and (2) of this subsection, the court shall order the governmental entity to file a sworn response, which may be filed in camera if the governmental entity includes in its response the reasons which make in camera review appropriate. If the court is unable to determine the motion or application on the basis of the parties' initial allegations and response, the court may conduct such additional proceedings as it deems appropriate. All such proceedings shall be completed and the motion or application decided as soon as practicable after the filing of the governmental entity's response.

"(4) If the court finds that the applicant is not the subscriber or customer for whom the communications sought by the governmental entity are maintained, or that there is a reason to believe that the law enforcement inquiry is legitimate and that the communications sought are relevant to that inquiry, it shall deny the motion or application and order such process enforced. If the court finds that the applicant is the subscriber or customer for whom the communications sought by the governmental entity are maintained, and that there is not a reason to believe that the communications sought are relevant to a legitimate law enforcement inquiry, or that there has not been substantial compliance with the provisions of this chapter, it shall order the process quashed.

"(5) A court order denying a motion or application under this section shall not be deemed a final order and no interlocutory appeal may be taken therefrom by the customer.

"§ 2705. Delayed notice

"(a) DELAY OF NOTIFICATION.—(1) A governmental entity acting under section 2703(b) of this title may—

"(A) where a court order is sought, include in the application a request, which the court shall grant, for an order delaying the notification required under section 2703(b) of this title for a period not to exceed ninety days, if the court determines that there is reason to believe that notification of the existence of the court order may have an adverse result described in paragraph (2) of this subsection; or

"(B) where an administrative subpoena authorized by a Federal or State statute or a Federal or State grand jury subpoena is obtained, delay the notification required under section 2703(b) of this title for a period not to exceed ninety days upon the execution of a written certification of a supervisory official that there is reason to believe that notification of the existence of the subpoena may have an adverse result described in paragraph (2) of this subsection.

"(2) An adverse result for the purposes of paragraph (1) of this subsection is—

"(A) endangering the life or physical safety of an individual;

"(B) flight from prosecution;

"(C) destruction of or tampering with evidence;

"(D) intimidation of potential witnesses; or

"(E) otherwise seriously jeopardizing an investigation or unduly delaying a trial.

"(3) The governmental entity shall maintain a true copy of certification under paragraph (1)(B).

"(4) Extensions of the delay of notification provided in section 2703 of up to ninety days each may be granted by the court upon application, or by certification by a governmental entity, but only in accordance with subsection (b) of this section.

"(5) Upon expiration of the period of delay of notification under paragraph (1) or (4) of this subsection, the governmental entity shall serve upon, or deliver by registered or first-class mail to, the customer or subscriber a copy of the process or request together with notice that—

"(A) states with reasonable specificity the nature of the law enforcement inquiry; and

"(B) informs such customer or subscriber—

"(i) that information maintained for such customer or subscriber by the service provider named in such process or request was supplied to or requested by that governmental authority and the date on which the supplying or request took place;

"(ii) that notification of such customer or subscriber was delayed;

"(iii) what governmental entity or court made the certification or determination pursuant to which that delay was made; and

"(iv) which provision of this chapter allowed such delay.

"(6) As used in this subsection, the term 'supervisory official' means the investigative agent in charge or assistant investigative agent in charge or an equivalent of an investigating agency's headquarters or regional office, or the chief prosecuting attorney or the first assistant prosecuting attorney or an equivalent of a prosecuting attorney's headquarters or regional office.

"(b) PRECLUSION OF NOTICE TO SUBJECT OF GOVERNMENTAL ACCESS.—A governmental entity acting under section 2703, when it is not required to notify the subscriber or customer under section 2703(b)(1), or to the extent that it may delay such notice pursuant to subsection (a) of this section, may apply to a court for an order commanding a provider of electronic communications service or remote computing service to whom a warrant, subpoena, or court order is directed, for such period as the court deems appropriate, not to notify any other person of the existence of the warrant, subpoena, or court order. The court shall enter such an order if it determines that there is reason to believe that notification of the existence of the warrant, subpoena, or court order will result in—

"(1) endangering the life or physical safety of an individual;

"(2) flight from prosecution;

"(3) destruction of or tampering with evidence;

"(4) intimidation of potential witnesses; or

"(5) otherwise seriously jeopardizing an investigation or unduly delaying a trial.

"§ 2706. Cost reimbursement

"(a) PAYMENT.—Except as otherwise provided in subsection (c), a governmental entity obtaining the contents of communications, records, or other information under section 2702, 2703, or 2704 of this title shall pay to the person or entity assembling or providing such information a fee for reimbursement for such costs as are reasonably necessary and which have been directly incurred in searching for, assembling, reproducing, or otherwise providing such information. Such reimbursable costs shall include any costs due to necessary disruption of normal operations of any electronic communication service or remote computing service in which such information may be stored.

"(b) AMOUNT.—The amount of the fee provided by subsection (a) shall be as mutually agreed by the governmental entity and the person or entity providing the information, or, in the absence of agreement, shall be as determined by the court which issued the order for production of such information (or the court before which a criminal prosecution relating to such information would be brought, if no court order was issued for production of the information).

"(c) The requirement of subsection (a) of this section does not apply with respect to records or other information maintained by a communications common carrier that relate to telephone toll records and telephone listings obtained under section 2703 of this title. The court may, however, order a payment as described in subsection (a) if the court determines the information required is unusually voluminous in nature or otherwise caused an undue burden on the provider.

"§ 2707. Civil action

"(a) CAUSE OF ACTION.—Except as provided in section 2703(e), any provider of electronic communication service, subscriber, or customer aggrieved by any violation of this chapter in which the conduct constituting the violation is engaged in with a knowing or intentional state of mind may, in a civil action, recover from the person or entity which engaged in that violation such relief as may be appropriate.

"(b) RELIEF.—In a civil action under this section, appropriate relief includes—

"(1) such preliminary and other equitable or declaratory relief as may be appropriate;

"(2) damages under subsection (c); and

"(3) a reasonable attorney's fee and other litigation costs reasonably incurred.

"(c) DAMAGES.—The court may assess as damages in a civil action under this section the sum of the actual damages suffered by the plaintiff and any profits made by the violator as a result of the violation, but in no case shall a person entitled to recover receive less than the sum of $1,000.

"(d) DEFENSE.—A good faith reliance on—

"(1) a court warrant or order, a grand jury subpoena, a legislative authorization, or a statutory authorization;

"(2) a request of an investigative or law enforcement officer under section 2518(7) of this title; or

"(3) a good faith determination that section 2511(3) of this title permitted the conduct complained of;

is a complete defense to any civil or criminal action brought under this chapter or any other law.

"(e) LIMITATION.—A civil action under this section may not be commenced later than two years after the date upon which the claimant first discovered or had a reasonable opportunity to discover the violation.

"§ 2708. Exclusivity of remedies

"The remedies and sanctions described in this chapter are the only judicial remedies and sanctions for nonconstitutional violations of this chapter.

"(f)(1) If a recall of infant formula is begun by a manufacturer, the recall shall be carried out in accordance with such requirements as the Secretary shall prescribe under paragraph (2) and—

SEC. 4014. STUDY ON ALKYL AND BUTYL NITRITES.

The Secretary of Health and Human Services, through the Commissioner of Food and Drugs, should conduct a study on alkyl and butyl nitrites and report to the appropriate committees of the Congress recommendations concerning whether alkyl and butyl nitrites should be treated as a drug under the Federal Food, Drug, and Cosmetic Act.

SEC. 4015. SENSE OF THE SENATE WITH RESPECT TO POSSESSION OR DISTRIBUTION OF DRUGS UNDER STATE LAW.

It is the sense of the Senate that, if the possession or distribution of a drug is an offense under the Controlled Substances Act, the laws of the States should not provide or be amended or revised to provide that the possession or distribution, respectively, of such drug is not a criminal offense.

SEC. 4016. STUDIES ON HEALTH WARNING LABELS FOR ALCOHOLIC BEVERAGES.

(a) The Senate finds that—

(1) the most abused drug in America is alcohol;

(2) alcohol abuse costs the American economy nearly $120,000,000,000 per year, including increased medical expenses and decreased productivity;

(3) in 1984, 53 percent of the traffic fatalities in the United States, accounting for more than 23,500 deaths, were related to the consumption of alcohol;

(4) over 12,000,000 American adults have one or more symptoms of alcoholism, and this represents an 8.2 percent increase in problem drinking since 1980;

(5) in 1984, almost 3,300,000 individuals between the ages of 14 and 17 experienced serious problems at home, in school, or with the law because of alcohol consumption;

(6) fetal alcohol syndrome is the third leading cause of birth defects, and is the only preventable cause of birth defects among the top three causes;

(7) nearly 5,000 babies per year are born with birth defects related to fetal alcohol syndrome;

(8) the statistics cited in the preceding paragraphs of this subsection indicate that many Americans are not aware of the adverse effects that the abuse of alcoholic beverages may have on health;

(9) it is necessary to undertake a serious national effort to educate the American people of the serious consequences of alcohol abuse; and

(10) carefully drafted warning labels on the containers of alcoholic beverages concerning serious health consequences resulting from the abuse of alcohol may assist in providing such education.

(b) Therefore, it is the sense of the Senate that—

(1) the Public Health Service should focus attention on the problem of educating the American people on the serious health consequences of alcohol abuse;

(2) the Public Health Service should review available knowledge and conduct studies to assess the most effective means of providing such education, including an assessment of the potential educational impact of health warning labels on the containers of alcoholic beverages; and

(3) the Public Health Service should transmit a report to the Congress within 6 months after the date of enactment of this Act concerning any activities described in paragraph (2) which have been undertaken, and should include in such report any findings respecting the impact and potential benefits of displaying health warnings on the containers of alcoholic beverages and recommendations for specific language for such labels.

"PENALTY FOR SIMPLE POSSESSION

"SEC. 404. (a) It shall be unlawful for any person knowingly or intentionally to possess a controlled substance unless such substance was obtained directly, or pursuant to a valid prescription or order, from a practitioner, while acting in the course of his professional practice, or except as otherwise authorized by this title or title III. Any person who violates this subsection may be sentenced to a term of imprisonment of not more than 1 year, and shall be fined a minimum of $1,000 but not more than $5,000, or both, except that if he commits such offense after a prior conviction under this title or title III, or a prior conviction for any drug or narcotic offense chargeable under the law of any State, has become final, he shall be sentenced to a term of imprisonment for not less than 15 days but not more than 2 years, and shall be fined a minimum of $2,500 but not more than $10,000, except, further, that if he commits such offense after two or more prior convictions under this title or title III, or two or more prior convictions for any drug or narcotic offense chargeable under the law of any State, or a combination of two or more such offenses have become final, he shall be sentenced to a term of imprisonment for not less than 90 days but not more than 3 years, and shall be fined a minimum of $5,000 but not more than $25,000. "(b)(1) If any person who has not previously been convicted of violating subsection (a) of this section, any other provision of this subchapter or subchapter II of this chapter, or any other law of the United States relating to narcotic drugs, marihuana, or depressant or stimulant substances, is found guilty of a violation of subsection (a) of this section after trial or upon a plea of guilty, the court may, without entering a judgment of guilty and with the consent of such person, defer further proceedings and place him on probation upon such reasonable conditions as it may require and for such period, not to exceed one year, as the court may prescribe. Upon violation of a condition of the probation, the court may enter an adjudication of guilt and proceed as otherwise provided. The court may, in its discretion, dismiss the proceedings against such person and discharge him from probation before the expiration of the maximum period prescribed for such person's probation. If during the period of his probation such person does not violate any of the conditions of the probation, then upon expiration of such period the court shall discharge such person and dismiss the proceedings against him. Discharge and dismissal under this subsection shall be without court adjudication of guilt, but a nonpublic record thereof shall be retained by the Department of Justice solely for the purpose of use by the courts in determining whether or not, in subsequent proceedings, such person qualifies under this subsection. Such discharge or dismissal shall not be deemed a conviction for purposes of disqualifications or disabilities imposed by law upon conviction of a crime (including the penalties prescribed under this part for second or subsequent convictions) or for any other purpose. Discharge and dismissal under this section may occur only once with respect to any person.

"(2) Upon the dismissal of such person and discharge of the proceedings against him under paragraph (1) of this subsection, such person, if he was not over twenty-one years of age at the time of the offense, may apply to the court for an order to expunge from all official records (other than the nonpublic records to be retained by the Department of Justice under paragraph (1)) all recordation relating to his arrest, indictment or information, trial, finding of guilty, and dismissal and discharge pursuant to this section. If the court determines, after hearing, that such person was dismissed and the proceedings against him discharged and that he was not over twenty-one years of age at the time of the offense, it shall enter such order. The effect of such order shall be to restore such person, in the contemplation of the law, to the status he occupied before such arrest or indictment or information. No person as to whom such order has been entered shall be held thereafter under any provision of any law to be guilty of perjury or otherwise giving a false statement by reason of his failures to recite or acknowledge such arrest, or indictment or information, or trial in response to any inquiry made of him for any purpose.

No property or interest in property shall be seized or forfeited if the violation is by a domestic financial institution examined by a Federal bank supervisory agency or a financial institution regulated by the Securities and Exchange Commission or a partner, director, officer or employee thereof."

"(2) No property shall be forfeited under this section to the extent of the interest of an owner or lienholder by reason of any act or emission established by that owner or lienholder to have been committed without the knowledge of that owner or lienholder.

"(b) Any property subject to forfeiture to the United States under subsection (a)(1)(A) or (a)(1)(B) of this section may be seized by the Attorney General or, with respect to property involved in a violation of section 1956 or 1957 of this title investigated by the Secretary of the Treasury, may be seized by the Secretary of the Treasury, and any property subject to forfeiture under subsection (a)(1)(C) of this section may be seized by the Secretary of the Treasury, in each case upon process issued pursuant to the Supplemental Rules for certain Admiralty and Maritime Claims by any district court of the United States having jurisdiction over the property, except that seizure without such process may be made when—

"(1) the seizure is pursuant to a lawful arrest or search; or

"(2) the Attorney General or the Secretary of the Treasury, as the case may be, has obtained a warrant for such seizure pursuant to the Federal Rules of Criminal Procedure, in which event proceedings under subsection (d) of this section shall be instituted promptly.

"(c) Property taken or detained under this section shall not be repleviable, but shall be deemed to be in the custody of the Attorney General or the Secretary of the Treasury, as

"(e) Notwithstanding any other provision of the law, except section 3 of the Anti Drug Abuse Act of 1986, the Attorney General or the Secretary of the Treasury, as the case may be, is authorized to retain property forfeited pursuant to this section, or to transfer such property on such terms and conditions as he may determine to—

"(1) any other Federal agency; or

"(2) any State or local law enforcement agency which participated directly in any of the acts which led to the seizure or forfeiture of the property.

The Attorney General or the Secretary of the Treasury, as the case may be, shall ensure the equitable transfer pursuant to paragraph (2) of any forfeited property to the appropriate State or local law enforcement agency so as to reflect generally the contribution of any such agency participating directly in any of the acts which led to the seizure or forfeiture of such property. A decision by the Attorney General or the Secretary of the Treasury pursuant to paragraph (2) shall not be subject to review. The United States shall not be liable in any action arising out of the use of any property the custody of which was transferred pursuant to this section to any non-Federal agency. The Attorney General or the Secretary of the Treasury may order the discontinuance of any forfeiture proceedings under this section in favor of the institution of forfeiture proceedings by State or local authorities under an appropriate State or local statute. After the filing of a complaint for forfeiture under this section, the Attorney General may seek dismissal of the complaint in favor of forfeiture proceedings under State or local law. Whenever forfeiture proceedings are discontinued by the United States in favor of State or local proceedings, the United States may transfer custody and possession of the seized property to the appropriate State or local official immediately upon the initiation of the proper actions by such officials. Whenever forfeiture proceedings are discontinued by the United States in favor of State or local proceedings, notice shall be sent to all known interested parties advising them of the discontinuance or dismissal. The United States shall not be liable in any action arising out of the seizure, detention, and transfer of seized property to State or local officials.

"(f) All right, title, and interest in property described in subsection (a) of this section shall vest in the United States upon commission of the act giving rise to forfeiture under this section.

"(g) The filing of an indictment or information alleging a violation of law which is also related to a forfeiture proceeding under this section shall, upon motion of the United States and for good cause shown, stay the forfeiture proceeding.

"(h) In addition to the venue provided for in section 1395 of title 28 or any other provision of law, in the case of property of a defendant charged with a violation that is the basis for forfeiture of the property under this section, a proceeding for forfeiture under this section may be brought in the judicial district in which the defendant owning such property is found or in the judicial district in which the criminal prosecution is brought.

"(i) In the case of property subject to forfeiture under subsection (a)(1)(B), the following additional provisions shall, to the extent provided by treaty, apply:

"(1) Notwithstanding any other provision of law, except section 3 of the Anti Drug Abuse Act of 1986, whenever property is civilly or criminally forfeited under the Controlled Substances Act, the Attorney General may, with the concurrence of the Secretary of State, equitably transfer any conveyance, currency, and any other type of personal property which the Attorney General may designate by regulation for equitable transfer, or any amounts realized by the United States from the sale of any real or personal property forfeited under the Controlled Substances Act to an appropriate foreign country to reflect generally the contribution of any such foreign country participating directly or indirectly in any acts which led to the seizure or forfeiture of such property. The foreign country shall, in the event of a transfer of property or proceeds of sale of property under this subchapter, bear all expenses incurred by the United States in the seizure, maintenance, inventory, storage, forfeiture, and disposition of the property, and all transfer costs. The payment of all such expenses, and the transfer of assets pursuant to this paragraph, shall be upon such terms and conditions as the Attorney General may, in his discretion, set. Transfers may be made under this subsection during a fiscal year to a country that is subject to paragraph (1)(A) of section 481(h) of the Foreign Assistance Act of 1961 (relating to restrictions on United States assistance) only if there is a certification in effect with respect to that country for that fiscal year under paragraph (2) of that section.

"(2) The provisions of this section shall not be construed as limiting or superseding any other authority of the United States to provide assistance to a foreign country in obtaining property related to a crime committed in the foreign country, including property which is sought as evidence of a crime committed in the foreign country.

"(3) A certified order or judgment of forfeiture by a court of competent jurisdiction of a foreign country concerning property which is the subject of forfeiture under this section and was determined by such court to be the type of property described in subsection (a)(1)(B) of this section, and any certified recordings or transcripts of testimony taken in a foreign judicial proceeding concerning such order or judgment of forfeiture, shall be admissible in evidence in a proceeding brought pursuant to this section. Such certified order or judgment of forfeiture, when admitted into evidence, shall constitute probable cause that the property forfeited by such order or judgment of forfeiture is subject to forfeiture under this section and creates a rebuttable presumption of the forfeitability of such property under this section.

"(4) A certified order or judgment of conviction by a court of competent jurisdiction of a foreign country concerning an unlawful drug activity which gives rise to forfeiture under this section and any certified recordings or transcripts of testimony taken in a foreign judicial proceeding concerning such order or judgment of conviction shall be admissible in evidence in a proceeding brought pursuant to this section. Such certified order or judgment of conviction, when admitted into evidence, creates a rebuttable presumption that the unlawful drug activity giving rise to forfeiture under this section has occurred.

"(5) The provisions of paragraphs (3) and (4) of this subsection shall not be construed as limiting the admissibility of any evidence otherwise admissible, nor shall they limit the ability of the United States to establish probable cause that property is subject to forfeiture by any evidence otherwise admissible.

"(j) For purposes of this section—

"(1) the term 'Attorney General' means the Attorney General or his delegate; and

"(2) the term 'Secretary of the Treasury' means the Secretary of the Treasury or his delegate.

"(b) The provisions of subsections 413 (c) and (e) through (o) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 853 (c) and (e)—(o)) shall apply to property subject to forfeiture under this section, to any seizure or disposition thereof, and to any administrative or judicial proceeding in relation thereto, if not inconsistent with this section.".

(C) the Drug Enforcement Administration has maintained a voluntary system in cooperation with chemical industry to report suspicious purchases of precursors and essential chemicals; and

"(A) 50 percent of United States assistance allocated for such country notified to Congress in the report required under section 653(a) of this Act shall be withheld from obligation and expenditure;

"(B) on or after March 1, 1987, and on March 1 of each succeeding year, the Secretary of the Treasury shall instruct the United States Executive Director of the International Bank for Reconstruction and Development, the United States Executive Director of the International Development Association, the United States Executive Director of the Inter-American Development Bank, and the United States Executive Director of the Asian Development Bank to vote against any loan or other utilization of the funds of their respective institution to or for such country; and

"(2)(A) The assistance withheld by paragraph (1)(A) may be obligated and expended and the provisions of clauses (A) and (B) of paragraph (1) shall not apply if the President determines, and so certifies to the Congress, at the time of the submission of the report required by subsection (e), that—

"(i) a full and complete description of the vital national interests placed at risk should assistance, financing, or preferential tariff treatment not be provided such country; and

"(3) In making the certification required by paragraph (2) of this subsection, the President shall give foremost consideration to whether the actions of the government of the country have resulted in the maximum reductions in illicit drug production which were determined to be achievable pursuant to subsection (e)(4). The President shall also consider whether such government—

"(A) has taken the legal and law enforcement measures to enforce in its territory, to the maximum extent possible, the elimination of illicit cultivation and the suppression of illicit manufacture of and traffic in narcotic and psychotropic drugs and other controlled substances, as evidenced by seizures of such drugs and substances and of illicit laboratories and the arrest and prosecution of violators involved in the traffic in such drugs and substances significantly affecting the United States; and

"(B) has taken the legal and law enforcement steps necessary to eliminate, to the maximum extent possible, the laundering in that country of drug-related profits or drug-related monies, as evidence by—

"(i) the enactment and enforcement of laws prohibiting such conduct, and

"(ii) the willingness of such government to enter into mutual legal assistance agreements with the United States governing (but not limited to) money laundering, and

"(iii) the degree to which such government otherwise cooperates with United States law enforcement authorities on anti-money laundering efforts.

"(4)(A) The provisions of paragraph (1) shall apply without regard to paragraph (2) if the Congress enacts, within 30 days of continuous session after receipt of a certification under paragraph (2), joint resolution disapproving the determination of the President contained in such certification.

"(B)(i) Any such joint resolution shall be considered in the Senate in accordance with the provisions of section 601(b) of the Inter-

national Security Assistance and Arms Export Control Act of 1976.

"(5) Any country for which the President has not made a certification under paragraph (2) or with respect to which the Congress has enacted a joint resolution disapproving such certification may not receive United States assistance as defined by subsection (i)(4) of this section, the financing described in (1)(B) of this subsection or and the preferential tariff treatment described in (1)(C) of this subsection unless—

"(A) the President makes a certification under paragraph (2) and the Congress does not enact a joint resolution of disapproval; or

SEC. 2011. INFORMATION-SHARING SO THAT VISAS ARE DENIED TO DRUG TRAFFICKERS.

(a) NEED FOR COMPREHENSIVE INFORMATION SYSTEM.—The Congress is concerned that the executive branch has not established a comprehensive information system on all drug arrests of foreign nationals in the United States so that information may be communicated to the appropriate United States embassies, even though the establishment of such a system is required by section 132 of the Foreign Relations Authorization Act, Fiscal Years 1986 and 1987.

(b) ESTABLISHMENT OF SYSTEM.—The executive branch shall act expeditiously to establish the comprehensive information system required by section 132 of the Foreign Relations Authorization Act, Fiscal Years 1986 and 1987, and submit to the Congress a report that the system has been established.

SEC. 2012. CONDITIONS ON ASSISTANCE FOR BOLIVIA.

(a) OPERATION BLAST FURNACE.—(1) It is the sense of the Congress that—

(A) the Government of Bolivia's recent drug interdiction operations in cooperation with the United States (Operation Blast Furnace) evinced a determination to combat the growing power of the narcotics trade and narcotics traffickers;

(B) the operation has had a dramatic effect on the coca trade in that country by dropping the price of coca below the cost of production;

(C) as a result of this operation the coca trade has in the short term been sharply constricted;

(D) the restoration of non-coca dependent economic growth in Bolivia is crucial to the achievement of long-term progress in controlling illicit narcotics production; and

(E) control of illicit drug production is crucial to the survival of democratic institutions and democratic government in Bolivia.

(2) The Congress, therefore, applauds the demonstrated willingness of the Paz Estenssoro government, despite the risks of severe domestic criticism and disruptive economic consequences, to cooperate with the United States in Operation Blast Furnace.

(b) CONDITIONS ON ASSISTANCE.—Paragraph (2) of section 611 of the International Security and Development Cooperation Act of 1985 is amended by striking out subparagraphs (A) and (B) and inserting in lieu thereof the following:

"(A) up to 50 percent of the aggregate amount of such assistance allocated for Bolivia may be provided at any time after the President certifies to the Congress that Bolivia has engaged in narcotics interdiction operations which have significantly disrupted the illicit coca industry in Bolivia or has cooperated with the United States in such operations; and

"(B) the remaining amount of such assistance may be provided at any time after the President certifies to the Congress that Bolivia has either met in calendar year 1986 the eradication targets for the calendar year 1985 contained in its 1983 narcotics agreements with the United States or has entered into an agreement of cooperation with the United States for implementing that plan for 1987 and beyond (including numerical eradication targets) and is making substantial progress toward the plan's objectives, including substantial eradication of illicit coca crops and effective use of United States assistance.

"In the certification required by suparagraph (B), the President shall explain why the terms of the 1983 agreement proved unattainable and the reasons why a new agreement was necessary.".

(c) RELATION TO OTHER PROVISIONS.—Nothing in the amendment made by subsection (b) shall be construed as superseding any provision of section 481 of the Foreign Assistance Act of 1961.

(A) which, as a matter of government policy, encourages or facilitates the production or distribution of illegal drugs;

(B) in which any senior official of the government of such country engages in, encourages, or facilitates the production or distribution of illegal drugs;

(C) in which any member of an agency of the United States Government engaged in drug enforcement activities since January 1, 1985, has suffered or been threatened with violence, inflicted by or with the complicity of any law enforcement or other officer of such country or any political subdivision thereof; or

(D) which, having been requested to do so by the United States Government, fails to provide reasonable cooperation to lawful activities of United States drug enforcement agents, including the refusal of permission to such agents engaged in interdiction of aerial smuggling into the United States to pursue suspected aerial smugglers a reasonable distance into the airspace of the requested country; and

(2) describing for each country listed under paragraph (1) the activities and identities of officials whose activities caused such country to be so listed.

(b) RESTRICTIONS.—No United States assistance may be furnished to any country listed under subsection (a)(1), and the United States representative to any multilateral development bank shall vote to oppose any loan or other use of the funds of such bank for the benefit of any country listed under subsection (a)(1), unless the President certifies to the Congress that—

(1) overriding vital national interests require that provision of such assistance;

(2) such assistance would improve the prospects for cooperation with such country in halting the flow of illegal drugs; and

(3) the government of such country had made bona fide efforts to investigate and prosecute appropriate charges for any crime described in subsection (a)(1)(C) which may have been committed in such country.

(c) RELATION TO OTHER PROVISIONS.—The restrictions contained in subsection (b) are in addition to the restrictions contained in section 481(h) of the Foreign Assistance Act of 1961 or any other provision of law.

(d) DEFINITIONS.—For purposes of this section, the terms "major illicit drug producing country", "major drug-transit country", and "United States assistance" have the same meaning as is given to those terms by section 481(i) of the Foreign Assistance Act of 1961.

SEC. 2014. COMBATING NARCOTERRORISM.

(a) FINDING.—The Congress finds that the increased cooperation and collaboration between narcotics traffickers and terrorist groups constitutes a serious threat to United States national security interests and to the political stability of numerous other countries, particularly in Latin America.

(b) IMPROVED CAPABILITY FOR RESPONDING TO NARCOTERRORISM.—The President shall take concrete steps to improve the capability of the executive branch—

(1) to collect information concerning the links between narcotics traffickers and the act of terrorism abroad, and

(2) to develop an effective and coordinated means for responding to the threat which those links pose.

Not later than 90 days after the date of enactment of this Act, the President shall report to the Congress on the steps taken pursuant to this subsection.

(c) ADMINISTRATION OF JUSTICE PROGRAM.—Of the amounts made available for fiscal year 1987 to carry out section 534 of the Foreign Assistance Act of 1961 (22 U.S.C. 2346c; relating to the administration of justice program), funds may be used to provide to Colombia or other countries in the region such assistance as they may request for protection of judicial or other officials who are targets of narcoterrorist attacks.

(d) REWARD CONCERNING JORGE LUIS OCHOA VASQUEZ.—It is the sense of the Congress that the authority of section 36(b) of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2708(b)), as amended by section 502(a) of the Omnibus Diplomatic Security and Antiterrorism Act of 1986 (Public Law 99-399; enacted August 27, 1986), should be used expeditiously to establish a reward of up to $500,000 for information leading to the arrest or conviction of Jorge Luis Ochoa Vasquez for narcotics-related offenses.

SEC. 2015. INTERDICTION PROCEDURES FOR VESSELS OF FOREIGN REGISTRY.

(a) FINDING.—The Congress finds that—

(1) the interdiction by the United States Coast Guard of vessels suspected for carrying illicit narcotics can be a difficult procedure when the vessel is of foreign registry and is located beyond the customs waters of the United States;

(2) before boarding and inspecting such a vessel, the Coast Guard must obtain consent from either the master of the vessel or the country of registry; and

(3) this process, and obtaining the consent of the country of registry to further law enforcement action, may delay the interdiction of the vessel by 3 or 4 days.

(b) NEGOTIATIONS CONCERNING INTERDICTION PROCEDURES.—

(1) The Congress urges the Secretary of State, in consultation with the Secretary of the department in which the Coast Guard is operating, to increase effects to negotiate with relevant countries procedure which will facilitate interdiction of vessels suspected of carrying illicit narcotics.

(2) If a country refuses to negotiate with respect to interdiction procedures, the President shall take appropriate actions directed against that country, which may include the denial of access to United States ports to vessels registered in that country.

(3) The Secretary of State shall submit reports to the Congress semiannually identifying those countries which have failed to negotiate with respect to interdiction procedures.

SEC. 2016. INTELLIGENCE SUPPORT TO COMBATING THE DRUG PROBLEM.

(a) It is the sense of the Congress that the Intelligence Community can play a key role in United States efforts to prevent the importation of illegal drugs into the United States. It is also the sense of the Congress that the drug problem is sufficiently important that monitoring the production of illegal drugs and providing support to efforts to halt the trafficking in illegal drugs should be a high priority for the United States intelligence program.

(b) In order to improve the strategic international narcotics control program of the United States and to assist the reporting requirements of section 481(e) of the Foreign Assistance Act of 1961, the Congress directs the Director of Central Intelligence to improve the collection and analysis of foreign drug production sufficiently to produce highly reliable data on drug cultivation, harvest, and yields for each major illicit drug producing country (as defined by section 481(i) of the Foreign Assistance Act of 1961).

(c) The Congress also directs the Director of Central Intelligence (hereafter in this paragraph referred to as the "DCI") to make support to anti-drug efforts a Level One Priority in his National Foreign Intelligence Strategy and to reflect this priority in the National Foreign Intelligence Program. The Congress understands that—

(1) a copy of the DCI's National Foreign Intelligence Strategy will be provided to the Permanent Select Committee on Intelligence of the House of Representatives and the Select Committee on Intelligence of the Senate, with the DCI's budget request for fiscal year 1988; and

(2) the DCI will address Intelligence Community support to anti-drug efforts and the coordination of these efforts within the Intelligence Community in his presentation of the National Foreign Intelligence Strategy to the Committees.

SEC. 2017. ASSESSMENT OF NARCOTICS TRAFFICKING FROM AFRICA.

The Congress finds that—

(1) in response to the growing narcotics threat to the international community—

(A) the Single Convention on Narcotic Drugs, 1961, the 1972 Protocol amending that Convention, and the Convention on Psychotropic Substances were adopted under United Nations auspices, and

(B) the United Nations has created various entities to deal with drug abuse control and prevention; and

(2) a greater international effort is required to address this threat, such as additional or increased contributions by other countries to the United Nations Fund for Drug Abuse and Control and greater coordination of enforcement and eradication efforts.

SEC. 2022. INTERNATIONAL CONFERENCE ON DRUG ABUSE AND ILLICIT TRAFFICKING.

(a) CONGRESSIONAL SUPPORT.—The Congress hereby declares its support for United Nations General Assembly Resolution 40/122 adopted on December 13, 1985, in which the General Assembly decided to convene in 1987, an International Conference on Drug Abuse and Illicit Trafficking in order to generate universal action to combat the drug problem in all its forms at the national, regional, and international levels, and to adopt a comprehensive outline of future activities.

SEC. 2026. OPIUM PRODUCTION IN PAKISTAN.

(a) FINDINGS.—The Congress finds that—

(1) the production of opium in Pakistan is expected to more than double in the 1985-1986 growing season, posing an increased threat to the health and welfare of the people of Pakistan and the people of the United States; and

(2) despite past achievements, the current eradication program in Pakistan, which employs manual eradication of opium poppies, has proven inadequate to meet this new challenge.

SEC. 2032. NARCOTICS CONTROL EFFORTS IN MEXICO.

(a) CONGRESSIONAL FINDINGS.—The Congress finds—

(1) in their meeting in August 1986, President de la Madrid Hurtado and President Reagan recognized the unique relationship between our two countries and the impor-

tance and the desire to respect the sovereignty of each nation;

(2) further, the United States government has actively worked to support the Mexican government in easing its international debt burden;

(3) Both presidents pledged their cooperation in drug eradication, enforcement and education;

(4) This pledge of cooperation has not been realized fully because of the inadequate response of the Mexican government in:

(A) fully investigating the 1985 murders of U.S. Drug Enforcement Administration agent Enrique Camarena Salazar and his pilot, Alfedo Zavala Avelar;

(B) fully investigating the 1986 detention and torture of U.S. Drug Enforcement Administration agent Victor Cortez, Junior;

(C) bringing to trial and effectively prosecuting those responsible for the Camarena and Zavala murders and those responsible for the detention and torture of Cortez;

(D) using effectively and efficiently the fleet of aircraft provided by the United States government for drug eradication and interdiction; and

(E) preventing drug trafficking and drug-related violence on the U.S.-Mexican border.

(b) Therefore, it is the sense of Congress that unless substantial progress is demonstrated in the near future on the issues described in subparagraph (A)(4), the President should consider taking one or more of the following measures:

(1) imposition of a mandatory travel advisory for all of Mexico;

(2) restrictions on foreign assistance (including further disbursements from the Exchange Stabilization Fund and Federal Reserve Bank);

(3) denial of favorable tariff treatment for Mexican products;

(4) denial of favorable U.S. votes in multilateral development banks.

(3) funds to support the interdiction of narcotics smugglers who threaten the transport of drugs through the air, on the sea, and across the land borders of the United States should be emphasized in the Federal Government budget process to the same extent as the other elements of a comprehensive antidrug effort are emphasized;

(4) the Department of Defense and the use of its resources should be an integral part of a comprehensive, natonal drug interdiction program;

(5) the Federal Government civilian agencies engaged in drug interdiction, particularly the United States Customs Service and the Coast Guard, currently lack the aircraft, ships, radar, command, control, communications, and intelligence (C3I) system, and manpower resources necessary to mount a comprehensive attack on the narcotics traffickers who threaten the United States;

(6) the civilian drug interdiction agencies of the United States are currently interdicting only a small percentage of the illegal, drug smuggler penetrations in the United States every year;

(7) the budgets for our civilian drug interdiction agencies, primarily the United States Customs Service and the Coast Guard, have not kept pace with those of the traditional investigative law enforcement agencies of the Department of Justice; and

(8) since the amendment of the Posse Comitatus Act (18 U.S.C. 1385) in 1981, the Department of Defense has assisted in the effort to interdict drugs, but they can do more.

SEC. 3003. PURPOSES.

It is the purpose of this title—

(1) to increase the level of funding and resources available to civilian drug interdiction agencies of the Federal Government;

(2) to increase the level of support from the Department of Defense as consistent with the Posse Comitatus Act, for interdiction of the narcotics traffickers before such traffickers penetrate the borders of the United States and

Subtitle C—Indians and Alaska Natives

SEC. 4201. SHORT TITLE.

This subtitle may be cited as the "Indian Alcohol and Substance Abuse Prevention and Treatment Act of 1986".

PART I—GENERAL PROVISIONS

SEC. 4202. FINDINGS.

The Congress finds and declares that—

(1) the Federal Government has a historical relationship and unique legal and moral responsibility to Indian tribes and their members,

(2) included in this responsibility is the treaty, statutory, and historical obligation to assist the Indian tribes in meeting the health and social needs of their members,

(3) alcoholism and alcohol and substance abuse is the most severe health and social problem facing Indian tribes and people today and nothing is more costly to Indian people than the consequences of alcohol and substance abuse measured in physical, mental, social, and economic terms,

(4) alcohol and substance abuse is the leading generic risk factor among Indians, and Indians die from alcoholism at over 4 times the age-adjusted rates for the United States population and alcohol and substance misuse results in a rate of years of potential life lost nearly 5 times that of the United States,

(5) 4 of the top 10 causes of death among Indians are alcohol and drug related injuries (18 percent of all deaths), chronic liver disease and cirrhosis (5 percent), suicide (3 percent), and homicide (3 percent),

(6) primarily because deaths from unintentional injuries and violence occur disproportionately among young people, the age-specific death rate for Indians is approximately double the United States rate for the 15 to 45 age group,

(7) Indians between the ages of 15 and 24 years of age are more than 2 times as likely to commit suicide as the general population and approximately 80 percent of those suicides are alcohol-related,

(8) Indians between the ages of 15 and 24 years of age are twice as likely as the general population to die in automobile accidents, 75 percent of which are alcohol-related,

(9) the Indian Health Service, which is charged with treatment and rehabilitation efforts, has directed only 1 percent of its budget for alcohol and substance abuse problems,

(10) the Bureau of Indian Affairs, which has responsibility for programs in education, social services, law enforcement, and other areas, has assumed little responsibility for coordinating its various efforts to focus on the epidemic of alcohol and substance abuse among Indian people,

(11) this lack of emphasis and priority continues despite the fact that Bureau of Indian Affairs and Indian Health Service officials publicly acknowledge that alcohol and substance abuse among Indians is the most serious health and social problem facing the Indian people, and

(12) the Indian tribes have the primary responsibility for protecting and ensuring the well-being of their members and the re-

sources made available under this subtitle will assist Indian tribes in meeting that responsibility.

SEC. 4203. PURPOSE.

It is the purpose of this subtitle to—

(1) authorize and develop a comprehensive, coordinated attack upon the illegal narcotics traffic in Indian country and the deleterious impact of alcohol and substance abuse upon Indian tribes and their members,

(2) provide needed direction and guidance to those Federal agencies responsible for Indian programs to identify and focus existing programs and resources, including those made available by this subtitle, upon this problem,

(3) provide authority and opportunities for Indian tribes to develop and implement a coordinated program for the prevention and treatment of alcohol and substance abuse at the local level, and

(4) to modify or supplement existing programs and authorities in the areas of education, family and social services, law enforcement and judicial services, and health services to further the purposes of this subtitle.

SEC. 4204. DEFINITIONS.

(4) The term "prevention and treatment" includes, as appropriate—

(A) efforts to identify, and the identification of, Indians who are at risk with respect to, or who are abusers of, alcohol or controlled substances,

(G) referral to other sources of assistance or resources.

(5) The term "service unit" means an administrative entity within the Indian Health Service or a tribe or tribal organization operating health care programs or facilities with funds from the Indian Health Service under the Indian Self-Determination Act through which the services are provided, directly or by contract, to the eligible Indian population within a defined geographic area.

In the case of a State governmental authority, such a court order shall not issue if prohibited by the law of such State. A court issuing an order pursuant to this section, on a motion made promptly by the service provider, may quash or modify such order, if the information or records requested are unusually voluminous in nature or compliance with such order otherwise would cause an undue burden on such provider.

"(e) NO CAUSE OF ACTION AGAINST A PROVIDER DISCLOSING INFORMATION UNDER THIS CHAPTER.—No cause of action shall lie in any court against any provider of wire or electronic communication service, its officers, employees, agents, or other specified persons for providing information, facilities, or assistance in accordance with the terms of a court order, warrant, subpoena, or certification under this chapter.

"§ 2704. Backup preservation

"(a) BACKUP PRESERVATION.—(1) A governmental entity acting under section 2703(b)(2) may include in its subpoena or court order a requirement that the service provider to whom the request is directed create a backup copy of the contents of the electronic communications sought in order to preserve those communications. Such backup copy shall be created within two business days after receipt by the service provider of the subpoena or court order.

"(2) Notice to the subscriber or customer shall be made by the governmental entity within three days after receipt of such confirmation, unless such notice is delayed pursuant to section 2705(a).

"(3) The service provider shall not destroy such backup copy until the later of—

"(A) the delivery of the information; or

"(B) the resolution of any proceedings (including appeals of any proceeding) concerning the government's subpoena or court order.

"(4) The service provider shall release such backup copy to the requesting governmental entity no sooner than fourteen days after the governmental entity's notice to the subscriber or customer if such service provider—

"(B) has not initiated proceedings to challenge the request of the governmental entity.

"(5) A governmental entity may seek to require the creation of a backup copy under subsection (a)(1) of this section if in its sole discretion such entity determines that there is reason to believe that notification under section 2703 of this title of the existence of the subpoena or court order may result in destruction of or tampering with evidence. This determination is not subject to challenge by the subscriber or customer or service provider.

"(b) CUSTOMER CHALLENGES.—(1) Within fourteen days after notice by the governmental entity to the subscriber or customer under subsection (a)(2) of this section, such subscriber or customer may file a motion to quash such subpoena or vacate such court order, with copies served upon the governmental entity and with written notice of such challenge to the service provider. A motion to vacate a court order shall be filed in the court which issued such order. A motion to quash a subpoena shall be filed in the appropriate United States district court or State court. Such motion or application shall contain an affidavit or sworn statement—

"(A) stating that the applicant is a customer or subscriber to the service from which the contents of electronic communications maintained for him have been sought; and

"(B) stating the applicant's reasons for believing that the records sought are not relevant to a legitimate law enforcement inquiry or that there has not been substantial compliance with the provisions of this chapter in some other respect.

"(2) Service shall be made under this section upon a governmental entity by delivering or mailing by registered or certified mail a copy of the papers to the person, office, or department specified in the notice which the customer has received pursuant to this chapter. For the purposes of this section, the term 'delivery' has the meaning given that term in the Federal Rules of Civil Procedure.

"(3) If the court finds that the customer has complied with paragraphs (1) and (2) of this subsection, the court shall order the governmental entity to file a sworn response, which may be filed in camera if the governmental entity includes in its response the reasons which make in camera review appropriate. If the court is unable to determine the motion or application on the basis of the parties' initial allegations and response, the court may conduct such additional proceedings as it deems appropriate. All such proceedings shall be completed and the motion or application decided as soon as practicable after the filing of the governmental entity's response.

"(4) If the court finds that the applicant is not the subscriber or customer for whom the communications sought by the governmental entity are maintained, or that there is a reason to believe that the law enforcement inquiry is legitimate and that the communications sought are relevant to that inquiry, it shall deny the motion or application and order such process enforced. If the court finds that the applicant is the subscriber or customer for whom the communications sought by the governmental entity are maintained, and that there is not a reason to believe that the communications sought are relevant to a legitimate law enforcement inquiry, or that there has not been substantial compliance with the provisions of this chapter, it shall order the process quashed.

"(5) A court order denying a motion or application under this section shall not be deemed a final order and no interlocutory appeal may be taken therefrom by the customer.

"§ 2705. Delayed notice

"(a) DELAY OF NOTIFICATION.—(1) A governmental entity acting under section 2703(b) of this title may—

"(A) where a court order is sought, include in the application a request, which the court shall grant, for an order delaying the notification required under section 2703(b) of this title for a period not to exceed ninety days, if the court determines that there is reason to believe that notification of the existence of the court order may have an adverse result described in paragraph (2) of this subsection; or

"(B) where an administrative subpoena authorized by a Federal or State statute or a Federal or State grand jury subpoena is obtained, delay the notification required under section 2703(b) of this title for a period not to exceed ninety days upon the execution of a written certification of a supervisory official that there is reason to believe that notification of the existence of the subpoena may have an adverse result described in paragraph (2) of this subsection.

"(2) An adverse result for the purposes of paragraph (1) of this subsection is—

"(A) endangering the life or physical safety of an individual;

"(B) flight from prosecution;

"(C) destruction of or tampering with evidence;

"(E) otherwise seriously jeopardizing an investigation or unduly delaying a trial.

"(3) The governmental entity shall maintain a true copy of certification under paragraph (1)(B).

"(4) Extensions of the delay of notification provided in section 2703 of up to ninety days each may be granted by the court upon application, or by certification by a governmental entity, but only in accordance with subsection (b) of this section.

"(5) Upon expiration of the period of delay of notification under paragraph (1) or (4) of this subsection, the governmental entity shall serve upon, or deliver by registered or first-class mail to, the customer or subscriber a copy of the process or request together with notice that—

"(A) states with reasonable specificity the nature of the law enforcement inquiry; and

"(2) flight from prosecution;

"(3) destruction of or tampering with evidence;

"(4) intimidation of potential witnesses; or

(a) It shall be unlawful for any person knowingly or intentionally to possess a controlled substance unless such substance was obtained directly, or pursuant to a valid prescription or order, from a practitioner, while acting in the course of his professional practice, or except as otherwise authorized by this title or title III. Any person who violates this subsection may be sentenced to a term of imprisonment of not more than 1 year, and shall be fined a minimum of $1,000 but not more than $5,000, or both, except that if he commits such offense after a prior conviction under this title or title III, or a prior conviction for any drug or narcotic offense chargeable under the law of any State, has become final, he shall be sentenced to a term of imprisonment for not less than 15 days but not more than 2 years, and shall be fined a minimum of $2,500 but not more than $10,000, except, further, that if he commits such offense after two or more prior convictions under this title or title III, or two or more prior convictions for any drug or narcotic offense chargeable under the law of any State, or a combination of two or more such offenses have become final, he shall be sentenced to a term of imprisonment for not less than 90 days but not more than 3 years, and shall be fined a minimum of $5,000 but not more than $25,000. Discharge and dismissal under this subsection shall be without court adjudication of guilt, but a nonpublic record thereof shall be retained by the Department of Justice solely for the purpose of use by the courts in determining whether or not, in subsequent proceedings, such person qualifies under this subsection. Such discharge or dismissal shall not be deemed a conviction for purposes of disqualifications or disabilities imposed by law upon conviction of a crime (including the penalties prescribed under this part for second or subsequent convictions) or for any other purpose. Discharge and dismissal under this section may occur only once with respect to any person.

"(2) Upon the dismissal of such person and discharge of the proceedings against him under paragraph (1) of this subsection, such person, if he was not over twenty-one years of age at the time of the offense, may apply to the court for an order to expunge from all official records (other than the nonpublic records to be retained by the Department of Justice under paragraph (1)) all recordation relating to his arrest, indictment or information, trial, finding of guilty, and dismissal and discharge pursuant to this section. If the court determines, after hearing, that such person was dismissed and the proceedings against him discharged and that he was not over twenty-one years of age at the time of the offense, it shall enter such order. The effect of such order shall be to restore such person, in the contemplation of the law, to the status he occupied before such arrest or indictment or information. No person as to whom such order has been entered shall be held thereafter under any provision of any law to be guilty of perjury or otherwise giving a false statement by reason of his failures to recite or acknowledge such arrest, or indictment or information, or trial in response to any inquiry made of him for any purpose.

"(c) As used in this section, the term 'drug or narcotic offense' means any offense which proscribes the possession, distribution, manufacture, cultivation, sale, transfer, or the attempt or conspiracy to possess, distribute, manufacture, cultivate, sell or transfer any substance the possession of which is prohibited under this title.".

"(f) All right, title, and interest in property described in subsection (a) of this section shall vest in the United States upon commission of the act giving rise to forfeiture under this section.

"(g) The filing of an indictment or information alleging a violation of law which is

also related to a forfeiture proceeding under this section shall, upon motion of the United States and for good cause shown, stay the forfeiture proceeding.

"(h) In addition to the venue provided for in section 1395 of title 28 or any other provision of law, in the case of property of a defendant charged with a violation that is the basis for forfeiture of the property under this section, a proceeding for forfeiture under this section may be brought in the judicial district in which the defendant owning such property is found or in the judicial district in which the criminal prosecution is brought.

"(i) In the case of property subject to forfeiture under subsection (a)(1)(B), the following additional provisions shall, to the extent provided by treaty, apply:

"(1) Notwithstanding any other provision of law, except section 3 of the Anti Drug Abuse Act of 1986, whenever property is civilly or criminally forfeited under the Controlled Substances Act, the Attorney General may, with the concurrence of the Secretary of State, equitably transfer any conveyance, currency, and any other type of personal property which the Attorney General may designate by regulation for equitable transfer, or any amounts realized by the United States from the sale of any real or personal property forfeited under the Controlled Substances Act to an appropriate foreign country to reflect generally the contribution of any such foreign country participating directly or indirectly in any acts which led to the seizure or forfeiture of such property. The foreign country shall, in the event of a transfer of property or proceeds of sale of property under this subchapter, bear all expenses incurred by the United States in the seizure, maintenance, inventory, storage, forfeiture, and disposition of the property, and all transfer costs. The payment of all such expenses, and the transfer of assets pursuant to this paragraph, shall be upon such terms and conditions as the Attorney General may, in his discretion, set. Transfers may be made under this subsection during a fiscal year to a country that is subject to paragraph (1)(A) of section 481(h) of the Foreign Assistance Act of 1961 (relating to restrictions on United States assistance) only if there is a certification in effect with respect to that country for that fiscal year under paragraph (2) of that section.

"(2) The provisions of this section shall not be construed as limiting or superseding any other authority of the United States to provide assistance to a foreign country in obtaining property related to a crime committed in the foreign country, including property which is sought as evidence of a crime committed in the foreign country.

"(3) A certified order or judgment of forfeiture by a court of competent jurisdiction of a foreign country concerning property which is the subject of forfeiture under this section and was determined by such court to be the type of property described in subsection (a)(1)(B) of this section, and any certified recordings or transcripts of testimony taken in a foreign judicial proceeding concerning such order or judgment of forfeiture, shall be admissible in evidence in a proceeding brought pursuant to this section. Such certified order or judgment of forfeiture, when admitted into evidence, shall constitute probable cause that the property forfeited by such order or judgment of forfeiture is subject to forfeiture under this section and creates a rebuttable presumption of the forfeitability of such property under this section.

"(4) A certified order or judgment of conviction by a court of competent jurisdiction of a foreign country concerning an unlawful drug activity which gives rise to forfeiture under this section and any certified recordings or transcripts of testimony taken in a foreign judicial proceeding concerning such order or judgment of conviction shall be admissible in evidence in a proceeding brought pursuant to this section. Such certified order or judgment of conviction, when admitted into evidence, creates a rebuttable presumption that the unlawful drug activity giving rise to forfeiture under this section has occurred.

"(5) The provisions of paragraphs (3) and (4) of this subsection shall not be construed as limiting the admissibility of any evidence otherwise admissible, nor shall they limit the ability of the United States to establish probable cause that property is subject to forfeiture by any evidence otherwise admissible.

"(j) For purposes of this section—

"(2) the term 'Secretary of the Treasury' means the Secretary of the Treasury or his delegate.

"(2)(A) The assistance withheld by paragraph (1)(A) may be obligated and expended and the provisions of clauses (A) and (B) of paragraph (1) shall not apply if the President determines, and so certifies to the Congress, at the time of the submission of the report required by subsection (e), that—

"(i) a full and complete description of the vital national interests placed at risk should assistance, financing, or preferential tariff treatment not be provided such country; and "(ii) a statement weighing the risk described in subclause (i) against the risks posed to the vital national interests of the United States by the failure of such country to cooperate fully with the United States in combatting narcotics or to take adequate steps to combat narcotics on its own.

"(3) In making the certification required by paragraph (2) of this subsection, the President shall give foremost consideration to whether the actions of the government of the country have resulted in the maximum reductions in illicit drug production which were determined to be achievable pursuant to subsection (e)(4). The President shall also consider whether such government—

"(B) has taken the legal and law enforcement steps necessary to eliminate, to the maximum extent possible, the laundering in that country of drug-related profits or drug-related monies, as evidence by—

"(i) the enactment and enforcement of laws prohibiting such conduct, and

"(ii) the willingness of such government to enter into mutual legal assistance agreements with the United States governing (but not limited to) money laundering, and

"(iii) the degree to which such government otherwise cooperates with United States law enforcement authorities on anti-money laundering efforts.

"(4)(A) The provisions of paragraph (1) shall apply without regard to paragraph (2) if the Congress enacts, within 30 days of continuous session after receipt of a certification under paragraph (2), joint resolution disapproving the determination of the President contained in such certification.

"(B)(i) Any such joint resolution shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976.

"(ii) For the purpose of expediting the consideration and enactment of joint resolution under this subsection, a motion to proceed to the consideration of any such joint resolution after it has been reported by the appropriate committee shall be treated as highly privileged in the House of Representatives.

"(5) Any country for which the President has not made a certification under paragraph (2) or with respect to which the Congress has enacted a joint resolution disapproving such certification may not receive United States assistance as defined by subsection (i)(4) of this section, the financing described in (1)(B) of this subsection or and the preferential tariff treatment described in (1)(C) of this subsection unless—

"(A) the President makes a certification under paragraph (2) and the Congress does not enact a joint resolution of disapproval; or

(C) as a result of this operation the coca trade has in the short term been sharply constricted;

(D) the restoration of non-coca dependent economic growth in Bolivia is crucial to the achievement of long-term progress in controlling illicit narcotics production; and

(E) control of illicit drug production is crucial to the survival of democratic institutions and democratic government in Bolivia.

(2) The Congress, therefore, applauds the demonstrated willingness of the Paz Estenssoro government, despite the risks of severe domestic criticism and disruptive economic consequences, to cooperate with the United States in Operation Blast Furnace.

(3) the government of such country had made bona fide efforts to investigate and prosecute appropriate charges for any crime described in subsection (a)(1)(C) which may have been committed in such country.

(c) RELATION TO OTHER PROVISIONS.—The restrictions contained in subsection (b) are in addition to the restrictions contained in section 481(h) of the Foreign Assistance Act of 1961 or any other provision of law.

(1) in their meeting in August 1986, President de la Madrid Hurtado and President Reagan recognized the unique relationship between our two countries and the importance and the desire to respect the sovereignty of each nation;

(2) further, the United States government has actively worked to support the Mexican government in easing its international debt burden;

(3) Both presidents pledged their cooperation in drug eradication, enforcement and education;

(4) This pledge of cooperation has not been realized fully because of the inadequate response of the Mexican government in:

(A) fully investigating the 1985 murders of U.S. Drug Enforcement Administration agent Enrique Camarena Salazar and his pilot, Alfedo Zavala Avelar;

(B) fully investigating the 1986 detention and torture of U.S. Drug Enforcement Administration agent Victor Cortez, Junior;

(3) funds to support the interdiction of narcotics smugglers who threaten the transport of drugs through the air, on the sea, and across the land borders of the United States should be emphasized in the Federal Government budget process to the same extent as the other elements of a comprehensive antidrug effort are emphasized;

(4) the Department of Defense and the use of its resources should be an integral part of a comprehensive, natonal drug interdiction program;

(5) the Federal Government civilian agencies engaged in drug interdiction, particularly the United States Customs Service and the Coast Guard, currently lack the aircraft, ships, radar, command, control, communications, and intelligence (C3I) system, and manpower resources necessary to mount a comprehensive attack on the narcotics traffickers who threaten the United States;

(6) the civilian drug interdiction agencies of the United States are currently interdicting only a small percentage of the illegal, drug smuggler penetrations in the United States every year;

(7) the budgets for our civilian drug interdiction agencies, primarily the United States Customs Service and the Coast Guard, have not kept pace with those of the traditional investigative law enforcement agencies of the Department of Justice; and

partment of Defense has assisted in the effort to interdict drugs, but they can do more.

Subtitle C—Indians and Alaska Natives

SEC. 4201. SHORT TITLE.

This subtitle may be cited as the "Indian Alcohol and Substance Abuse Prevention and Treatment Act of 1986".

PART I—GENERAL PROVISIONS

SEC. 4202. FINDINGS.

The Congress finds and declares that—

(1) the Federal Government has a historical relationship and unique legal and moral responsibility to Indian tribes and their members,

(2) included in this responsibility is the treaty, statutory, and historical obligation to assist the Indian tribes in meeting the health and social needs of their members,

(3) alcoholism and alcohol and substance abuse is the most severe health and social problem facing Indian tribes and people today and nothing is more costly to Indian people than the consequences of alcohol and substance abuse measured in physical, mental, social, and economic terms,

(4) alcohol and substance abuse is the leading generic risk factor among Indians, and Indians die from alcoholism at over 4 times the age-adjusted rates for the United States population and alcohol and substance misuse results in a rate of years of potential life lost nearly 5 times that of the United States,

(5) 4 of the top 10 causes of death among Indians are alcohol and drug related injuries (18 percent of all deaths), chronic liver disease and cirrhosis (5 percent), suicide (3 percent), and homicide (3 percent),

(6) primarily because deaths from unintentional injuries and violence occur disproportionately among young people, the age-specific death rate for Indians is approximately double the United States rate for the 15 to 45 age group,

(7) Indians between the ages of 15 and 24 years of age are more than 2 times as likely to commit suicide as the general population and approximately 80 percent of those suicides are alcohol-related,

(8) Indians between the ages of 15 and 24 years of age are twice as likely as the general population to die in automobile accidents, 75 percent of which are alcohol-related,

(9) the Indian Health Service, which is charged with treatment and rehabilitation efforts, has directed only 1 percent of its budget for alcohol and substance abuse problems,

(10) the Bureau of Indian Affairs, which has responsibility for programs in education, social services, law enforcement, and other areas, has assumed little responsibility for coordinating its various efforts to focus on the epidemic of alcohol and substance abuse among Indian people,

(11) this lack of emphasis and priority continues despite the fact that Bureau of Indian Affairs and Indian Health Service officials publicly acknowledge that alcohol and substance abuse among Indians is the most serious health and social problem facing the Indian people, and

(12) the Indian tribes have the primary responsibility for protecting and ensuring the well-being of their members and the resources made available under this subtitle will assist Indian tribes in meeting that responsibility.

SEC. 4203. PURPOSE.

It is the purpose of this subtitle to—

(1) authorize and develop a comprehensive, coordinated attack upon the illegal narcotics traffic in Indian country and the deleterious impact of alcohol and substance abuse upon Indian tribes and their members,

(2) provide needed direction and guidance to those Federal agencies responsible for Indian programs to identify and focus existing programs and resources, including those made available by this subtitle, upon this problem,

(3) provide authority and opportunities for Indian tribes to develop and implement a coordinated program for the prevention and treatment of alcohol and substance abuse at the local level, and

(4) to modify or supplement existing programs and authorities in the areas of education, family and social services, law enforcement and judicial services, and health services to further the purposes of this subtitle.

SEC. 4204. DEFINITIONS.

For purposes of this subtitle—

(1) The term "agency" means the local administrative entity of the Bureau of Indian Affairs serving one or more Indian tribes within a defined geographic area.

(2) The term "youth" shall have the meaning given it in any particular Tribal Action Plan adopted pursuant to section 4205, except that, for purposes of statistical reporting under this subtitle, it shall mean a person who is 19 years or younger or who is in attendance at a secondary school.

(3) The term "Indian tribe" means any Indian tribe, band, nation, or other organized group or community of Indians (including any Alaska Native village or regional or village corporation as defined in, or established pursuant to, the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.)) which is recognized as eligible for special programs and services provided by the United States to Indians because of their status as Indians.

(4) The term "prevention and treatment" includes, as appropriate—

(A) efforts to identify, and the identification of, Indians who are at risk with respect to, or who are abusers of, alcohol or controlled substances,

(B) intervention into cases of on-going alcohol and substance abuse to halt a further progression of such abuse,

(C) prevention through education and the provision of alternative activities,

(D) treatment for alcohol and substance abusers to help abstain from, and alleviate the effects of, abuse,

(E) rehabilitation to provide on-going assistance, either on an inpatient or outpatient basis, to help Indians reform or abstain from alcohol or substance abuse,

(F) follow-up or after-care to provide the appropriate counseling and assistance on an outpatient basis, and

(G) referral to other sources of assistance or resources.

(5) The term "service unit" means an administrative entity within the Indian Health Service or a tribe or tribal organization operating health care programs or facilities with funds from the Indian Health Service under the Indian Self-Determination Act through which the services are provided, directly or by contract, to the eligible Indian population within a defined geographic area.

(3) 10 million adults and 3 million children and adolescents abuse alcohol, and an additional 30 to 40 million people are adversely affected because of close family ties to alcoholics;

(4) the total cost of drug abuse to the nation in 1983 was over $60,000,000,000; and

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

ADDITIONAL STATEMENTS

ASBURY CHURCH'S SESQUICENTENNIAL

● Mr. MATHIAS. Mr. President, the Asbury United Methodist Church in Washington, DC, observes its sesquicentennial this year, celebrating 150 years of community outreach and involvement. I am proud to note that Maryland residents comprise approximately one-third of the church's membership.

Asbury Church's proud history began 27 years before the Emancipation Proclamation. It was in 1836 when 118 members of Foundry Church decided to form their own congregation. Recognizing the great benefits of education, Asbury housed several schools as early as 1863.

Continuing its pioneer spirit, the church, in 1947, sponsored the first interracial housing facility in the District of Columbia, the Roydon Apartments at 1619 R Street NW. A year later, Asbury became the first church in the District to establish a church Federal credit union. In 1955, under the pastorate of Rev. Robert Moton Williams, the church founded the Wesley Foundation at Howard University, the first of its kind on a black university campus. In 1963 and again in 1983, Asbury fed and sheltered many of the thousands who came to participate in the March on Washington.

In 1982, Asbury sponsored and dedicated a 147-unit home for elderly and handicapped individuals in the old Shaw Junior High School. It was the first such conversion of a former school to a residential facility in Washington.

Today, Asbury operates a food pantry, sponsors a child development center, and sponsored and built a church/school in Monjama, Sierra Leone, West Africa.

I know my colleagues join me in congratulating Asbury United Methodist Church on 150 years of contributing good works, heart, and spirit to our local community in the Nation's Capital.●

TRIBUTE TO JOHN A. "JACK" LOGAN (1896-1986)

HE MADE THE FOOD INDUSTRY A SHOWCASE FOR DEMOCRACY

● Mr. GLENN. Mr. President, in a town teeming with representatives of every interest conceivable, the death of one seldom is noticed outside a small circle of business associates. A notable exception is the recent passing of John A. "Jack" Logan (1896-1986), a distinguished native from my State and the town of Medina.

For more than a quarter century, Mr. Logan was president of the National Association of Food Chains, one of the two groups that merged to form today's Food Marketing Institute. Over four decades beginning in the 1930's, he represented the chain grocery field and ultimately supermarketing and the entire food industry.

He was one of the best industry representatives in his day. His brilliance flowed from a broad vision of the food industry that transcended the limits of his own segment. He learned to link the needs of his industry with a broader need—whether it was farmers, consumers, the Nation or the common good.

Several examples illustrate his gift. In 1935 food chains were under attack for unfair competition, depressing prices, inflating prices, causing the depression and many other evils. The attack was comparable to the more recent assaults on the nuclear and oil industries. So intense was the assault that many critics went beyond calling for regulation of the industry. They wanted to outlaw the chains, make the whole business illegal.

At first Mr. Logan tried conventional methods to defend his industry—to no avail. Then he hit upon a novel way of demonstrating why chain grocery stores ought not to be outlawed. He showed how chains could alleviate that chronic problem of American farmers—commodity surpluses. To do this, he orchestrated a series of producer-consumer campaigns.

The first focused on a 6.47 million case surplus of canned peaches in 1935. About 35,000 chain stores promoted peaches over four 1-week periods, using a blitz of national and local advertising. In those 4 weeks, the campaign cleared out two-thirds of the surplus. The consumer demand triggered by the campaign rescued peach farmers from the brink of bankruptcy as their price per ton surged up to $30, from a low of $15.

Under Mr. Logan's leadership, NAFC featured 400 commodities in this way. Many had a stunning impact like the peach campaign. Some introduced products to many American palates, such as the grapefruit and avocado campaigns. In all cases, farmers benefited from reduced surpluses and increased prices; and consumers, from an excellent value at the supermarket.

Soon after the first commodity campaigns, Mr. Logan turned the attention of his industry to the poor and hungry. In 1939 he conceived of the first Federal Food Stamp Program, which came to serve 4 million people in 1,700 locales before it was discontinued in 1943. For his efforts, the U.S. Secretary of Agriculture awarded Mr. Logan with Food Stamp Book No. 4.

He assisted the war effort by helping the military develop centralized chain buying methods, which saved taxpayers millions of dollars. He recruited many chain executives to handle the mass distribution efforts to feed millions of troops overseas. For the first time in any war, we were able to ship fresh, perishable products to troops fighting thousands of miles away.

After the war, Mr. Logan helped universities develop curricula in food distribution. The first was Michigan State then Cornell; and he assisted the University of Southern California, working with the Western Association of Food Chains.

A high point in his career was a series of international exhibitions, entitled "Supermarkets U.S.A." The principal ones were held in Rome, Madrid, and Zagreb, Yugoslavia. In these, he introduced to Europe the supermarket, a distinct American innovation. The exhibits prompted many Europeans to introduce supermarkets to their own countries.

The supermarket became a "showcase for democracy," as Mr. Logan often said, showing our abundance of food available to consumers at economic prices. Supermarkets U.S.A. had

a far more profound impact abroad than our fashion and car exhibitions. The internationals already were impressed with our bountiful farm system; the supermarket became the means to bring that bounty to the people.

Throughout his life, Mr. Logan was an ambassador for the food industry in the Nation's Capital and around the world. Helping him greatly over the last 25 years was his wife, Rebecca Pollard "Polly" Logan, who survives him along with his son, John A. Logan, Jr.

In many ways, Mr. Logan helped America attain the best standard of living in the world. A book on his achievements carries the appropriate title of "America The Bountiful." His legacy survives also in the statement of philosophy of the group that succeeded NAFC, the Food Marketing Institute:

> The grocery retailer is the purchasing agent for the consumer and the means by which the farmer and other producers make their products available to the public. In these two functions, the retailer serves to satisfy fundamental needs of everyone in our society.

The life of John A. Logan illustrated how an industry can best serve itself by serving the needs of society. His example will always be with us.●

SALUTE TO MAYOR JUNE DEMOS

● Mr. DURENBERGER. Mr. President, one of the things that makes America the great Nation it is involves the dedication of thousands of local elected officials like Mayor June Demos of Roseville, MN.

Over the past quarter century, June Demos has more than done her part to represent the interests of her fellow residents of Roseville, as mayor, a member of the city council, a school board member, and planning commissioner.

Now, because of an incurable eye disease, June is retiring as mayor. Her contributions and deep commitment to her community will be missed. But, the kind of spirit and caring for others which she brought to her responsibilities as a public officials won't soon be forgotten.

Mr. President, because of the outstanding contributions made by June Demos, I ask that the following article from the Minneapolis Star and Tribune be printed in the RECORD.

The article follows:

ROSEVILLE MAYOR QUITS PUBLIC LIFE TO PLAN A NEW ITINERARY

(By Jim Parsons)

Last year at Christmastime, June Demos was talking on long distance with her son and his family, who live in Greece.

"My grandson, Joel—he's 9—he got on the phone and said to me, 'Grandma, it just doesn't seem like Christmas without you and Grandpa.' "

"I'll bet you can guess where I'm going to be this Christmas," Demos said.

You can bet it's not going to be at the Roseville City Hall listening to a disgruntled driver who has been deeply wronged by a parking ticket. Or planning a conference for Minnesota's mayors. Or talking to the guys at the League of Minnesota Cities about fiscal disparities.

Grandma (and Grandpa) probably are going to be in Greece. Or maybe in Australia, where daughter No. 2 works in the U.S. Embassy. Or maybe in a condo in Florida.

But Roseville will have to do without its mayor. The mayors' conference will have to do without its leader. The Association of Metropolitan Municipalities will have to do without one of its founding members and first president.

After virtually becoming an institution in Roseville—she's been mayor, a City Council member, a planning commissioner, a school board member, PTA president and Girl Scout leader—Demos has decided to quit at age 62.

The main reason she is resigning in midterm is that she has an incurable eye disease that is robbing her of her eyesight. When the problem was diagnosed two years ago the doctor said that there would be a slow deterioration and that she would eventually be blind. It might take 15 years but it might happen in three.

In the past year the deterioration has been "going very fast," Demos said, especially in the left eye. That, combined with several other things, has made her think a lot about Christmas with Joel and her other two grandchildren. And about winters in Minnesota when there is a condo waiting in Florida.

"I decided that it's about time I did some things for myself. That if I'm ever going to have time with my husband, it's now. And to take that trip to Greece and Australia.

"I don't mean for it to sound like that I haven't enjoyed politics and city government, I have, and I believe that I have left the world—or, at least, Roseville—a better place for my having been here. That's important to me. My mother raised me to believe that we should do that.

"But I am tired of the phone calls in the middle of the night from some drunk who can't wait to tell you why he's mad at City Hall. And I'm tired of having to help people through the maze of government when they have a problem. You have to do that. In a small town (Roseville's population is 36,000) you simply have to do that.

"You also get tired of having to plan your personal life—vacations and going to concerts and the like—around council meetings or board meetings."

A damaged Achilles tendon that makes it difficult for her to climb steps also helped her make up her mind. So has the possibility that her husband will retire from his job as an engineer with Honeywell or, perhaps, get a transfer to Honeywell's space operation in Florida.

But it was the deteriorating eyesight that has, in effect, forced the issue.

Demos talks easily about her eye problem (Doyne's disease) and without any self-pity. "I've already learned to make some adjustments," she said. "I use a magnifying glass much of the time when I'm reading and I dial the phone without looking at the numbers.

"I decided one day that I would have to start using my sense of touch to identify car keys. Then I had to stop and laugh at myself for forgetting that blind people don't have much need for car keys.

I guess that's what bothers me most—losing my independence. I've always been an independent person and I'm used to doing things when I want to. It will be hard to adjust to relying on others to do things that I do without thinking about it now."

It was Demos' independent streak that got her into politics some 25 years ago. She and several neighbors were upset about the location of a city playground and noisy go-cart track. The group fought City Hall and lost, prompting one of the members to decide to run for the City Council.

In an outburst of uninhibited emotion, Demos volunteered to manage the campaign. Her candidate won.

That led to appointments to various committees—the first dealt with city streets—and commissions. In 1971 there was a vacancy on the City Council, and she realized that the three men who were running had no appreciable experience with city government. So she ran against them. She lost ("We got in too late with too little"), but the next time around she won.

That was back in the days when women were sometimes told that their place was in the kitchen, not in City Hall. She decided to deal with that issue straight up in a statement in her campaign literature:

"They say that women are too emotional to be in politics, but I have seen men get up and stomp out of council meetings and become so emotional that they resort to using profanity.

"Yes, I'm emotional. If I wasn't, I'd be dead."

Demos said that seemed to put the issue to rest. "I've never felt that my being a woman was a significant factor in any of my campaigns. Nor have I had any difficulty in dealing with the city staff, but I know women mayors who have had that problem."

Demos was elected mayor in 1975 and has presided over a period of business development in the city. Without prompting, she gives a short speech on the importance of city officials being aggressive in seeking development but also having to be aggressive in shaping it to the needs and interests of the community. It isn't development, however, that she considers her most significant contribution.

"We've opened up city government, brought people into the process who have something to contribute. I'm proud of that because when I first got involved city government was ingrown. The same people seemed to make all the decisions no matter what the forum. I think we've changed that."

Demos said she has no regrets about not trying for higher political office despite the fact that her involvement in various organizations gave her a wide exposure to statewide problems.

She was courted more than once by the Independent-Republicans to run for the Legislature or other office, but she always said no even though she was active in the party.

"The party endorsing process can really get rough," she said. "They (the factions within the party) can chew candidates up and split them out, and I never wanted to go through that."

Besides, there was plenty to do as mayor. And she enjoyed it. At least, she enjoyed it until her health turned bad. And until a 9-year-old reminded her of some of the things she was missing.

H.R. 5484—VETERANS' ADMINISTRATION DRUG AND ALCOHOL TREATMENT

● Mr. CRANSTON. Mr. President, I am delighted that in further amending H.R. 5484, the "Omnibus Drug Enforcement, Education, and Control Act," the Senate will be persisting in its support of the provision I proposed to transfer to the Administrator of Veterans' Affairs up to $11 million to be used to enhance the Veterans' Administration's alcohol and drug dependence treatment program.

The VA's program of treatment and rehabilitation of alcohol- and drug-dependent veterans is the largest, centrally managed health-care system involved in the treatment of alcohol and drug dependent persons, currently maintaining 102 alcohol-dependence treatment units and 51 drug-dependence treatment units which provide detoxification, inpatient, outpatient, and extended care services. I believe that enhancing the VA's already-existing program will be a very productive use of Federal substance-abuse funding. On October 2, I contacted all of the Senate conferees and certain key Members of the other body to urge that they retain this portion of the legislation enhancing the VA's well-regarded alcohol- and drug-dependence treatment program. I am disappointed that the House-amended version contains only an authorization of appropriations for VA drug and alcohol treatment, rather than an earmark as in the Senate version, and that the maximum additional amount that could be made available for this purpose was reduced to $6 million.

Mr. President, for a more extensive outline of the current VA, alcohol- and drug-dependence treatment program and the projected enhancement of the program, I refer my colleagues and others to my September 30, 1986, remarks on this provision, which begin on page S14279 of the September 30 RECORD.

Mr. President, I should like again to express my great appreciation to the principal sponsors of the Senate bipartisan measure, the two leaders [Mr. BYRD and Mr. DOLE], and to the other two major sponsors of the Democratic legislative package, S. 2798, of which I was an original cosponsor, Senate CHILES and Senator BIDEN, for their cooperation in incorporating this provision into the Senate-passed bill and now into the latest bipartisan package.●

NEW NATIONAL PARTNERSHIP TO PROMOTE RESEARCH IN AGING

● Mr. HEINZ. Mr. President, last week I participated in the opening ceremonies of a new national organization, the Alliance for Aging Research. The alliance has been established to promote research into the aging process as sound social and scientific policy for the United States. I was joined by several of my colleagues from the Senate and House and many other distinguished and notable leaders committed to the field of aging.

The Alliance for Aging Research is a bipartisan, private, nonprofit foundation that unites scientists, Federal officials, corporate and foundation leaders in endorsing a national policy to support research into gerontology and preventive geriatrics. This research, in a rapidly aging society, is vital to the national interest. The alliance will explore the potential for ushering in a generation of people whose health and vitality in later years may be unprecedented. The alliance will strive to broaden the discussion of the "graying" of our Nation to consider research that could lead to healthy, vigorous, self-productive old age for a greater number of people.

In the decade since the founding of the National Institute on Aging, no organization has emerged as the preeminent citizen support group for aging research. Although the NIA is the focal point for Federal research in aging, there is much that the Veterans' Administration, the Department of Agriculture, and several of the National Institutes of Health are doing in research that will be critical to our making the most of our aging population. Until the alliance was established, there was not a central private-sector focus here in the Nation's Capital from which to begin to develop a national consensus in support of aging research. Clearly, there is a need for an organization that can strengthen and unify all efforts to promote aging research and whose solid base of support will be able to effect the formulation of our Nation's science policies.

The Alliance for Aging Research has been established to fill that role. It provides a unique contribution to the field of aging, both through its mission, and by its creation of a national partnership between science, government, and business.

As chairman of the Special Committee on Aging, I believe one of the most fundamental issues our society faces is how to cope humanely with a burgeoning elderly population. Of critical importance in addressing this issue is the need for greater basic science research into the processes of aging. Medical science earlier in the century produced breakthroughs in understanding that allowed so many to experience old age. Now the challenge is to enable many more people to experience vigorous, vital, nonsenescent life to its maximum limits. I look forward to working closely with the alliance to meet this challenge.

I am very proud of my role in helping to launch this effort, because I believe the goals of the Alliance for Aging Research may make an important difference in improving the quality of human life for each and all of us. In addition to myself, I'd like to commend my colleagues who are also founding members of the Alliance for Aging Research and who comprise its Congressional Advisory Board: Senators CHILES, CRANSTON, GLENN, GORE, GRASSLEY, HATCH, HAWKINS, and PRESSLER.

The Members from the House include: Representatives PEPPER, RINALDO, ROYBAL, SCHNEIDER, and WYDEN.●

IMPORT FEE ON CRUDE OIL AND PETROLEUM PRODUCTS

● Mr. BENTSEN. Mr. President, I would like to bring to the attention of my colleagues Senate Concurrent Resolution 5, as passed by the 69th legislature, second called session, 1986, of the State of Texas. The resolution requests that Congress pass and send to the President an act imposing an import fee on crude oil and petroleum products imported into this country.

The resolution follows:

SENATE CONCURRENT RESOLUTION No. 5

Whereas, The domestic oil industry is of vital importance to national security and the American economy; and

Whereas, Changing worldwide trade practices have resulted in the destabilization of our economy with particularly dire effects on the domestic oil industry; and

Whereas, Increasing dependence on foreign oil imports will result in the plugging of numerous domestic wells and the lessening of exploration; and

Whereas, A secure domestic energy resource base should be a strategic part of our national security objectives; and

Whereas, Presently the Middle East and North Africa have oil reserves of 433 billion barrels dwarfing the 27-billion-barrel reserves of the United States; and

Whereas, Seventy-five percent of crude oil and crude oil products in the world are produced by governments, not oil companies; and

Whereas, If OPEC members are allowed to dominate the market, both American consumers and oil producers will become their victims; and

Whereas, Domestic oil production during the first half of 1986 was down 140,000 barrels a day compared to the same period in 1985, while at the same time, consumption increased by 515,000 barrels a day; and

Whereas, The escalating consumption of foreign oil imports and concurrent excessive dependence on foreign oil seriously jeopardize national security by the threat of energy blackmail; and

Whereas, The federal government should act promptly to address these national security concerns and pursue means of limiting dependence on foreign oil; now, therefore, be it

Resolved, That the 69th Legislature of the State of Texas, 2nd Called Session, request the Congress of the United States to pass and send to the president an act imposing an import fee on crude oil and petroleum products imported into the United States; and, be it further

Resolved, That the Texas delegation be urged to support the proposals of Senator Lloyd Bentsen requiring the federal government to take the steps needed to reduce our dependence on foreign oil; and, be it further

Resolved, That the Texas Secretary of State forward official copies of this resolution to the President of the United States, to the President of the Senate and the Speaker of the House of Representatives of the United States Congress, and to all members of the Texas delegation to the congress with the request that this resolution be officially entered in the Congressional Record as a memorial to the Congress of the United States.●

IN EXPLANATION OF IMPEACHMENT VOTES

● Mr. McCONNELL. Mr. President, I would like to give some explanation for the manner in which I have cast my vote to convict Judge Harry E. Claiborne in this Senate Court of Impeachment. I will, therefore, briefly discuss each of the articles and my vote on each. Before I do so, however, I would like to address an issue which has haunted this impeachment proceeding since its inception.

Time after time during the evidence gathering sessions of the Senate Impeachment Trial Committee, of which I was a member, Judge Claiborne's counsel alleged that Claiborne's conviction of tax fraud was the direct result of prosecutorial and judicial misconduct. The defense stated that Judge Claiborne was the target of a sting, that he was stalked day and night by Government agents, that local FBI agents actively sought to "get him," and that this conspiracy involved not only Nevadan law enforcement officials but extended to the highest offices of the land. Time and time again Judge Claiborne's counsel strained against the limits established by the committee to seek and admit evidence of wrongdoing on the part of these officials. The implication he gave suggested that if only one more witness were called or one more piece of evidence were admitted, the clouds would part and the Senate would see that, indeed, Claiborne was guilty of no wrongdoing. And that only the IRS, the Justice Department, or some other Government agency had acted in an egregiously improper manner.

This impeachment proceeding sought to determine the wrongdoing of only one man—Judge Harry E. Claiborne. The evidence presented before the Impeachment Committee and the Senate was ample to prove his culpability. Any allegations of wrongdoing on the part of Government agents, and I will admit that some evidence of such activity was disturbing to me, was extraneous and fundamentally irrelevant to this proceeding. Nevertheless, the committee allowed Claiborne's counsel wide latitude in presenting evidence of prosecutorial misconduct to the extent such misconduct shaped testimony or tampered with exhibits. In sum, then, the Senate has heard all available evidence of misconduct on the part of Government agents to the extent such evidence is the least bit relevant to the issue at hand—the fitness of Judge Claiborne for office.

As just mentioned, however, I am disturbed by the allegations of prosecutorial targeting in the case of then Judge Claiborne. I am concerned about the possible overzealousness on the part of Justice Department, strike force, and IRS agents. Although our common law has traditionally granted prosecutors wide discretion in who and how they prosecute, that discretion surely has its limits. The prosecution of Harry Claiborne, I feel, may have been at the outer limits of that discretion. Consequently, I support the establishment of a special ivestigatory committee which will inquire into allegations of IRS and Federal strike force improprieties. If those charged to enforce laws fail to observe them scrupulously, the future of our Government of laws is imperiled. This unique committee will investigate and report on these law enforcement activities not only in the case of Judge Claiborne, but in cases nationwide. The fruit of this investigation will either put these allegations to rest as baseless or clearly reveal improprieties and allow for their correction.

I voted guilty on articles I and II for the simple reason that the record clearly established Claiborne's fraud for the 1979 and 1980 tax years. Without reciting all the facts before the Senate for its consideration, I felt the following facts for the 1979 tax year important for showing Claiborne's intent to defraud. First, Judge Claiborne gave his accountant preparing his tax return only his bank statements knowing full well that those bank statements would not reflect several large check payments Claiborne received which he had cashed in casinos. Second, Judge Claiborne for the first time in his life started cashing checks at casinos, where the income could not be easily recorded, rather than at banks. Third, only 19 days after tallying up his legal income of approximately $45,000 for 1979 and sending that figure to his accountant, Judge Claiborne failed to correct his accountant when he unknowingly read back to Claborne the incorrect sum of appoximately $22,000 as legal income for that year.

The facts are more damaging for 1980. First, Judge Claiborne dropped his accountant (and friend) of many years, refusing even to return the accountant's several inquiring telephone calls. Second, the tax return was so incompetently completed that it could not have failed to raise questions in Caliborne's mind. Third, even after a discussion with his accountant about the unorthodox and unauthorized manner in which ordinary and capital income was treated on the return, Claiborne did not attempt to vitiate the return. Fourth, Claiborne showed no alarm that the return showed a tax liability of only $1,103 for a year in which he earned about $85,000 in legal fees, $54,000 in his judicial salary, and he acquired a $214,000 gain in the sale of his home.

These facts were decisive in my mind in judging Judge Claiborne's state of mind during the tax years of 1979 and 1980. They prove to me that through a combination of active concealment and passive reliance on the incompetence of others Judge Claiborne sought to defraud the U.S. Government of lawful tax payments.

I did not find Judge Claiborne guilty under article III, I did not find so principally because conviction under that article would connote an improper reliance by the Senate on the judicial system when it determines impeachable offenses. The Constitution grants the Senate the sole power to try impeachment cases. The Senate has great discretion in deciding exactly how it will try a particular case, including perhaps a decision to rely on the transcript of a previous judicial trial. However, I feel it would abrogate its constitutional duty if the Senate were to rely soley on a judicial judgment to convict, in turn, in a Senate impeachment trial. Further, this kind of reliance on a court decision may establish a crippling precedent should the Senate find itself trying a judge or other Federal official concerning some wrongdoing for which the courts have previously acquitted the official. This possibility is quite real. A Federal judge was recently acquitted of bribery charges in a criminal trial. However, the judges' governing body is preparing to request the House of Representatives to draw up articles of impeachment against this judge. In refusing to vote guilty on article III, I sought to avoid tying my hands and those of the Senate when the time comes again that the Senate sits as a Court of Impeachment.

Article IV alleged that Judge Claiborne brought disrepute upon the Federal judiciary by defrauding the Government and by his consequential imprisonment. The obviousness of this allegation required me to vote guilty. Our Federal Judiciary is nothing if it is not an esteemed and respected branch of Government. Having control of neither the purse nor the sword, our judges rule by the power of their wisdom and the respect due their integrity. Indeed, the Judicial Code of Ethics rightly admonishes judges to avoid even the appearance of impropriety. In the case of Judge Claiborne a jury of his peers convicted him of a felony charge relying on evidence which the Senate felt was ample to

support such a conviction. A felony conviction goes well beyond the appearance of impropriety. Judge Claiborne's fraudulent acts generated notoriety. The reputation of our judicial system cannot tolerate this kind of wound through which the citizenry's good will will bleed. For this reason I voted Judge Claiborne guilty on the charge of Article IV.●

HONORING SENATOR JOHN SHERMAN COOPER

● Mr. McCONNELL. Mr. President, as we rush to bring this session to a close, I would like to take a few minutes to honor one of my predecessors and a colleague to many of the Members still serving in the U.S. Senate, Senator John Sherman Cooper.

Senator Cooper's public service is extraordinary. He served the people of Kentucky as a county judge, State representative, and U.S. Senator. He served his country as an officer in Germany during World War II and later returned to Europe as the first U.S. Ambassador to East Germany. In the same capacity he represented our country in India and Nepal. Senator Cooper also served as a U.S. delegate to the U.N. General Assembly.

On Saturday, September 28, hundreds of Kentuckians and friends from all across the Nation gathered in the small southeastern Kentucky town of Somerset to unveil a statue of John Sherman Cooper. Although the bronze likeness now stands only a few hundred yards from where the Senator was raised, it represents a public career which took John Sherman thousands of miles away from his Kentucky home.

Yet, throughout the incredible career which led Senator Cooper to all corners of the world, he never lost touch with those at home. As an elected official Senator Cooper voted for what he believed was best for the people of Kentucky and the Nation, even when his opinion may not have been popular at that time. The positions Senator Cooper took often made him a political maverick. Still, everyone knew and respected his honest and heartfelt motives.

Senator Cooper never forgot those whom he represented during the 20 years he served in this Chamber. And they never forgot him. As the recent crowd at the fountain square in Somerset gathered to honor this outstanding Kentuckian, so did rain clouds. Hundreds of Senator Cooper's well-wishers, including former Majority Leader Howard Baker of Tennessee, stood faithfully through hours of rain and delays to pay tribute to one of our most outstanding Kentuckians.

In an almost ironic fashion, the inclement weather was representative of the violent times in which John Sherman Cooper, the public servant, arose and spoke out—during the cold war, the civil rights struggle, the Vietnam war. Just as he did at those times, on a recent rainy Saturday in Somerset, KY, 85-year-old John Sherman Cooper rose, despite the storm, and spoke out.

I am sure that may fellow Senators join me in honoring John Sherman Cooper. And I hope my colleagues feel as I do that Senator Cooper's record is one we all should try to emulate.

80TH BIRTHDAY OF HERMAN GLIEM

● Mr. BOSCHWITZ. Mr. President, as an immigrant myself, I have a special place in my heart for stories about those who have come to our great country in search of the American dream and gone on to become respected, contributing citizens of their communities. Friday marks the 80th anniversary of the birth of one of my constituents, Herman Gliem. Although I do not know Herman personally, his story was recently brought to my attention by his family, and I would like to share it with you.

Herman Gliem was born October 1, 1906, in the farm village of Untersuhl, Germany, which is located on the current border between East and West Germany. In 1926, when he was 20 years old, he borrowed money from his uncle in the United States and immigrated to Minneapolis, MN, to escape the stifling economic conditions in Germany and to find a new life. Though unable to speak, read, or write English, while living at the YMCA, he found work and attended night school—like millions of other immigrants—to learn English. Five years later he established a men's clothier business in Minneapolis, specializing in custom men's clothing, which he ran for almost 30 years. He also moved out of the YMCA and married Martha Johnson of Menahga, MN.

Herman has been very active with the Shriners—giving innumerable hours to the Shrine circus and parade—and with St. Paul Folks Fest German/American Club, serving as president of the senior group for 10 years. He has survived five heart attacks, is currently fighting cancer, has raised two daughters, and lives with his wife Martha in Minneapolis. Herman typifies the American dream in which millions of poor immigrants have, through their own efforts against heavy odds, established themselves, become solid citizens, and contributed significantly to helping this country become the great hope of the world.

Mr. President, I ask you and my colleagues to join me in sending birthday greetings to Herman Gliem.●

DEDICATION OF M. LARRY LAWRENCE JEWISH COMMUNITY CENTER

● Mr. CRANSTON. America's strength as a nation rests on many foundations. One of the most crucial is the diversity and dynamism of our community life.

Communities that work are more than just collections of people who live in the same area. Successful communities are comprised of people who share the goal of making their community better. Such people know that good communities don't just happen. They require commitment and hard work.

Larry Lawrence knows this. He has long been a leader in the San Diego community. Larry also knows that every community needs a place where people can come together to learn, to grow, to have fun and to get to know their neighbors better.

Because of Larry Lawrence's commitment to his community and his recognition of his neighbors' need for a place to call their own, San Diego's community life gets better all the time.

The newest improvement will be the opening of the second phase of the M. Larry Lawrence Jewish Community Center. This cultural and recreational oasis for people of all denominations will contain a full-size gymnasium, dance studio, music room, fitness room, arts and crafts facility, adult and senior lounge, and snack bar. Also included are the Albert Hutler Tennis Center and the largest aquatic facilities and swimming pool in San Diego County.

Larry's donation to the center was integral in getting the project off the ground. But Larry's true strength as a community leader comes from his recognition that the real secret is getting everybody involved. He shares the credit that all concerned so richly deserve with the city, the local legislators, and the police force.

Why does Larry Lawrence care so much? His own words tell the story: "When I grew up, the YMCA kept me off the streets. I hope others realize centers such as this are the backbone of our communities."

Because of Larry Lawrence, people do.●

THE NEW GOVERNMENT OF PRESIDENT AQUINO

● Mr. LUGAR. Mr. President, the publisher and editor in chief of the Philippine News, the largest Filipino-American newspaper in the United States, Mr. Alex A. Esclamado, has written a most perceptive and moving article about the new government of President Aquino. I wish to correct my previous insertion in the RECORD and state that this article appeared in the

San Francisco Chronicle on September 24, 1986. It presents the case for assistance to that government very persuasively, especially the argument that it is in the national interest of the United States that we help democracy survive in the Philippines. I ask that Mr. Escalamado's article be printed in the RECORD at the appropriate place.

The article follows:

[From the San Francisco Chronicle, Sept. 24, 1986]

STRONG SUPPORT FOR AQUINO—WHY FILIPINO-AMERICANS ARE CHEERING

(By Alex A. Esclamado)

When the Filipino people succeeded in regaining their freedom in a most dramatic revolution last February, freedom-loving peoples around the world cheered them on. In center focus was Corazon C. Aquino, wife of the fallen hero, Senator Benigno S. Aquino Jr.

There were doubts in many minds whether she had the ability to lead a devasted nation. The most stinging indictment of her supposed lack of competence to handle the Herculean job of the presidency of the Philippines was made by the New York Times editorial board.

The Times had interviewed Aquino immediately after her victory. Candidly and unguardedly, acting like the sincere housewife she used to be, always giving center stage to her dynamic husband, she expressed her personal doubts about her ability to govern. She answered questions with the sincerity and openness characteristic of her personality.

Obviously, no politician of her newly acquired stature would have dared to display such candidness. Predictably, the Times article was devastating. The image created of Corazon Aquino was of a president who had no experience, who admittedly had to take crash courses in government and leadership under special tutors—tutors who, as many feared, could take advantage of her political naivete.

Today, barely seven short months after she assumed the powers of the presidency, Americans are being given the opportunity to size up, at close range, a diminutive housewife-turned president of 55 million people.

What is her performance rating? I can only sum up what she has already done in such a short time.

She has restored freedom to the Filipinos. This is clearly demonstrated by the reinstitution of press freedom. There are 26 newspapers and magazines in the Philippines today each trying to find fault with her government.

She is dismantling the corrupt political machinery of the past regime. Local, provincial and national officials who for 20 long years were the vital instrumennts of power of a totally corrupt administration are being replaced. One can appreciate the enormity of the undertaking and the tremendous implications it has on political stability.

She is restructing the framework of the nation through the formulation of a new constitution that embodies the Filipinos' high aspirations for a truly democratic system. She has announced that elections will be held under the new constitution soon after it is ratified.

With a duly elected Congress that provides the checks to the presidency and local officials receiving fresh mandate from the people, together with an independent judiciary, full political stability shall be achieved.

She has personnally implemented the laudable policy of reconciliation with the rebel and insurgent elements of the Philippine society which flourished from the brutal repression and unconscionable corruption of the past regime. She released all political prisoners including Communist leaders.

Aquino has traveled to the dangerous southernmost region of the country to meet the leader of the Moslem rebels with whom she has struck a ceasefire agreement. She has flown to the almost inaccessible jungles of northern Luzon to "smoke the peace pipe," so to speak with one of the most enigmatic of rebels.

She is in the process of negotiating peace with the New People's Army, the Communist-backed insurgents, whose cause and numbers flourished under the injustices and inequities of the Marcos dictatorship.

As Aquino pointed out in her speech before Congress, the communist insurgency started with only 500 armed soldiers when martial law was declared in 1972. It had grown to over 16,000 when the Marcos regime ended in February.

No president of the Philippines before her has accomplished these daring personal feats in the first 200 days of his term. At another time before hers, these things would only be attempted by a man in a man's world.

Now she has come to the United States to solve the most difficult problem of her government: the revival of the Philippine economy. There is no need to belabor here how much devastation has been inflicted by Imelda and Ferdinand Marcos upon the Filipino nation; much has been written about it.

Not only have they stolen a major chunk of whatever there was to steal from the country, they have also plunged the land hopelessly into debt. As Aquino has said, it is a $26 billion obligation of a people who never received the benefits of the debt.

President Aquino came to appeal to the United States for three forms of assistance.

To increase the level of U.S. aid to the Philippines so that the democracy that her people have valiantly regained in a phenomenal revolution may be preserved.

She was right in her speech to Congress when she pointed out that the Philippine revolution was the cheapest revolution ever. For in how many places have Americans been embroiled in conflicts to promote democracy and have failed at tremendous cost of American lives and financial resources?

To urge American investors to resume their business activities in the Philippines and to encourage new business ventures.

To make the burden lighter for the impoverished Filipino who must honor a huge foreign debt from which "he never benefitted."

The bottom line is: To what extent is America willing to help the Aquino government? How much is America willing to pay to help keep the Philippines on the side of freedom?

Doubts about Aquino's personal competence and ability to govern the Philippines should be erased by the time her plane lands in Manila to the rousing welcome of her proud people. She will return to her country finding it very much intact and well under her full control. Indeed, her visit will have been a definite diplomatic and substantive success.

She will also leave the United States with the strong support of the Filipino-American community throughout the country. Everywhere she went—Washington, D.C., New York, Boston and San Francisco, Filipinos welcomed her as their new heroine, a person full of sincerity, decency and talent. She has become the personification of the Filipinos' love and commitment to the immutable ideals of freedom and patriotism.

This is the real Corazon C. Aquino that I know: intelligent, strong-minded, sincere. No one can manipulate her. No one can dictate to her. While she needs advice from experts, she is clearly the Boss. There is no doubt that she can lead the Philippines to the greatness that it deserves.

How much must we help to make her succeed? I say enough to make her win the battle to preserve democracy in the Philippines!

I am an American by adoption, a Filipino by birth. I have seen how the United States has failed the Filipinos at certain crucial moments in the long history of Philippine-American friendship.

Democrats and Republicans alike, gave the Marcoses free rein, enabling them to destroy the moral and material well-being of the Filipino people.

I believe it is time for America to do justice and make amends to their Filipino friends who love Americans more than any other people in the world.

What is an equitable price, then, for maintaining democracy in the Philippines?

If the primary interest in the Philippines is the maintenance of U.S. strategic military bases there, then let the U.S. pay the price to maintain them. Assuming that the biggest threat to U.S. bases are the Communists, then let us spend now what it takes to defeat the Communists in the Philippines. How?

As President Aquino eloquently stressed, communism cannot be defeated by sheer military power. There must be an alleviation of the poverty of the people to remove their cause for rebellion.

Recently, Washington sent experts to the Philippines to determine how much it would cost to transfer the military bases in the Philippines to other areas, like the Mariana Islands. The figure was $10 billion and the resultant facility would not be even half as effective as the present facilities.

In response to the appeal of President Aquino, I submit that the United States adopt a Marshall Plan-type of commitment to the Philippines. The amount shall be equal to what would be spent to transfer the military bases elsewhere programmed over five years. The $2 billion annual budget may be placed in the Defense budget as "rental" for the military bases in the Philippines or for the maintenance thereof. The amount shall then be considerably reduced after the five-year period.

The fund should not be termed "foreign aid." This fund would enable President Aquino to effectively implement social amelioration projects to enhance the economic life of the Filipinos. The Communists then will lose their mass base and will eventually be defeated, thus the threat to the military bases will disappear.

And when the military bases issue is brought before the Filipino people for decision in a plebiscite in 1991 when the current treaty expires, I am certain that an overwhelming majority will vote for their retention.

We must help Aquino's government succeed. The $2 billion annual budget which I propose is only at parity with Egypt. It is very much less than our present support to

Israel of over $3 billion. The Reagan administration is reported to be considering an aid package for Pakistan at the level of $900 million. I say, in the scale of strategic importance and commitment to democracy, the survival of Philippine democracy should be ranked as equally important to America as the survival of democracy in Egypt, Israel or Pakistan.

If the United States cannot help democracy survive in the Philippines where all conditions are favorable how can she be expected to win a battle for Democracy anywhere else in the world? Is there a better country to invest in democracy and freedom?●

WORLD FOOD DAY

● Mr. SARBANES. Mr. President, on October 16 we will commemorate the sixth anniversary of World Food Day, an occasion to reflect upon the continuing tragedy of world hunger while working together to end it. In my own State of Maryland, concerned citizens will be taking this opportunity to organize positive action to end hunger both in their local communities and around the world, through a program called "RSVVP"—Restaurants Sharing V+V (10) Percent.

The RSVVP Program, which was initiated last October, represents the coordinated action of almost 200 Baltimore area restaurants and their patrons, media sponsors, and antihunger organizations. On October 15, the day preceding World Food Day, participating restaurants will contribute 10 percent of their gross receipts to fight hunger—half of which will be distributed locally by the Maryland Food Committee, and half of which will go to the Emergency Task Force on Africa for Famine Victims. Last year, the RSVVP Program raised enough money to help feed 60,000 people; this year the event's organizers hope to feed 100,000.

Mr. President, it is truly inspiring to see the Baltimore community join together to address one of the world's—and the Nation's—greatest challenges. I would like to congratulate the coordinators of this year's event, the Junior League of Baltimore, as well as the sponsors—the Baltimore Sun; WBSB, B-104 FM, radio, and WMAR-TV, channel 2—and the participating restaurants for their generous efforts. Finally, I would like to invite my colleagues and their staff members to contribute to this important event by eating out tomorrow night at one of the RSVVP restaurants. I ask that the list of participating establishments be printed in the RECORD.

The list follows:

ABORTION AND INFORMED CONSENT: MINNESOTA

● Mr. HUMPHREY. Mr. President, Kathy's letter from Minnesota speaks for itself. I would especially like to highlight what she says in the final paragraph: "Abortion is not a decision we can later change. It is final * * * for the innocent unborn and the mother." Since abortion is so decisive, we are morally compelled to insure that women have every bit of information made available to them.

Mr. President, I hope that my colleagues will read Kathy's letter carefully and cosponsor S. 2791.

The letter follows:

JUNE 30, 1986.

DEAR SENATOR HUMPHREY AND OTHERS: I am writing this letter concerning my abortion experience, not because it is so unusual, but because it could be written by thousands, perhaps millions, of American women. I hope that my ability to speak-up will be recognized as the voice of thousands who are unable to, due to the devastating emotional, physical and spiritual trauma of their abortions.

I had an abortion in 1971 in New York at Dr. Bernard Nathanson's clinic. Abortion was not the credit card, lunch time procedure it has become since the 1973 Roe vs. Wade decision, but as the years have gone by and I have worked in counselling women who have had abortions, I see that the *Roe v. Wade* decision has done nothing beneficial for women in terms of dealing with a crisis pregnancy, or in terms of physical safety. Crisis pregnancies leave scars, regardless of the chosen solution. The question for society is which solution leaves the least scars? My abortion was the worst mistake of my life. As time progresses it continually stands out to be so. It created in me emotional depression, suicidal tendencies, a very low self image, and I came very close to becoming one of society's supported indigent adults . . . for life.

Scars like that are common among women who have had abortions. Yet women who carry to term under the care of supporting counselors find that they feel good about the sacrifices which they have made . . . time becomes healing rather than increasing the trauma.

Over the last 10 years, I have personally counselled and worked with several hundred pregnant women or women who have had abortions. I have found that 100% of women who choose to carry to term are glad that they made that decision. Yet the women I have counselled who have had abortions have 100% regretted their decisions and have difficulty dealing with that decision, sometimes 25 years later! They hate themselves, have emotional problems, problems with their husbands, problems with their children and on and on.

Abortion is not a decision we can later change. It is final . . . for the innocent unborn and the mother. If we as a nation do not stop contributing to the emotional handicap of our future mothers and young women, our nation will suffer in ways that we can not even fathom.

Sincerely,

KATHY BUCKLEW,
Blaine, MN●

DR. MICHAEL G. WILSON 1986 DISTINGUISHED PRINCIPAL OF THE YEAR FROM CALIFORNIA

● Mr. CRANSTON. Mr. President, I have risen many times in this Chamber to speak to my colleagues on the importance of education. Today, I would like to bring attention to a man who knows better than most just how crucial schools are to America's future, a man who works everyday to guarantee that the children in his charge will be prepared to face the challenges the 21st century will bring.

Dr. Michael G. Wilson has been an employee of the Los Angeles Unified School District for the last 22 years. For the last 4 years he has served as the principal of the San Pedro Street Elementary School. This year he has been selected by the National Association of Elementary School Principals as the 1986 Distinguished Principal of the Year from California. Anyone familiar with Dr. Wilson's record would understand immediately why he is being recognized.

Since Dr. Wilson came to San Pedro Street, parents' participation in their children's school life has tripled, test scores are way up, science fairs have become an annual event and the community is more directly involved in the school's daily life. For example, Dr. Wilson was instrumental in inaugurating an antidrug program that has local police visiting the school 1 day a week to talk with fifth and sixth grade students about the dangers of drug use.

The leadership role a principal can play in his or her school cannot be overstated. A good principal instructs, inspires and energizes both students and faculty. A good principal understands not just education, but also human relations. A good principal knows not only his or her school, but also the community at large.

Dr. Wilson's accomplishments prove that he understands what it takes to make a difference for his school and that he's willing to do what's necessary to get the job done. His commitment, his dedication and his hard work provide a model for all he comes into contact with.

Certainly the San Pedro Street Elementary School benefits from Dr. Wilson's presence there. His selection by the National Association of Elementary School Principals as the 1986 Distinguished Principal of the Year from California will mean that many others can benefit from his example as well.

Congratulations, Dr. Wilson, for a job well done. And thanks.●

BUDGET SCOREKEEPING REPORT

● Mr. DOMENICI. Mr. President, I hereby submit to the Senate the budget scorekeeping report for this week, prepared by the Congressional Budget Office in response to section 308(b) of the Congressional Budget Act of 1974, as amended. This report also serves as the scorekeeping report for the purposes of section 311 of the Budget Act.

The report follows:

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, October 14, 1986.

Hon. PETE V. DOMENICI
Chairman, Committee on the Budget, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: The attached report shows the effects of Congressional action on the budget for fiscal year 1987. The estimated totals of budget authority, outlays, and revenues are compared to the appropriate or recommended levels contained in the most recent budget resolution, Senate Concurrent Resolution 120. This report meets the requirements for Senate scorekeeping of section 5 of Senate Concurrent Resolution 32 and is current through October 10, 1986. The report is submitted under section 308(b) and in aid of section 311 of the Congressional Budget Act, as amended.

Since my last report Congress has completed action on the Omnibus Veterans Benefits Improvement and Health Care Authorization Act, H.R. 5299, changing outlay estimates for 1987. This bill included an increase in veterans compensation that is contingent on other legislation being enacted. The cost of this provision is not reflected in this report.

With best wishes,
Sincerely,

RUDOLPH G. PENNER.

ASSISTANCE FOR VICTIMS OF WOUNDED KNEE OCCUPATION

● Mr. ABDNOR. Mr. President, I am pleased that the Senate has agreed to take up S. 2260, which I introduced to assist the innocent victims of the Wounded Knee occupation of 1973.

This legislation will close a sad chapter for a number of individuals who, through no fault of their own, lost livestock and property in the occupation of the town of Wounded Knee, SD, by members of the American Indian Movement. Many of these individuals were without benefit of insurance or other means of gaining restitution.

I introduced this legislation as a matter of simple justice—justice for individuals who deserved consideration because of the actions of AIM and of the Federal Government. By the passage of this legislation, I believe that we can show these innocent individuals that their elected Government is fair and just and responsive to needs of those who have no where else to turn.

I would like to express my gratitude to Senators on both sides of the aisle for their consideration and to Ms. Patricia Zell of the Senate Select Committee on Indian Affairs for her assistance with the passage of this legislation.●

INTELLIGENCE COMMITTEE REPORT ON COUNTERINTELLIGENCE

● Mr. MOYNIHAN. Mr. President, the Senate Select Committee on Intelligence has released the results of a yearlong review of U.S. counterintelligence and security programs. With the focus once again turned to Soviet espionage at the United Nations, the report is timely. But unfortunately, as the committee documents, the report would have been timely on almost any day these past 2 years. I commend the members and staff of the Intelligence Committee for their comprehensive effort to set a counterintelligence agenda for us in the Senate and for making so much of the report available to the public, for surely the public has both a need and a right to know that their security is being threatened as is their privacy.

Mr. President, I would like to draw attention to a particular concern—or threat, as they say at the Pentagon—of the committee. I speak of the threat of Soviet electronic eavesdropping from their diplomatic missions in New York, Washington, and San Francisco as well as the Soviet listening facility at Lourdes, Cuba. We have known about this eavesdropping at least since June 1975, when Vice President Rockefeller reported to the President:

> We believe these countries (Communist-bloc) can monitor and record thousands of private telephone conversations. Americans have a right to be uneasy if not seriously disturbed at the real possibility that their personal and business activities which they discuss freely over the telephone could be recorded and analyzed by agents of foreign powers.

In 1978, we learned even more about the Soviet listening operation run from their diplomatic facilites in New York City, when Arkady Shevchenko defected. In his book Breaking With Moscow, Shevchenko describes how:

> The rooftops at Glen Cove, the apartment building in Riverdale, and the Mission all bristled with antennas for listening to American conversations. * * *

At the same time the Soviets were expanding their operations at Glen Cove, they were also expanding their listening facility in Lourdes, Cuba. In the past decade the 28 square mile facility has grown by 60 percent, such that it is now the largest such Soviet facility outside the Soviet Union. An estimated 2,100 Soviet specialists are required to man its sophisticated electronic listening equipment. 2,100!

Mr. President, with this kind of growth are we prepared to believe—can we afford to believe—the Soviets are not getting their money's worth? The select committee believes they are. The report concludes:

> The massive Soviet surveillance efforts from Cuba and elsewhere demonstrate * * * that the Soviet intelligence payoff from interception of unsecured communications is immense.

The report also tells us that:

> More than half of all telephone calls in the United States made over any distance are vulnerable to interception.

I wonder if our constituents know this? And I wonder if they know that every time they make a long distance telephone call, Lourdes might be listening? They should. Moreover:

> Calls that the caller believes to be on less vulnerable circuits may be automatically switched to more vulnerable ones.

And the matter is only going to get worse because of the growing reliance of U.S. telecommunications on satellite microwave links to carry long distance and computer data communications.

Mr. President, the distinguished minority leader was right on target when he said on February 19 of this year:

> This (Soviet eavesdropping) is a gross threat to the national security of the United States. We may spend hundreds of billions of dollars on defense, but how secure is this Nation when a foreign superpower may be listening in on most any telephone conversation?

Nevertheless, the Government's response has been piecemeal and at times even reluctant. That is why it is so important that the Intelligence Committee has produced this comprehensive overview. Although President Carter was aware that "the intercept on a passive basis of these kinds of transmissions has become a common ability for nations to pursue," his response was to bury the Government's telephone cables. More recently, the Defense Department has installed fiber optics to protect communications at the Pentagon. The State Department, for their part, has prohibited certain foreign missions from importing telecommunications equipment without prior approval from the Department—those antennas Arkady Shevchenko was talking about on the roof in Riverdale. And of course, the Secure Telephone Unit Program will shore up the defense industry, provided enough are purchased and used. I applaud all these actions but still the majority of us are left out in the cold and we continue to bleed sensitive information.

On April 22 of this year I introduced legislation, S. 2348, the Satellite Communications Security Act, which would provide $1 billion to encrypt all domestic common carrier communications satellite links. Not the solution, but a piece to the solution. Therefore, I am particularly pleased to note that the Senate Select Committee recommends in their counterintelligence report that we encrypt the most sensitive of these domestic communications channels. In fact, this idea has already been endorsed by the Armed Services Committee and the Appropriations Committee in their respective defense bills, and by the House Permanent Select Committee on Intelligence.

Moreover, National Security Decision Directive 145, the White House directive outlining national policy on telecommunications security, clearly states:

> Assuring the security of telecommunications and automated information system which process and communicate classified national security information * * * and offering assistance in the protection of certain private sector information are key national responsibilities.

NSDD 145 says it is a national responsibility and national policy to offer assistance in the protection of certain private sector information; and so does the Intelligence Committee. Again to cite the report:

> Efforts to neutralize the Soviet intercept operations that damage national security should not depend so heavily on the marketplace.

Mr. President, I would conclude then by urging my colleagues to carefully read the select committee's report, and review its recommendations. It is time we reassess our priorities and give our counterintelligence assets the resources they need. It will cost us so much more not to do so.●

NOTICE OF DETERMINATION BY THE SELECT COMMITTEE ON ETHICS

● Mr. RUDMAN. Mr. President, it is required by paragraph 4 of rule 35 that I place in the CONGRESSIONAL RECORD notices of Senate employees who participate in programs, the principal objective of which is educational, sponsored by a foreign government or a foreign educational or charitable organization involving travel to a foreign country paid for by that foreign government or organization.

The select committee has received a request for a determination under rule 35, for Mr. Edmund Mihalski, a member of the staff of the Committee on Finance, to participate in a program in Ottawa, Canada, sponsored by the Centre for Legislative Exchange, from October 19–22, 1986.

The committee has determined that participation by Mr. Mihalski in the program in Ottawa, at the expense of the Centre for Legislative Exchange, is in the interest of the Senate and the United States.

The select committee has received a request for a determination under rule 35, for Ms. Jade West, a member of the staff of Senator JAMES A. MCCLURE, to participate in a program in Chile, sponsored by the Universidad de Chile, Instituto de Ciencia Politica, Institute of Political Science of the University of Chile, from November 9–15, 1986.

The committee has determined that participation by Ms. West in the program in Chile, at the expense of the Universidad de Chile, Instituto de Ciencia Politica, is in the interest of the Senate and the United States.●

THE PERIL OF CIVIL WAR

● Mr. DECONCINI. Mr. President, a terrible war threatens Sri Lanka, the beautiful island once referred to as Ceylon. Both the Sinhalese majority, comprising 74 percent of the population, and the Tamils, making up 16 percent, exploit each other's atrocities to justify yet another reprisal. This, in turn, creates a vicious and self-defeating cycle of violence, death and self-perpetuating ethnic hatred.

You might ask what propels this cycle of conflict. In my opinion, it is the majority's refusal to share power with the minority. While the Sinhalese will periodically launch offensives against the Tamil minority, the overall escalation in violence only imperils the lives of all the Sri Lankan citizens, kills off their once prosperous tourism trade, and harms agricultural production. This type of intransigence risks turning Sri Lanka into a Lebanon.

Sri Lanka's President, J.R. Jayewardene, has ignored peace talks in the past. On May 17, 1986, while the Sri Lankan and Indian officials were supposedly negotiating terms to offer the Tamils, the Sri Lankan Army launched an offensive on the Jaffna Peninsula intended to break the guerrilla stronghold there. He continued through the week to bombard the Tamil northern cities on this peninsula. A military solution is not one which will bring Sri Lanka back to its phenomenal economic growth and model democratic practices.

The President claims that this insurgency is bleeding his once prosperous country. He also states that Tamil separatists, known as Tigers, are sponsored by foreigners. He says that Tamil militants are trained and funded by the PLO and the Soviet Union. While I condemn in no uncertain terms the violence of this fringe

group, these militants flourish because of the Government sponsored Home Guard force that rampages through Tamil villages. Killings, torture, and disappearances are reported by Amnesty International. The President has talked about the "complete liquidation" of Tamil extremists. These threats encourage more violent reprisals and give incentive to the Tamil community in India to harbor and train more militants.

The Prime Minister of India, Mr. Ragiv Gandhi, has valiantly tried to negotiate a settlement in this tragic situation. He brought the rival Sri Lankan groups to negotiations last year and closed down Tamil training camps in India. The answer might be to allow the Tamils to have locally elected administrators in the north and northeast to maintain their own police forces, collect some revenue, and control education. These are the contentious issues which have instituted longstanding rifts between Tamils and Sinhalese since independence in 1948.

Mr. Gandhi deserves U.S. support and praise for his diplomatic skill and diligence. I am not speaking for other Senators when I say that U.S. assistance, totaling $49.6 million in 1986, should be tied to President Jayewardene's cooperation in these negotiations, Sri Lanka should be given economic incentives to move toward ending this civil war. The United States might seriously analyze how this foreign assistance is most prudently used, especially in these days of domestic budget cuts and shrinking foreign aid. But continually providing this money unconditionally to a government which does not seriously consider the peace talks flies in the face of U.S. policy. Furthermore, if the United States were forced to move its bases from the Philippines, Sri Lanka might be a viable option. However, we have seen the effects of civil war and violence in other areas of the world and United States bases would not be secure or welcome in Sri Lanka under the present conditions. Clearly, United States foreign policy is better served by a peaceful and prosperous Sri Lanka. Talks between the Tamils, Sinhalese, and Mr. Gandhi proceed as I speak. We urgently need to resolve the stubborness and violence that threatens to hobble this rich country.

Mr. President, the moderate Tamils need tangible results and viable proposals to emerge from these present talks. Mr. Gandhi has risked sticking his neck out once again, and this deserves cooperation from the Sri Lanka Government. The combination of a government which takes the peace talks seriously, Mr. Gandhi's cooperation in negotiating and enforcing a settlement, and the moderate Tamils achieving tangible success could solve this ethnic stalemate. The scenic, ethnic, and religious beauty of Sri Lanka must return before political hatred permanently alters this country forever.

HEALTH CARE COVERAGE FOR ADOPTED CHILDREN

● Mr. HUMPHREY Mr. President, I would like to draw the attention of my colleagues to a serious problem some adoptive parents face in obtaining health care coverage for their adopted children. The problem arises when the child has a physical, mental or emotional disability which the insurer labels a preexisting condition. Some insurers use a policy against coverage for a condition or state of health which exists before the effective date of an insurance policy as a basis for denial of health insurance for disabled adopted children.

This past April, at the first hearing of congressional coalition on adoption, several witnesses on a panel devoted to health care for adoption of children with special needs discussed this problem. One witness, Mrs. Linda Sacra representing the Texas Council on Adoptable Children, spoke movingly of a case she knew which involved a baby born prematurely who showed a brain mass on a CAT-scan several days after birth. The prospective adoptive parents wanted to proceed with the adoption but, because their insurance company refused to cover any costs associated with the brain mass on the grounds that it was a preexistent condition, the adoption plan was disrupted. I am told there are many cases like this, involving both infants and older children.

A second witness, Mrs. Mary Ann Kuharski, who is both an adoptee and an adoptive parent working on adoption and foster care issues in Minnesota, testified about a Minnesota law which guarantees equal rights for adopted children in health and accident insurance coverage. The Minnesota statute encourages couples to adopt children with disabilities by providing that they will not be denied health insurance coverage for the child from the date of placement in their home. Under this law, if the child would be covered if he or she were a biological child and not an adopted child, then the child must be covered.

Mr. President, that makes eminent good sense to me. Under State law in this country, adoption severs the legal ties between the adoptee and his or her birth parents, and creates a legal relationship with the adoptive parents. In every State except Illinois, by statute an adopted child has the same status as a biological child for all intents and purposes. Illinois cases have established the same law. According to adoptive parents and child advocates, some insurers simply choose to ignore these laws and refuse to provide health care coverage for disabilities of adopted children.

According to the best information available, only eight States have statutes specifically dealing with health insurance coverage for adopted children, and some of those may not be strong enough to prevent this discrimination against adopted children. In addition, if the statute does not specify coverage must be provided from the time of placement, an insurance company may choose to provide coverage beginning from the date of the finalization of the adoption or later. There is little or no case law on this subject in any State.

According to the Department of Health and Human Services, at least 36,000 children in this country are free for adoption and waiting for a permanent home, and many of them are disabled. Some are eligible for Medicaid and thus their health care would be covered whether they are in a foster home or an adoptive home. For those who are not eligible for Medicaid, financing of their health care may impose a significant barrier to their adoption.

Through adoption laws, all States have said to adoptive parents, "This child is your child, like any other child born to you." As parents we accept and love, and the insurance companies cover, our biological children with any congenital conditions or abnormalities they may have. Since the State law says an adopted child is to be treated identically to a biological child, why should a health insurance plan not cover a disabled adopted child when it would cover a biological child with the same disability born to the adoptive parents? By denying health insurance coverage to adopted children, the insurers are discriminating against adopted children and establishing a policy contrary to the State law on adoption.

Mr. President, I have no interest in meddling in insurance policy or in encouraging the Federal Government to dictate policy in insurance matters to State legislatures. I simply want to draw the attention of my colleagues to the inequity of this practice and point out its negative impact on adoption, especially the adoption of disabled children.

The insurance industry could act to ensure that no insurance company discriminates in this way against adopted children and I call upon the industry to do so. I call upon State legislators to examine their law on this subject, study the policies and practices of insurance companies doing business in their State, and listen to the experiences of adoptive parents. I welcome the opportunity to work with the insurance industry and State legislators in their efforts.

On behalf of the children waiting to be adopted, and prospective adoptive parents who cannot afford to take the risk of a child with no health insurance, I pledge my utmost cooperation in working to find a solution to this problem which constitutes a serious barrier to adoption in this country today.●

TRIBUTE TO THE AMERICAN DENTAL ASSOCIATION AUXILIARY

● Mrs. HAWKINS. Mr. President, on October 19, the auxiliary of the American Dental Association will begin its annual meeting. I am delighted that this meeting, which is held in conjunction with the 127th annual session of the American Dental Association, will be hosted by the city of Miami.

We all know of the valuable contributions to the public health made by the dental profession and its auxiliary chapters. While leadership in the efforts to fluoridate our water supplies may be the most visible of these efforts, I was pleased to learn of many other initiatives which greatly benefit the public.

For example, dental spouses, through the national auxiliary organizations, have been extremely active and effective in support of seatbelt laws and in educating the public on the benefits of seatbelt use.

Both the auxiliary and the American Dental Association itself have developed and implemented comprehensive programs to educate dentists to identify and properly handle cases of child abuse.

The dental auxiliary organization has developed a Scouting merit badge program based on knowledge of prevention oriented health behavior. Stressing prevention to our youth may be one of the most effective ways available to help insure healthier adults.

As we all know, drug abuse is our Nation's No. 1 health and social problem. This problem must be addressed in a multitude of ways. One of the most important requirements is that those who are addicted to drugs be treated with understanding. The dental profession is aware of this need and, in 38 States so far, has established special programs to help identify and provide needed support for those dentists who unfortunately have fallen victim to drug abuse. This type of program is vital if these dentists are to return to fully productive professional and personal lives.

The profession has committed significant resources and expertise to the perfection of forensic dentistry techniques. These are most useful in aiding in the identification of victims of mass disasters.

The auxiliary has been extremely active in assisting the dental profession in the development of programs to treat handicapped patients.

This is an organization, in brief, that, year after year, pursues the public good.

I offer my sincere congratulations to the dentists of this country and their spouses for their commitment to so many programs which are helping all of us.●

NAUM AND INNA MEIMAN: BONNER'S LAST REQUEST

● Mr. SIMON. Mr. President, in the September 15, 1986 issue of Alert, a publication from the Union of Councils for Soviet Jews, I read an account of Elena Bonner's return to Gorky where here husband Andrei Sakharov resides. One of her escorts, Rick Sobol, recalled that Elena's last request was to do all that could be done for Naum and Inna Meiman.

Soviet dissidents Naum and Inna Meiman are good friends of mine. They live in internal exile, barred from all human contact. Inna suffers from a rare form of cancer. After the removal of four tumors from her neck, the Soviet doctors feel they can do no more for the fifth and most recent tumor. Inna is seeking permission to emigrate to the West where there is experimental treatment available.

I strongly urge the Soviet Union to allow the Meimans to emigrate to Israel.

ORDERS FOR WEDNESDAY, OCTOBER 15, 1986

RECESS UNTIL 10 A.M.

Mr. DOLE. Mr. President, I understand this request I am about to make has been cleared with the distinguished minority leader.

I ask unanimous consent that when the Senate completes its business today, it stand in recess until 10 a.m. on Wednesday, October 15, 1986.

The PRESIDING OFFICER. Without objection, it is so ordered.

ROUTINE MORNING BUSINESS

Mr. DOLE. I ask unanimous consent that, following the recognition of the two leaders under the standing order, there be a period for the transaction of routine morning business not to extend beyond the hour of 11 a.m., with Senators permitted to speak therein for not more than 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. DOLE. At 11 a.m., under the provisions of rule XXII, a live quorum will begin, to be followed by a cloture vote on the Dole amendment to the drug bill. If cloture is invoked, it will be the majority leader's intention to remain on the House message until disposed of. Regardless of the outcome of the cloture vote, the Senate could be asked to turn to any of the following items:

Reconciliation conference report; continuing resolution conference report; Debt limit conference report; Calendar No. 1007, H.R. 5465, the appliance bill; House Concurrent Resolution 375, correcting the enrollment of the tax conference report; any other legislative and executive calendar items cleared; immigration conference report.

Therefore, votes will occur tomorrow. I anticipate a late session, probably, tomorrow evening.

Again, I apologize to many of my colleagues who came back thinking there would be a number of votes today. Our problem has been that the key items are in conference. There is not much we can do about it until the House or the Senate, depending on who acts first, or at least until the conference is completed. So I hope that tomorrow we can sort of break the logjam and start everything rolling. Once it starts, I foresee hopefully a rather quick conclusion of this session, but we did not make many points today.

I am also hopeful now that with the disposition of the Malone nomination, we can reach agreement on all others on the Executive Calendar. If we can try that again tomorrow, that would, in effect, clean up the calendar. I understand there may be a request for a vote on one nominee. But whatever, it is my hope that we can do that. That would be 15 to 20 nominations at least, that can be disposed of in rather short order.

RECESS UNTIL TOMORROW AT 10 A.M.

Mr. DOLE. Mr. President, there being no further business to come before the Senate, I move in accordance with the previous order that the Senate stand in recess until 10 a.m. tomorrow, October 15.

The motion was agreed to and, at 10 p.m., the Senate recessed until tomorrow, October 15, 1986, at 10 a.m.

CONFIRMATION

Executive nomination confirmed by the Senate October 14, 1986:

DEPARTMENT OF DEFENSE

James F. McGovern, of Virginia, to be Under Secretary of the Air Force.

The above nomination was approved subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

IN HONOR OF ELIE WIESEL

(Mr. LANTOS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LANTOS. Mr. Speaker, all of us in the Congress are overjoyed today that Elie Wiesel is the recipient this year of the Nobel Peace Prize. This was a brilliant and timely selection, suggested to the Nobel Committee by hundreds of us in the Congress and by countless others around the globe.

In the history of the Nobel Peace Prize, no individual is more profoundly deserving of this high honor than is Elie Wiesel—a survivor and the chronicler of the Holocaust and the conscience of mankind.

His basic message is the paramount message of our age: Human rights are indivisible. The violation of human rights in Hitler's Germany, in the Soviet Union, in South Africa, in the Iran of the Ayatollah, is a violation of our human rights. His message is clear: The fundamental precondition of peace is the respect of individual human rights on all continents by all governments.

We salute Elie Wiesel and we wish him many more productive years so he may carry on his work for peace.

THE PRESIDENT WAS RIGHT

(Mr. COMBEST asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COMBEST. Mr. Speaker, the President was right, and all Americans owe him a debt of gratitude. It isn't easy and it isn't popular to walk away from a dramatic, surprise agreement. But the President saw it for what it was—a bad deal.

Mr. Gorbachev's demands in Iceland meant that we essentially had to give up SDI. Gorbachev forced us to make a stark choice as to what would be the final guarantee of our Nation's security: A Soviet signature on a piece of parchment or our own technology and resourcefulness. The beauty of SDI is that it puts the responsibility for our defense where it should be—in our own hands.

71-059 O-87-28 (Pt. 21)

Even the most hopeful must acknowledge a Soviet propensity to violate agreements. With new small, mobile missiles that are easily camouflaged, are we to trust that they will not cheat this time?

As long as we hold firm to research, testing, and development of SDI, we will have an opportunity to defend our people and the Soviets will have an incentive to work with us.

Mr. Speaker, the President was right.

THE SOVIETS KNOW IT WILL WORK, AND THEY DO NOT LIKE IT

(Mr. STRATTON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STRATTON. Mr. Speaker, I commend President Reagan for backing off of the Soviet proposal of so many deep cuts in offensive missiles, provided we are prepared to give up the strategic defense initiative.

Frankly, it looks to me as though the President was deliberately set up for a big letdown. But one thing is perfectly clear. So many of the experts here in the Congress and in the left-wing scientific community have been telling us that SDI is a dream, it will not work. But the fundamental reason that the Soviets don't want it is that they are precisely afraid that it will do exactly what it is supposed to do. They know it will work, and they do not like it, and they do not like to see us get ahead of them.

As a matter of fact, on television last night on ABC, the Soviet chief spokesman said on television that the thing that they were most afraid of is that we would get a technological breakthrough.

THE INTERNATIONAL CHESS GAME

(Mr. GEKAS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GEKAS. Mr. Speaker, and Members of the House, in the international chess game that is called the Summit, Gorbachev attempted to intimidate the President of the United States to remove from the chess board the President's most powerful piece, SDI. That piece is aglow with possibilities for achieving peace in our time. Yet, Gorbachev, in attempting to have the President sacrifice that piece, failed to do so. Thus, it allowed for a good draw to take place in Iceland. That draw leaves the possibilities for further matches with which the cause of peace can be won.

So we commend the President for standing firm and holding back that powerful move, that piece of chess mastery called SDI for further use in the cause of world peace.

ARMS CONTROL OPPORTUNITY LOST

(Mr. DOWNEY of New York asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DOWNEY of New York. Mr. Speaker, imagine for a moment if the President had come back with an arms control agreement. Before his term of office would be finished, we would be carving his face into Mount Rushmore with the other immortal Presidents. Instead of that monument, there is the rush to point fingers of blame. That is a tragedy for the United States and for the world.

Mr. Speaker, ballistic missiles are the most dangerous nuclear weapons. They are the only ones quick enough for a surprise first strike.

Last weekend, President Reagan could have created a world free of these weapons. It would have been a world in which star wars wasn't needed, because there would be no missiles to defend against. Instead, he chose a world with both nuclear missiles and star wars.

It wasn't even a matter of accepting a Soviet offer. The plan to abolish ballistic missiles over 10 years was offered by the American side. All we had to do was admit there's no point in spending trillions of dollars to defend against a threat that would no longer exist.

The administration negotiators had their chance, and they failed. They went into the negotiations with untied hands, and they dropped the ball. We sent them to bring back arms control, and they brought us excuses.

Now we've learned our lesson. Never again can we, in Congress, be swayed from our duty to help control nuclear weapons.

Arms control is a joint responsibility shared by the executive and legislative branches.

RONALD REAGAN ONE; MEDIA ZERO

(Mr. BADHAM asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BADHAM. Mr. Speaker, I would just like to say that as I kept score, I would say Ronald Reagan one; media, zero.

Yesterday, on TV, the media stars were floundering around looking for excuses to blame Ronald Reagan for coming back from the summit, with no agreement, and that is what he did. Ronald Reagan was not going to go there and give up SDI which is the cornerstone of the defense of the United States of America and the other free people, and indeed, enslaved peoples of this world.

On the contrary. But I heard our media folks yesterday beating up on Pat Buchanan; well, he is a tough fellow, he can take it. I also heard the press fawning all over Arbatov. Now, if you know Mr. Arbatov, as many of us do in here, the guy is a clown; he really is. What was he saying? Star wars cannot work; it is a dream of your President. It is not real; it cannot work. You see it in the movies. An inpenetrable shield just won't work, he said.

If that is the case, why are they so deathly afraid of it? They came to the summit looking, with all sorts of things on the table, for the one thing that we would not accept and properly so: The elimination of technological prowess and progress of the United States of America embodied in the strategic defense initiative.

I am glad the President kept that option.

DEEP AND VERIFIABLE CUTS IN NUCLEAR WEAPONS INVENTORIES REMAINS THE ULTIMATE GOAL

(Mr. BEDELL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BEDELL. Mr. Speaker, last week, we joined in announcing a bipartisan agreement on outstanding arms control issues. We did so in an effort to support the President in his pre-summit meeting with General Secretary Gorbachev in Iceland in the hopes of furthering the cause of peace.

Today, it would appear that remarkable progress was made in many of the arenas of United States-Soviet military competition. Nevertheless, it seems equally clear that the United States delegation went to Iceland ill-prepared and empty handed, and returned to the United States confused and empty handed. It seems that we were caught flatfooted and as such, may well have passed up the deal of the century—the prospect of achieving deep cuts in the respective strategic and tactical nuclear weapons inventories of the world's superpowers. Such cuts have been the stated goal of the President since day one of his administration, but precisely at the moment when such cuts seemed attainable the United States balked, and at what price?

The price was a 10-year imposition and limitation on development and testing of the theoretical concept of star wars. To me, the realities of achieving deep cuts in nuclear weapons today, far outweigh the illusions of a leaky 21st century space shield tomorrow. Mr. President, we all recog-

nize your extraordinary communicative skills. Now is the time to use the skills you employed in Iceland to achieve the ultimate goal of your administration—"deep and verifiable cuts in United States and Soviet nuclear weapons inventories."

VALID INTEGRITY IN THE ELECTORAL PROCESS

(Mr. THOMAS of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMAS of California. Mr. Speaker, perhaps it is no coincidence that Halloween occurs just 5 days prior to the general election. I guess it is not a coincidence in Indiana.

Consider these ghoulish facts: Earl Diech of English, IN, died over 2 years ago. His neighbors, Faye Miller and Joseph Boyer, also of English, died over 2 years ago as well.

Mary Wilson of Taswell, IN, passed away on June 23, 1984. Yet all of these dead people did the dutiful thing in the general election of 1984. Their dutiful thing was to go to the polls and vote. They voted in the Eighth District of Indiana, and why do I mention these four dead people voting in Indiana? Because a majority of this House told us that the current encumbent of the Eighth District of Indiana won fair and square. By how many votes? Four votes, Mr. Speaker, in this campaign and Halloween season.

I hope all of us are willing to work together to make sure that dead people do not vote; that there is integrity in the electoral process.

WE MUST REDOUBLE OUR EFFORTS ON ARMS CONTROL

(Mr. AuCOIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. AuCOIN. Mr. Speaker, arms control opponents are describing the events in Iceland as this Nation's finest hour. By their standards, I suppose it was. It is not every day you get to spend $1 trillion to block arms control.

For most of my constituents, Mr. Speaker, Iceland can only be seen as a very deep disappointment. It may be that even Mr. Reagan will see it in that vein too. The arms agreement should have been reached, Mr. Speaker. By getting at nuclear ballistic missiles, the only weapons quick enough for a first strike, we could have radically reduced the chance of nuclear war. The bargain would not even have had to hurt the SDI Program.

Scientists today are telling us that SDI might even benefit by staying put in the laboratory and away from publicity stunts for the next 10 years.

The agreement was not struck. Mr. Reagan could not understand why the Soviets feared SDI if there were not going to be any ballistic missiles. Mr. Gorbachev could not understand why the United States wanted SDI if there would be no missiles to defend against.

For my part, Mr. Speaker, I do not know if the Iceland deadlock can be worked out or not in the next 2 years, but I do know this: That is that we in the Congress who have worked so hard to put constructive pressure on all sides for genuine arms control must now redouble our efforts.

If we fail, arms control will not be done at all, and this must be our first order of business in the next Congress.

ELIE WIESEL WINS NOBEL PEACE PRIZE

(Mr. LEVINE of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LEVINE of California. Mr. Speaker, every American and, indeed, people throughout this globe have reason to be overjoyed today at the announcement that Elie Wiesel has become the recipient of the Nobel Peace Prize.

A number of Members of this House, on both sides of the aisle, were among those who encouraged the Nobel Committee to award the peace prize to Elie Wiesel. There could be no more fitting or no more appropriate recipient of this prize.

Mr. Speaker, this is a man who is perhaps the most eloquent and the most spiritual writer of our age. This is a man, through his own profound and personal sorrow and tragedy, who has been able to capture the essence and the despair that he and his generation suffered—and, through that despair, to inspire people throughout this world who wish to fight for human rights and those who fight against human pain and human suffering.

Indeed, Elie Wiesel and his writing serve as testimony, perhaps the most eloquent testimony today, of Albert Camus' admonition that "the hottest places in Hell are reserved for those people who remain neutral in a time of crisis."

Mr. Speaker, there has been no more eloquent champion of human rights, there has been no more eloquent champion against human suffering. I am proud, on a personal level, to call him my friend, but much more significantly than that, Mr. Speaker, people throughout the world who are the friends of justice and the foes of suffering have been rewarded today by the announcement that Elie Wiesel—and the causes he represents—have been honored by the Nobel Peace Prize.

A PRESIDENT WHO CAN SAY NO TO THE RUSSIANS

(Mr. HUNTER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HUNTER. Mr. Speaker, Mikhail Gorbachev and Ronald Reagan met in Iceland and Gorbachev went for a first round knockout. The people of the Western world should be grateful that he did not succeed.

Gorbachev carefully timed the summit to precede American congressional elections, and there is no doubt but that Ronald Reagan could have sent this Nation and the rest of the Western world into preelection euphoria by making an agreement with the Soviet Union. But to do that, he would have had to surrender the right of Americans to defend themselves against incoming nuclear missiles. He refused, to his great credit, to surrender our right to defense, and Gorbachev did not get his first round knockout.

Thank God, Mr. Speaker, for a President who can say "no" to the Russians.

AS WE REDUCE THE RISK OF NUCLEAR WAR, WE MUST REDUCE THE RISK OF CONVENTIONAL WAR

(Mr. SLATTERY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SLATTERY. Mr. Speaker, last weekend the world watched for 36 hours as President Ronald Reagan and General Secretary Gorbachev discussed the historic arms control proposals. The great powers were near an arms control deal that could be a central event in human history. But if we slash offensive nuclear weapons, and we should, we need stability and deterrence in our conventional forces in Europe. To achieve this, the Soviet Union must make major reductions in European conventional forces as part of a larger bargain.

As we reduce the risk of nuclear war, we must reduce the risk of conventional war. I am saying to Mr. Reagan and Mr. Gorbachev: Keep talking, keep negotiating, keep trying, be bold, be flexible, be courageous, and most important, be wise. The future of mankind will be dramatically affected by your decisions.

THE PRESIDENT'S REFUSAL TO CUT A DEAL

(Mr. MILLER of Ohio asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MILLER of Ohio. Mr. Speaker, though I shared the hope of a major arms breakthrough at the recent Iceland summit, at the same time I feel the President did what he had to do. To agree to the Soviet's terms would have been the easy and politically popular thing to do; but the President acted prudently not politically in refusing to cut a deal. It was in my judgment a courageous decision on his part; one marked by his strong conviction that our country's best interests would not have been served by surrendering our options on the strategic defense initiative.

We hear his critics saying that he surrendered a golden opportunity to reach a monumental arms agreement. I personally feel that by refusing to surrender our options for the development of the promising defensive system known as SDI, a system I might add that the Soviets appear extremely eager to scuttle, that the President has come away from Iceland with the admiration of the American public for standing his ground, for not negotiating away our future security for the benefit of a short-term settlement that could have long-term consequences.

EXPRESSION OF CONCERN FOR PRESIDENT'S APPROACH AT REYKJAVIK

(Mr. LEVIN of Michigan asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LEVIN of Michigan. Mr. Speaker, the main consequence of Reykjavik is that SDI has become the linch pin of American nuclear arms policy.

For the President SDI is a vision; for mumerous scientists, a variety of European officials, and many of us in Congress it is more likely a mirage.

The more the President has embraced SDI, the more his basic justification for it has shifted. At first, it seemed a perfect defense; then a partial system to protect key offensive weapons; now, SDI is said to be required as an insurance policy against cheating by the Soviet Union and against a possible use of nuclear weapons by a third party.

Both of these concerns are real ones. Indeed, vital issues of verification against violations by the Soviets remained unsettled at Reykjavik. But that pointed to a need at Reykjavik to recess for further consultation and negotiations, not to adjourn abruptly under the cloud of stalemate.

Deeply troubling questions are raised by the President's putting all our eggs in a single, SDI basket.

What if, as many scientists believe, SDI would turn out to be impractical? The implication is that we could never reach an arms reduction treaty with the Soviet Union because there would be no other way to handle potential cheating or possession of nuclear weapons by a third party.

The President urges that the Soviet Union came to the bargaining table because of SDI. If true, does it not follow that there will be no comprehensive agreements at the bargaining table until the United States is willing to move on SDI?

One can question another's wisdom, but not at all their sincerity. In this case, I join many others in respectfully raising the deepest concern about the President's ultimate approach at Reykjavik.

PEACE THROUGH STRENGTH DOES WORK

(Mr. DELAY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DELAY. Mr. Speaker, I join many of my colleagues in applauding the efforts of the President at the Iceland summit.

As we listen to the speeches being made here on the House floor today. Again we're told America is wrong and the Soviets can do no wrong. They say that we failed because President Reagan did not come back with an agreement. I would like to point out that many of these America bashers are the same people who are working right now to restrict U.S. weapon systems without gaining any concessions from the Soviets. For these Members of Congress, arms control is easy. You just control U.S. arms and then hope and pray that the good Soviet dictator will follow suit. These are the same people who fought the MX missile, who fought the B-1 bomber, and who are fighting antisatellite weapons and SDI today. These are the people who would like to slash the defense budget to fund their agenda of social programs.

My question is this: Would President Reagan have a chance of striking an arms control agreement that will ensure the security of the Free World if this Congress had already taken all his bargaining chips away? Of course not. He wouldn't have a prayer.

The President has been telling us for 6 years that we have to be able to negotiate from strength. We are finally seeing the fruits of the strength that we have been rebuilding. Peace through strength does work and I am confident that in the near future it will work to bring us an arms control agreement that will truly protect the security of our Nation and all the Free World. But it will only work if this Congress shows the Soviet Union that we will back up our President every step of the way.

FAILURE AT THE ICELAND SUMMIT

(Mr. MARKEY asked and was given permission to address the House for 1 minute.)

Mr. MARKEY. Mr. Speaker, last night President Reagan said that SDI [star wars] was an insurance policy for America, but he forgot to tell us that it has $1 trillion dedutcible to be paid by the American taxpayer, $4 billion annual premium, and like most insurance policies, if you read the fine print you'll find it doesn't cover you in the event of nuclear war.

The American people will now see SDI for what is really is: an invulnerable guard all shield against meaningful control agreements.

Ronald Reagan's failure at Reykjavik proves that star wars will never again be looked upon as bargaining leverage for arms negotiation. You can't say on the one hand that star wars brought the Soviets back to the bargaining table and, on the other hand, that it is nonnegotiable. A nonnegotiable bargaining chip is an oxymoron, a contradiction in terms.

Last weekend the President had a chance to show us whether he is a star wars ideolog or an arms control pragmatist. Now the whole world knows where he stands—with his feet planted firmly in the clouds.

Your hands weren't tied Mr. President when you went to Iceland. Your bargaining leverage was at its height. But this President likes to rush headlong into contradictions. He wants massive military spending and no deficit, he wants star wars and arms reductions. You can't have it both ways Mr. President. The choice is clear and easy—and if you don't make it, the American people and Congress will make it for you.

THE REYKJAVIK SUMMIT

(Mr. YOUNG of Alaska asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. YOUNG of Alaska. Mr. Speaker, while much has been said in the press, and on the floor of the House, about what President Reagan should and should not have done in his meeting with the Soviet ruler, I wish to address my remarks to activities a little closer to home.

This House is the focus of my complaints.

If all the world is a stage, then Members of the House have been trying to play the wrong role. In 1984, 49 States chose the one man they wanted to be their spokesman in foreign affairs.

Why then at a time when the President faces an aggressive and cunning adversary do certain Members of this House equivocate on giving our leader their unqualified support?

Of course the reasons are obvious. In this election year, Members are under the scrutiny of keen observers at home. It is important to be seen as for peace.

But let me remind my colleagues that our words and actions are studied by a group of men far from these shores. Mikhail Gorbachev and his Politburo cronies are well aware of the fact that they have levers and tools of negotiation not available to an American President.

They play to and exploit Western public opinion. Our views get no equivalent and fair representation to the Russian people.

Gorbachev goes to Iceland and makes an offer—the sincerity of which is suspect—knowing that if he ties it to our efforts to research strategic defense, we are committed to reject it.

Would the General Secretary have been discouraged from making such a grandstand play if he thought Ronald Reagan was truly the last word in U.S. arms negotiations? We will never know. But it cannot have helped the President's bargaining power to have the House talking about unilaterally giving away things for which we could get concessions from the Soviets.

Mr. Speaker, it's not as if we don't have enough of our own work to do. Therefore, I ask my colleagues to let the President do the job the people chose him to do; and let all of us concentrate on the job we were elected to do.

STANLEY COHEN OF VANDERBILT AWARDED NOBEL PRIZE IN MEDICINE

(Mr. BONER of Tennessee asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BONER of Tennessee. Mr. Speaker, amidst the reports about the summit in Iceland, I am pleased to share with my colleague the news that Stanley Cohen, professor of biochemistry at Vanderbilt University in Nashville, was awarded the Nobel Prize in medicine yesterday.

Professor Cohen shares his prize with Rita Levi-Montalcini for the pioneering work they began in the 1950's researching how cells grow normally and how they may go astray to cause disease.

Their collaboration resulted in the discoveries of two potent natural substances—called growth factors—that regulate the growth of nerve and skin cells. Their exciting research opened new fields of widespread importance to science which, as a direct consequence, has increased our understanding of numerous disorders, including birth defects, cancers, muscular distrophy, the delayed healing of wounds, and Alzheimer's disease.

Though their research was begun while both Professors Cohen and Levi-Montalcini were at Washington University in St. Louis, since 1959 Professor Cohen has continued his valuable research at Vanderbilt University, where he is currently the American Cancer Society research professor of biochemistry.

I know my colleagues join me and the Nashville community in congratulating Stanley Cohen. We also send our best wishes to Professor Levi-Montalcini, who is director of Rome's Laboratory of Cell Biology.

Their collaborative work demonstrates the great human potential to explore the very basic building blocks of life for the benefit of all mankind. I hope this message will not be forgotten amidst the weekend's other important news events.

THE CONVICTION AND DETERMINATION OF PRESIDENT REAGAN

(Mrs. HOLT asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. HOLT. Mr. Speaker, Ronald Reagan this weekend had every incentive to conclude an arms control agreement with the Soviet Union, however flawed. Politically, it would have been a boon for the President's party. For the President himself, it could have been his legacy; yet President Reagan stood above those personal concerns and negotiated with the best interest of the Nation in mind. There are those who have and will criticize the President's action. There will be many right here in this Chamber who will say the President passed up a good deal. Well, they were not at the table. They can afford to be concerned about political considerations, because they do not bear the responsibility for the needs of everyone—Democrat and Republican alike.

Mr. Speaker, this body must recognize the conviction and determination of President Reagan, his resolve in the face of overwhelming temptation to cut a deal, however flawed; then we will merit the mantle of leadership the public has bestowed upon us, and the future of this Nation will be in good hands.

THE FUTURE OF SALT II

(Mr. DICKS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DICKS. Mr. Speaker, we are all disappointed that the United States and the Soviet Union were not able to reach final agreement on what was an historic opportunity for drastic reductions in strategic nuclear arms. We hope that despite the disagreements of Iceland, that efforts to reduce nuclear arms will continue.

But, clearly the prospects for such an agreement in the immediate future are not good. The disagreement between the administration and the Soviets over the proper role of SDI and the ABM Treaty is fundamental and will not be resolved overnight.

This means that the President's decision to break out of the numerical sublimits of the SALT II Treaty takes on even more significance. Supporters of the President's position argued that we would soon have a better agreement, and so continuation of SALT restraints was not important. Regretfully, this has not come to pass. In this delicate time in United States-Soviet relations, it is more important than ever that we not add another impediment to agreement by throwing out the only limits that exist on strategic nuclear weapons.

A fragile understanding was reached immediately before the summit that the House would not insist on binding language on SALT II in order to put to rest any concern that we were somehow tying the President's hands. But both bodies remain convinced that it is in our defense interests to maintain the interim restraint policy the President has followed up to now. I hope that the President will see the wisdom of this course, especially in light of the outcome in Iceland. We are waiting to see how deep the President's commitment to arms control really is.

RIGHT ON, MR. PRESIDENT

(Mrs. BENTLEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BENTLEY. Mr. Speaker, the President returned from Iceland having said "no" to the leader of Russia. Why this should be seen as a defeat for our country I can't understand; unless, it is that we have become too accustomed as a nation to never say "no" to any foreign country.

The responsible use of power requires that every now and then a mighty nation draws a line beyond which it cannot and will not go. It must be heartening to many of our fellow Americans that this President shows the strength to walk away from a negotiating table with less than what the media demands.

What occurred inside the bargaining sessions, we do not know. We bestow upon the Executive the power to make the ultimate judgment. In this instance, this Executive had the courage to say "no." If it was not a victory for world peace—with the position of the Russians as they occupy Afghanistan, as they continue to fill the gulags inside their own nation and create

havoc across the Third World—we should only be surprised that the failure is automatically blamed on the United States and President Reagan.

I think we should take another look at the players and their interests.

IN SUPPORT OF PRESIDENT REAGAN AND SDI

(Mr. MONTGOMERY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MONTGOMERY. Mr. Speaker, I support the President in his action at the summit. SDI is his idea and it brought the Soviets back to the negotiating table.

At this summit we are talking about reduction of weapons. What is wrong with that?

Mr. Speaker, I have been to my district this weekend and I found that the people back home are supporting the President's position at the Iceland summit.

I say and I suggest to my colleagues, talk to the folks back home.

COMMENDING THE PRESIDENT FOR HIS COURAGE AND WISDOM

(Mr. ARMEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ARMEY. Mr. Speaker, I wish to commend the President for his courage and vision in refusing to surrender SDI to the Soviets in Iceland. The strategic defense initiative offers us our only hope for escaping a policy based on mutual destruction. It does not force us to rely on good will in the Kremlin, but depends only on the skill and ingenuity of our own scientists and engineers. With the SDI, we will at last free the world from nuclear terror and pave the way for the abolition of those terrible weapons of mass destruction.

The truth is that the administration had no choice but to hold firmly to SDI. The President has a constitutional obligation to provide for the common defense. That requires him to protect our people from being vaporized by Soviet H-bombs.

The liberals in Congress may prefer to leave the world on the brink of nuclear annihilation, but the President does not.

Mr. Speaker, I strongly support the President's commitment to a defense that defends and I urge all my colleagues to do the same.

Mr. Speaker, the President went to Iceland to negotiate for a lasting peace and he went the extra mile. He did not go there to negotiate a surrender.

Furthermore, Mr. Speaker, how about those Cowboys?

ELIMINATE NUCLEAR MISSILES BY TECHNOLOGY, NOT EMPTY PROMISES

(Mr. DARDEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DARDEN. Mr. Speaker, there seems to be a misconception in Congress that arms control and the strategic defense initiative are mutually exclusive. There will be many other opportunities for arms control agreements.

In the meantime, we must continue to deal from a position of strength. We cannot abandon our future technological capability for empty promises by the Soviets to dismantle their ballistic missiles.

The sad fact is that the nuclear genie is already out of the bottle and has been since 1945. We can eliminate nuclear missiles only by making them technologically obsolete, not by agreeing simply to eliminate them.

In the meantime, we can reduce the danger of a nuclear holocaust by meaningful, verifiable, arms reduction talks, and with fewer deadly nuclear missiles.

IN DEFENSE OF PRESIDENT REAGAN

(Mr. DORNAN of California asked and was given permission to address the House for 1 minute.)

Mr. DORNAN of California. Mr. Speaker, I rise in defense of our President, who I think made an absolutely splendid and courageous effort for the Free World against tough odds during the quickie summit in the capital of our NATO ally country of Iceland.

The prior Member of this House, in speaking here in the well, may stay here because of his hard work and skills, but remember, please, that he came to this Chamber because his predecessor, our friend and colleague Congressman Larry MacDonald, was murdered by Communist Soviet fighter aircraft in a mind-numbering rocket attack on a jumbo jet commercial airliner carrying 269 innocent grandparents and children and men and women including dozens of American citizens.

Mr. Speaker, there is carved into this beautiful central first-tier desk front on our side of the aisle two words, "peace" and here right behind me, "liberty." Trying to serve both goals with balance is a very delicate quest in these increasingly dangerous times.

I, personally, can hear a faint bugle call echoing down through 210 years of American history * * * a challenge. A challenge that calls out to all Americans, "Defend your homeland, defend the west, defend Judeo-Christian ethical standards, defend Western civilization * * * defend liberty."

Now, Mr. Speaker a shrill cry has gone up from the privy council chambers of the Labor Party in London, from the privy council chambers of the Democratic Study Group here in Congress. From Harare to Havana, from Managua to Martha's Vineyard. That self-hating cry is that "the President blew it in Iceland."

He simply did not. He stood tall. History will judge him a strong and righteous figure. Every schoolchild knows that our national symbol, the heroic American eagle holds both arrows and olive branches in its outstretched talons.

On this Democrat side of the aisle in this Chamber, some Members want that American eagle to drop the arrows, to give a strong defense, in particular strategic defense. I say, never. We, in this Congress, have a sworn constitutional mandate to "provide for the common defense." We must honor that oath.

SOMETHING ROTTEN IN ICELAND

(Mr. SILJANDER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SILJANDER. Mr. Speaker, there is something rotten in Iceland. Initially, it was difficult to identify just where the odor was, but soon enough the rot was exposed.

This entire summit was manipulated to culminate in the demand to end the SDI. The Soviets are rather brilliant, because some in this Congress and some in America are falling for that Soviet scam.

We should wake up. Are we willing to yield to what the Soviets demand just because they are demanding it?

Why is it a defeat when we refuse to buckle under, when our President refuses to buckle under to what the Soviets want us to do? Why is that a defeat?

I say congratulations to President Ronald Reagan for standing tall and not giving up American security. This Congress should stand behind President Reagan, not behind Premier Gorbachev.

WHY GIVE AWAY SDI?

(Mr. COLEMAN of Missouri asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COLEMAN of Missouri. Mr. Speaker, returning from my district, the people of the Sixth District of Missouri want to know why the President of the United States had to negotiate with the leadership of the House of Representatives over arms control matters before he went to Iceland to negotiate with Mr. Gorbachev.

In fact, did this whole process that we were involved with last week help or hurt the President? Did it strengthen him or lessen his ability to get an agreement?

I think we have recognized now that, yes, people were disappointed that no agreement was arrived at, but truly we were not disappointed that a bad agreement was not signed.

The President has been strong enough to stand up and just say no.

Why would we want to give an opportunity to leave the world free from nuclear terrorism, from madmen and third countries or from the Soviets if they are so inclined to cheat on a treaty? Why would we want to give up that opportunity and give away SDI?

The real question the American people ought to ask is why is SDI so important to the Soviets that they are willing to practically do anything to insure that we give it up, while they themselves continue research and development of their own SDI program?

PRESIDENT REAGAN MADE THE RIGHT DECISION IN ICELAND

(Mr. SLAUGHTER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SLAUGHTER. Mr. Speaker, President Reagan made the right decision at the summit meeting in Iceland when he refused to give up SDI in return for Soviet promises to make drastic reductions in nuclear weapons. SDI has been the subject of much criticism and discussion. It has been belittled as being an impractical star wars sort of concept.

The eagerness of the Soviet to stop SDI development shows that they believe it to be practical.

Can anyone really believe that SDI is some sort of unworkable, visionary, foolish idea if the Soviets are so anxious to stop it that they would make many drastic and unprecedented concessions to destroy SDI?

If SDI works, the Soviet's offensive weapons will be largely nullified, and this means a drastic reduction of Soviet power which is based upon military capabilities.

It is crucial that the United States be able to defend itself if the Soviets lo not comply with any future arms reduction agreements. The President was right not to give up a defensive system that may well be indispensable for America's safety.

PRESIDENT'S EFFORTS TO STRENGTHEN AMERICA'S DEFENSE NOW PAYING OFF

(Mr. DREIER of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DREIER of California. Mr. Speaker, I rise today to praise our President for standing up for America at Reykjavik. For the first time in history, we have reached far-ranging proposals for arms reduction not just arms control. Of the Washington naysayers, who would have thought Ronald Reagan would be the President under whom Mikhail Gorbachev would say, "never had our positions been so close."

There is no one who can deny that the President's efforts to strengthen America's defenses, are now paying off. It may be a nonexistent weapons system to the Washington Post, but the Soviets think SDI is real enough to offer a 50-percent reduction in the number of missiles pointed at the United States.

Mr. Speaker, once the current propaganda battle ceases, we will find substantial and permanent progress has been made toward a safer world and we have Ronald Reagan to thank for it.

DON'T CRITICIZE THE PRESIDENT FOR REJECTING BAD DEAL

(Mr. WALKER asked and was given permission to address the House for 1 minute.)

Mr. WALKER. Mr. Speaker, at his postsummit news conference, Mr. Gorbachev encouraged the left throughout the world to endorse his stand in Reykjavik. That is one reason why I am disturbed to hear a parade of liberal Members come before the House today and indicate that President Reagan should have taken a bad agreement with the Soviets rather than walk away from that agreement. President Reagan, they say, should have given up our potential for defending ourselves in the future for a chance to trust Mr. Gorbachev and the Soviets.

Have we not learned anything? Should we not know by now that no agreement predicated on trusting the Soviets is worth anything? The President was right to walk away from a bad agreement. The American people want us to be tough dealing with the Soviets, not patsies who look for new and novel ways to surrender. If anyone wonders why we were so concerned about the liberal Democratic attempts to get President Reagan to unilaterally adopt Soviet positions prior to the summit, listen to what is being said on the floor today. Too many Congressmen say that those positions are reasonable and responsible.

PERMISSION TO FILE CONFERENCE REPORT ON S. 2638, DEPARTMENT OF DEFENSE AUTHORIZATION ACT, 1987

Mr. MONTGOMERY. Mr. Speaker, I ask unanimous consent that the managers may have until midnight tonight to file a conference report on the Senate bill, (S. 2638) to authorize appropriations for military functions of the Department of Defense and to prescribe military personnel levels for such Department for fiscal year 1987, to revise and improve military compensation programs, to improve defense procurement procedures, to authorize certain construction at military installations for fiscal year 1987, to authorize appropriations for national security programs of the Department of Energy for fiscal year 1987, and for other purposes.

The SPEAKER pro tempore (Mr. RANGEL). Is there objection to the request of the gentleman from Mississippi?

There was no objection.

VOTE FRAUD AND BOGUS REGISTRATION

(Mr. FRENZEL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FRENZEL. Mr. Speaker, in a recent issue of election administration reports, it was reported that the Missouri Secretary of State said double voting will no longer be tolerated. As noted in the article, in the 1984 Presidential election, there were about a dozen instances where the same person voted twice in the St. Louis area. There was one person who was recorded as voting in every general election in both jurisdictions since 1972.

Evidently the fraud was uncovered because two election boards, headed by a Republican and a Democrat, cross-referenced their computerized voter registration lists from the two different jurisdictions. This check produced the names of 3,500 persons who apparently are registered in both jurisdictions.

In comparing voting records, they found more than 200 who had voted in one jurisdiction after having registered in the other jurisdiction and more than 12 were recorded as apparently voting in both jurisdictions on the same election day. The records have been turned over to the U.S. attorney's office for the Eastern District of Missouri.

Mr. Speaker, opportunity for fraud and bogus registration lists exists today in 1986. No person's voting rights are secure if his or her vote can be nullified by a tombstone.

ARMS CONTROL FOR THE REAL WORLD

(Mr. VENTO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. VENTO. Mr. Speaker, I rise to ask for an explanation from the administration in terms of the position and the policy that they have adopted with regards to the Iceland conference.

Mr. Speaker, I am dismayed and disappointed that in fact the administration seem to have walked away from a substantial reduction in terms of both ICBM and INF warheads. I think that after the election rhetoric has cleared, hopefully we can come back and revisit these decisions in a clear light, because indeed I believe that such agreements would have represented substantial progress in reducing the ICBM warheads by at least half, eliminating the INF forces from Europe.

The fact of the matter is, I think, that trying to retain the SDI system that exists only in theory today, and demanding that the United States test and deploy SDI, that in attaining the objective we should not throw away the opportunity for substantial progress with regards to nuclear arms control and reduction in the real world for such a hypothetical system that does not exist today except in someone's dream world.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to the provisions of clause 5, rule I, the Chair announces that he will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 4, rule XV.

Such rollcall votes, if postponed, will be taken after debate has been completed on all the motions to suspend the rules.

MARITIME PROGRAMS AUTHORIZATION, 1987

Mr. JONES of North Carolina. Mr. Speaker, I move to suspend the rules and take from the Speaker's table the bill (H.R. 4175) to authorize appropriations for fiscal year 1987 for certain maritime programs of the Department of Transportation and the Federal Maritime Commission, with a Senate amendment thereto, and concur in the Senate amendment.

The Clerk read as follows:

Senate amendment: Strike out all after the enacting clause and insert:

(2) in paragraph (1), by striking subparagraph (C) and inserting in lieu thereof the following:

"(C) paid by the Secretary for the first complete academic year of attendance to the individual in a lump sum of $1,200 after its successful termination and at a time during the second academic year when the individual enters into an agreement accepting midshipman and enlisted reserve status as required under paragraph (2); and

"(D) paid by the Secretary for the following academic years as the Secretary shall prescribe while the individual is attending the academy.";

(3) in paragraph (2), by striking "apply for midshipman" and substitute "accept midshipman and enlisted reserve"; and

SEC. 5. Section 5 of the Act entitled "An Act to authorize the documentation of certain vessels as vessels of the United States, and for other purposes", approved October 7, 1980 (46 App. U.S.C. 1121-1) is amended by striking "until June 30, 1987.".

The SPEAKER pro tempore. Is a second demanded?

Mr. YOUNG of Alaska. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from North Carolina [Mr. JONES] will be recognized for 20 minutes, and the gentleman from Alaska [Mr. YOUNG] will be recognized for 20 minutes.

The Chair recognizes the gentleman from North Carolina [Mr. JONES].

Mr. JONES of North Carolina. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today we have before us H.R. 4175, a bill to authorize appropriations for fiscal year 1987 for certain maritime programs of the Department of Transportation and the Federal Maritime Commission.

It is vitally important to the United States that we maintain a U.S. merchant marine for both defense and commerce purposes. H.R. 4175 authorizes $388 million for the programs administered by the Maritime Administration. This includes: $320 million for operating-differential subsidy; $3.5 million for research and development; $9.5 for national security support; $19.2 for the U.S. Merchant Marine Academy; and $9 million for training at State maritime academies.

The totals are identical as between administration's request and H.R. 4175.

The $11.9 million authorization level for the Federal Maritime Commission is identical to the administration's request.

Mr. Speaker, this legislation is almost identical to the bill the House passed on June 17 by a vote of 167 to 29. The only difference is that the Senate deleted a provision that imposed for purposes of sequestration under Gramm-Rudman-Hollings, an obligation of $500 million in fiscal years 1986 and 1987 for new guaranteed loan commitments under the Merchant Marine Act, 1936. The House is receding to that position.

Mr. Speaker, I believe that the legislation we have before us is routine and noncontroversial. Therefore, I urge my colleagues' support for this legislation to authorize funds for the small maritime program we have left to support our strategic needs.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the measure to authorize funds for the Maritime Administration of the Department of Transportation and the independent Federal Maritime Commission.

On June 17 of this year, the House passed our version of this legislation by a vote of 367 to 29. We are now considering that same bill as approved by the other body—with some minor changes.

The key elements of this legislation—the funding levels for the various programs of the Maritime Administration—are the same in both bills. The total authorization for both agencies under the legislation is $400,133,000. That dollar total is iden-

tical to the administration's request. However, in the House-passed bill, that has now been accepted by the other body, we made some minor adjustments in the categories of funding for the Maritime Administration. The primary difference between the House-passed bill and the administration request was to continue funding for the six State maritime academies.

The Merchant Marine and Fisheries Committee believed it was essential to continue providing some level of Federal support to the six State maritime academies. Consequently, we took some funding from several of the other categories and came up with a total of $9 million for these academies. This amount is $3 million less than the six schools received last year. We continue to believe that it is important for the six State schools to continue, along with the Federal Merchant Marine Academy, to graduate students trained in maritime affairs who would be available if we ever have a national emergency and need to call up our Reserve Forces. The six schools graduate around 600 students each year. The Federal Academy graduated 233 students in 1985.

The changes made by the other body are rather technical in nature, with one exception—they deleted section 4 of the House-passed bill. That section imposed, for the purposes of the Gramm-Rudman-Hollings sequestration requirement only, a ceiling of $500 million on the amount of loans that could be guaranteed under MARAD's Title XI Loan Guarantee Program. By deleting this section, we do not have any statutory protection for the title XI program, but I understand that MARAD may not be guaranteeing many loans under this program during the coming year so this should not create a problem for the industry.

I believe that the legislation which we are now considering today—as previously passed by this House and now approved by the other body—is an appropriate level of Federal support for the maritime industry. I urge my colleagues to join me in enacting this important legislation which will assist in the continuing effort to provide our Nation with a viable merchant marine industry.

Mr. DAVIS. Mr. Speaker, I rise in support of House passage of H.R. 4175. This bill, previously passed by the House of Representatives on June 17, 1986, has now been approved by the other body with some minor changes which necessitate our reconsideration.

This bill provides funding for the Maritime Administration of the Department of Transportation and the Federal Maritime Commission. The combined efforts of these two Federal agencies represent virtually the entire effort of the Federal Government to provide support and leadership for the U.S. maritime industry.

This authorization bill provides a little over $400 million for two Federal agencies. The total amount of funding contained in the legislation is identical to the request of the administration.

The House Merchant Marine and Fisheries Committee, when it was considering H.R. 4175 earlier this year, made some adjustments in the funding levels of the various budget categories for the Maritime Administration. The primary changes involved taking small amounts of funding from some of the categories in order to continue Federal financial support to the six State maritime academies. The administration has proposed to eliminate direct Federal funding to these six schools but the Merchant Marine and Fisheries Committee felt that the academies provided an essential service to our maritime industry and our national defense and, therefore, deserve to have continued Federal support.

Even though our U.S. merchant marine fleet is now demanding fewer trained graduates from the State schools and the Federal Merchant Marine Academy, the trained graduates are still available to the United States to provide support for our Reserve forces in a time of war or national emergency. These educational institutions provide virtually the only reliable and continuing source of education for individuals interested in the maritime industry.

The U.S. merchant marine is in difficult times these days. The answers to these problems are not necessarily just increased Federal funding. What is essential, however, is to ensure the continued existence of a viable Federal program to oversee the various laws and regulatory programs in effect that are designed to provide Federal support for the U.S. maritime industry. This authorization bill provides the level of Federal funding necessary to maintain that Federal effort to support the U.S.-flag merchant marine.

This fiscal year 1987 authorization request is a little over $9 million more than the similar request for fiscal year 1986, but it is over $77 million less than the same request for fiscal year 1985.

Mr. Speaker, the legislation before us today, as passed by the other body, is an appropriate level of funding for these very important Federal maritime activities, and I urge my colleagues to join me and other members of the Merchant Marine and Fisheries Committee in enacting this bill.

Mr. Speaker, I yield back the balance of my time.

Mr. JONES of North Carolina. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from North Carolina [Mr. JONES] that the House suspend the rules and concur in the Senate amendment to the bill, H.R. 4175.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate amendment was concurred in.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. JONES of North Carolina. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks on the legislation just adopted.

The SPEAKER pro tempore (Mr RANGEL). Is there objection to the request of the gentleman from North Carolina?

There was no objection.

The SPEAKER pro tempore. Is a second demanded?

Mr. YOUNG of Alaska. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from North Carolina [Mr. JONES] will be recognized for 20 minutes, and the gentleman from Alaska [Mr. YOUNG] will be recognized for 20 minutes.

The Chair recognizes the gentleman from North Carolina [Mr. JONES].

Mr. JONES of North Carolina. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, S. 1352 reauthorizes the Sikes Act which provides for fish and wildlife conservation programs on military reservations and public lands through fiscal year 1988. S. 1352, as passed by the other body, was modeled after H.R. 1202, a bill with strong bipartisan support in both the Merchant Marine and Fisheries and Armed Services Committees of the House. The bill requires that the Secretary of each military department manage the fish and wildlife resources under his jurisdiction with trained professionals. It also mandates the development of wildlife conservation plans for each military reservation in cooperation with Federal and State fish and wildlife agency personnel, as well as with other interested parties. The bill also makes other technical changes to improve the administration of the act and to enhance the opportunities for wildlife conservation on military lands.

The House previously passed virtually identical legislation, H.R. 1202, under suspension of the rules, and I would strongly urge my colleagues to once again support the reauthorization of the Sikes Act by voting favorably on S. 1352. I would also like to express my deep appreciation to the distinguished gentleman from Alaska, Mr. DON YOUNG, who more than any other individual has been the driving force behind the Sikes Act reauthorization. Without his constant support and hard work, this bill would not be before us today and we owe him our deepest thanks for his efforts.

Mr. YOUNG OF Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I thank the gentleman from North Carolina, chairman of the committee, for his compliments. He has been a leader in this area and has given me the responsibility.

Mr. Speaker, I rise in support of S. 1352, a bill to enhance fish and wildlife conservation and natural resource management programs on military reservations and public lands through fiscal year 1988.

As my colleagues recall, the Sikes Act was enacted by Congress in 1960 and last amended in 1982. The act originally authorized the Secretary of Defense to carry out a program of planning, development, maintenance, and coordination of fish and wildlife conservation on military reservations. These installations encompass over 25 million acres. The programs were to be in accordance with a cooperative plan mutually agreed upon by the Secretary of the Defense, the Secretary of

the Interior, and the appropriate agency in the State in which the installation is located. Department of Defense regulations require that fish and wildlife management plans be executed for all military installations which contain land and water areas suitable for the conservation and management of fish and wildlife resources. To date, more than 19 million acres of fish and wildlife habitat have been covered by these cooperative plans. Certainly, these lands represent a substantial portion of our Nation's wildlife, fish, and game resources and must, to the extent practicable with the primary mission of national defense, be managed as effectively as possible for the protection of these resources.

In April 1984, the U.S. Army invited a three-member review team to assess the status of natural resource management programs carried out on U.S. Army lands and to formulate recommendations for improving these programs. Many of these recommended changes, which involve improved planning and coordination for multipurpose use, have been incorporated into the legislation.

During the first session of this Congress, H.R. 1202, a bill that I sponsored, was passed by the Merchant Marine and Fisheries Committee, House Armed Services Committee, and unanimously by the House of Representatives. It amended the Sikes Act in the following way:

First. Requires the secretary of each military department to manage the wildlife and fishery resources under his jurisdiction with trained professionals and to provide sustained multipurpose use and public access.

Second. Requires that priority in the contracting out for fish and wildlife conservation activities be given to Federal and State fish and wildlife agencies in order to secure the services of trained professionals.

Third. Requires that cooperative fish and wildlife plans be reviewed by all parties on a regular basis and not less than once every 5 years.

Fourth. Requires the preparation of a detailed report setting forth the amount and purpose of all expenditures during fiscal year 1986 for fish and wildlife management on each military reservation.

In addition, the legislation amends section 2665 of title 10, United States Code, in three ways. It would:

First, modify the existing timber reserve account managed by the Department of Defense to provide for the deposit therein of the total amount, instead of one-half of the net proceeds from the sale of forest products on military installations;

Second, require that the funds in the reserve account be available for all natural resource management rather than just forestry as permitted now; and

Third, establish that the reserve account may not exceed $4 million on December 31 of any calendar year.

This bill as passed by the House of Representatives was referred to the Senate Committee on Armed Services on July 31, 1985. Just last month, in fact, September 23, the Senate Military Construction Subcommittee met to mark up this legislation adopting two minor amendments which we supported. The first provision ensures that the goals and objectives of the fish and wildlife management plan receive adequate consideration in relation to timber harvest, agriculture, and other natural resource uses on military lands. It simply requires in the development and review of multiuse natural resource management plans for the appropriate military reservation that the cooperative fish and wildlife plan be treated as the exclusive component of that plan for managing wildlife, fish and game conservation and rehabilitation.

In no way does this prohibit or require the termination of existing fish and wildlife enhancement, management, or restoration that is being done on military reservations though not identified in the fish and wildlife cooperative plan. It is the intent of the second provision to clarify the authority of the Department of Defense to use receipts of the Commercial Forestry Program to fund all costs of operating that program.

While annual expenditures from the commercial forestry reserve account have never approached the maximum funds available in that account—approximately $1.2 million—there is concern that some portion of these receipts must remain available for fish and wildlife programs on military reservations. In amending 10 U.S.C. 2665, we have been given assurances that equipment and other purchases will not deplete the reserve account and that funds of a reasonable amount will remain available for fish and wildlife management.

Due to the limited time left in this Congress, it was decided that if any bill was to be obtained before we adjourn, the language found in H.R. 1202 would have to be incorporated into another bill. I provide this legislative history to reassure my colleagues that everything that has passed by the House in H.R. 1202, plus the two minor amendments adopted by the Senate Armed Services Subcommittee, are found in S. 1352.

I would like to extend a note of appreciation to Senator CHAFEE, chairman of the Senate Environment and Public Works Committee, in adopting these amendments to S. 1352. This action was also supported by the Senate Armed Services Committee Chairman, Senator GOLDWATER. The House Armed Services Committee has also been informed of this action and has no objection.

Mr. Speaker, this bill is a fine example of the bipartisan effort of many Members and their staffs. Their assistance and perseverance in moving this legislation has been greatly appreciated.

As my colleagues know, I have been a strong proponent over the years in bringing about a greater emphasis for proper wildlife and fishery management on our military lands. I strongly believe that S. 1352 provides this assistance.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. JONES of North Carolina. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from North Carolina [Mr. JONES] that the House suspend the rules and pass the Senate bill, S. 1352.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. JONES of North Carolina. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks on S. 1352, the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

EMERGENCY WETLANDS RESOURCES ACT OF 1986

Mr. JONES of North Carolina. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 740) to extend until October 1, 1995, the authority for appropriations to promote the conservation of migratory waterfowl and to offset or prevent the serious loss of wetlands and other essential habitat, and for other purposes.

The Clerk read as follows:

S. 740

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Emergency Wetlands Resources Act of 1986".

SEC. 2. FINDINGS AND STATEMENT OF PURPOSE.

(a) FINDINGS.—The Congress finds that—

(1) wetlands play an integral role in maintaining the quality of life through material contributions to our national economy, food supply, water supply and quality, flood con-

trol, and fish, wildlife, and plant resources, and thus to the health, safety, recreation, and economic well-being of all our citizens of the Nation;

(2) wetlands provide habitat essential for the breeding, spawning, nesting, migration, wintering and ultimate survival of a major portion of the migratory and resident fish and wildlife of the Nation; including migratory birds, endangered species, commercially and recreationally important finfish, shellfish and other aquatic organisms, and contain many unique species and communities of wild plants;

(3) the migratory bird treaty obligations of the Nation with Canada, Mexico, Japan, the Union of Soviet Socialist Republics, and with various countries in the Western Hemisphere require Federal protection of wetlands that are used by migratory birds for breeding, wintering or migration and needed to achieve and to maintain optimum population levels, distributions, and patterns of migration;

(4) wetlands, and the fish, wildlife, and plants dependent on wetlands, provide significant recreational and commercial benefits, including—

(A) contributions to a commercial marine harvest valued at over $10,000,000,000 annually;

(B) support for a major portion of the Nation's multimillion dollar annual fur and hide harvest; and

(C) fishing, hunting, birdwatching, nature observation and other wetland-related recreational activities that generate billions of dollars annually;

(5) wetlands enhance the water quality and water supply of the Nation by serving as groundwater recharge areas, nutrient traps, and chemical sinks;

(6) wetlands provide a natural means of flood and erosion control by retaining water during periods of high runoff, thereby protecting against loss of life and property;

(7) wetlands constitute only a small percentage of the land area of the United States, are estimated to have been reduced by half in the contiguous States since the founding of our Nation, and continue to disappear by hundreds of thousands of acres each year;

(8) certain activities of the Federal Government have inappropriately altered or assisted in the alteration of wetlands, thereby unnecessarily stimulating and accelerating the loss of these valuable resources and the environmental and economic benefits that they provide; and

(9) the existing Federal, State, and private cooperation in wetlands conservation should be strengthened in order to minimize further losses of these valuable areas and to assure their management in the public interest for this and future generations.

(b) PURPOSE.—It is the purpose of this Act to promote, in concert with other Federal and State statutes and programs, the conservation of the wetlands of the Nation in order to maintain the public benefits they provide and to help fulfill international obligations contained in various migratory bird treaties and conventions with Canada, Mexico, Japan, the Union of Soviet Socialist Republics, and with various countries in the Western Hemisphere by—

(1) intensifying cooperative efforts among private interests and local, State, and Federal governments for the management and conservation of wetlands; and

(2) intensifying efforts to protect the wetlands of the Nation through acquisition in fee, easements or other interests and methods by local, State, and Federal governments and the private sector.

SEC. 3. DEFINITIONS.

For the purpose of this Act:

(1) The term "Committees" means the Committee on Merchant Marine and Fisheries of the House of Representatives and the Committee on Environment and Public Works of the Senate.

(2) The term "designated unit" means a unit of the National Wildlife Refuge System designated by the Secretary under section 201(a)(2).

(3) The term "hydric soil" means soil that, in its undrained condition, is saturated, flooded, or ponded long enough during a growing season to develop an anaerobic condition that supports the growth and regeneration of hydrophytic vegetation.

(4) The term "hydrophytic vegetation" means a plant growing in—

(A) water; or

(B) a substrate that is at least periodically deficient in oxygen during a growing season as a result of excessive water content.

(5) The term "wetland" means land that has a predominance of hydric soils and that is inundated or saturated by surface or groundwater at a frequency and duration sufficient to support, and that under normal circumstances does support, a prevalence of hydrophytic vegetation typically adapted for life in saturated soil conditions.

TITLE I—EXTENSION OF WETLANDS LOAN ACT

SEC. 101. EXTENSION OF WETLANDS LOAN ACT.

(a) AVAILABILITY OF APPROPRIATIONS.—The first section of the Act entitled "An Act to promote the conservation of migratory waterfowl by the acquisition of wetlands, and for other essential waterfowl habitat, and for other purposes", approved October 4, 1961 (16 U.S.C. 715k-3), is amended by striking out "September 30, 1986" and inserting in lieu thereof "September 30, 1988".

(b) REPAYMENT PROVISIONS.—Section 3 of such Act (16 U.S.C. 715k-5) is amended by striking out the first three sentences.

TITLE II—REVENUES FOR REFUGE OPERATIONS AND THE MIGRATORY BIRD CONSERVATION FUND

SEC. 201. SALE OF ADMISSION PERMIT AT CERTAIN REFUGE UNITS.

(a) SALE OF ADMISSION PERMITS.—(1) Notwithstanding the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601-4 et seq.), in order to provide additional revenues for the conservation of wetland resources of the Nation and for the operation and maintenance of refuges—

(A) the Secretary of the Interior may, at units of the National Wildlife Refuge System designated by the Secretary under paragraph (2)—

(i) charge fees for admission permits;

(ii) sell Golden Eagle passports and Golden Age passports; and

(iii) issue at no charge lifetime admission permits as authorized in section 4(a)(5) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4061-4—4601-11); and

(B) the amounts collected by the Secretary as a result of the activities described in subparagraph (A) shall be distributed as provided in subsection (c).

(2) The Secretary shall designate a unit of the National Wildlife Refuge System for purposes of this Act if the Secretary determines, with respect to such unit, that—

(A) The level of visitation for recreational purposes is high enough to justify the collection of fees for admission permits for economic reasons.

(B) There is a practical mechanism in existence for implementing and operating a system of collecting fees for admission permits.

(C) Imposition of a fee for admission permits is not likely to result in undue economic hardship for a significant number of visitors to the unit.

(b) EXCEPTIONS.—(1) The Secretary may not require an admission permit under subsection (a)(1) for entry by a person into a designated unit if such person is the holder of—

(A) a valid migratory bird hunting and conservation stamp issued under section 2 of the Act of March 16, 1934 (16 U.S.C. 718b) (commonly known as the Duck Stamp Act);

(B) a valid Golden Eagle Passport issued under section 4(a)(1) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601-6a(a)(1));

(D) a valid lifetime admission permit as authorized in section 4(a)(5) of such Act.

(2) Permits for a single visit to any designated unit shall be made available by the Secretary of the Interior for a reasonable fee, but not to exceed $3 for individuals or $7.50 per vehicle. For purposes of this subsection, the term "single visit" means a more or less continuous stay within a designated unit by a person or group described in subsection (d). Payment of a single visit fee and issuance of a single visit permit shall authorize exits from and re-entries to a single designated unit for a period of from one to fifteen days. Such period shall be defined for each designated unit by the Secretary based upon a determination of the period of time reasonably and ordinarily necessary for such a single visit.

(3) Special admission permits for uses such as group activities may be issued in accordance with procedures and at fees established by the Secretary.

(4) A person may not be required to purchase an admission permit under subsection (a)(1) in order to travel by private noncommercial vehicle over any road or highway—

(A)(i) established as part of the National Federal Aid System (as defined in section 101 of title 23, United States Code); and

(ii) commonly used by the public as a means of travel between two places which are outside the designated unit; or

(B) to any land in which such person has a property interest if such land is within any designated unit.

(5) A person may not be required to purchase an admission permit under subsection (a)(1) for entrance or admission to a unit of the National Wildlife Refuge System created, expanded, or modified by Public Law 96-487.

(c) DISTRIBUTION OF AMOUNTS COLLECTED.—Amounts collected from the sale of admission permits under this section and from fees collected at any unit of the National Wildlife Refuge System under subsections (b) and (c) of section 4 of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601-6a(b), (c)) shall be distributed as follows:

(A) Thirty per centum shall be available to the Secretary of the Interior until expended. The Secretary shall use such amount—

(i) first, to defray the cost of collection;

(ii) next, for operation and maintenance of the collecting unit; and

(iii) next, for operation and maintenance of all units within the National Wildlife

Refuge System, except those units created, expanded, or modified by Public Law 96-487.

(B) Seventy percent shall be deposited into the migratory bird conservation fund established under section 4 of the Act of March 16, 1934 (16 U.S.C. 718d).

(d) PERSONS ACCOMPANYING PERMITTEES.—A person who holds a stamp, passport, or permit described in subsection (b) shall be entitled to general entrance into any designated unit, along with—

(1) any persons accompanying such person in a single, private, noncommercial vehicle; or

(2) where entry to the area is by any means other than single, private, noncommercial vehicle, the person and any accompanying spouse, children, or parents.

(e) RESTRICTIONS.—A permit issued under this section is nontransferable. Such a permit may not authorize any uses for which fees are charged under the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601-4 et seq.).

(f) ESTABLISHMENT OF FEES; POSTING OF NOTICES.—(1) All fees established pursuant to this section shall be fair and equitable. In establishing such fees, the Secretary shall consider the following:

(A) The direct and indirect cost to the Government.

(B) to the extent practicable, be included in publications distributed at such units.

(g) VOLUNTEERS.—The Director of the United States Fish and Wildlife Service may accept services of volunteers to sell admission permits under this section or to sell Golden Eagle and Golden Age Passports or Migratory Bird Hunting and Conservation Stamps. The Director may use funds appropriated or otherwise made available to the Service to cover the cost of any surety bond that may be required of a volunteer performing the services authorized under this subsection.

SEC. 202. PRICE OF MIGRATORY BIRD HUNTING AND CONSERVATION STAMP.

Section 2(b) of the Act of March 16, 1934 (16 U.S.C. 718(b)), is amended in the first sentence—

(1) by striking out "$7.50" and inserting in lieu thereof "$10.00";

(2) by striking out "any hunting year" and inserting in lieu thereof "hunting years 1987 and 1988, $12.50 for hunting years 1989 and 1990, and $15.00 for each hunting year thereafter,"; and

(3) by inserting "available for obligation and" before "attributable".

SEC. 203. TRANSFERS TO MIGRATORY BIRD CONSERVATION FUND.

Notwithstanding any other provision of law, an amount equal to the amount of all import duties collected on arms and ammunition, as specified in subpart A of part 5 of schedule 7 of the Tariff Schedules of the United States, shall, beginning with the next fiscal year quarter after the date of enactment of this Act, be paid quarterly into the migratory bird conservation fund established under section 4 of the Act of March 16, 1934 (16 U.S.C. 718d).

TITLE III—STATE AND FEDERAL WETLAND ACQUISITION

SEC. 301. NATIONAL WETLANDS PRIORITY CONSERVATION PLAN.

(a) IN GENERAL.—The Secretary shall establish, and periodically review and revise, a national wetlands priority conservation plan which shall specify, on a region-by-region basis or other basis considered appropriate by the Secretary, the types of wetlands and interests in wetlands which should be given priority with respect to Federal and State acquisition.

(b) CONSULTATION.—The Secretary shall establish the plan required by subsection (a) after consultation with—

(1) the Administrator of the Environmental Protection Agency;

(2) the Secretary of Commerce;

(3) the Secretary of Agriculture; and

(4) [the chief executive officer of] each State.

(c) FACTORS TO BE CONSIDERED.—The Secretary, in establishing the plan required by subsection (a), shall consider—

(1) the estimated proportion remaining of the respective types of wetlands which existed at the time of European settlement.

(2) the estimated current rate of loss and the threat of future losses of the respective types of wetlands; and

(3) the contributions of the respective types of wetlands to—

(A) wildlife, including endangered and threatened species, migratory birds, and resident species;

(B) commercial and sport fisheries;

(C) surface and ground water quality and quantity, and flood control;

(D) outdoor recreation; and

(E) other areas or concerns the Secretary considers appropriate.

TITLE V—MISCELLANEOUS PROVISIONS

SEC. 501. MIGRATORY BIRD TREATY ACT.

Section 6(b) of the Act of July 3, 1918 (16 U.S.C. 707(b)) is amended by deleting "shall" the first place it appears therein and by inserting in lieu thereof "shall knowingly".

SEC. 502. BAYOU SAUVAGE URBAN NATIONAL WILDLIFE REFUGE.

(a) PURPOSES OF REFUGE.—The purposes of the Bayou Sauvage Urban National Wildlife Refuge are—

(1) to enhance the populations of migratory, shore, and wading birds within the refuge;

(2) to encourage natural diversity of fish and wildlife species within the refuge;

(3) to protect the endangered and threatened species and otherwise to provide for the conservation and management of fish and wildlife within the refuge;

(4) to fulfill the international treaty obligations of the United States respecting fish wildlife;

(5) to protect the archeological resources of the refuge;

(6) to provide opportunities for scientific research and environmental education, with emphasis being given to the ecological and other values of wetlands; and

(7) to provide opportunities for fish and wildlife oriented public uses and recreation in an urban setting.

(b) ACQUISITION AND ESTABLISHMENT OF REFUGE.—

(1) ACQUISITION.—Within four years after the effective date of this section the Secretary of the Interior (hereinafter in this Act referred to as the "Secretary") shall acquire the approximately nineteen thousand acres of lands and waters, and interests therein, located in Orleans Parish, Louisiana, that are depicted on the map entitled "Bayou Sauvage Urban National Wildlife Refuge", dated September 15, 1988, and on file at the United States Fish and Wildlife Service, Department of the Interior. The lands and waters, and interests therein, acquired under this paragraph comprise the Bayou Sauvage Urban National Wildlife Refuge. The acquisition shall be made through donation, purchase with donated or appropriated funds, or exchange, or through any combination of the foregoing.

(2) ESTABLISHMENT.—At such time as sufficient lands and waters, and interests therein, have been acquired under paragraph (1) to constitute an initial area that can be administered to carry out the purposes set forth in subsection (a), the Secretary shall establish the Bayou Sauvage Urban National Wildlife Refuge by publication of notice to that effect in the Federal Register.

(3) BOUNDARY ADJUSTMENTS.—The Secretary may make such adjustments with respect to the boundary of the Bayou Sauvage Urban National Wildlife Refuge as may be necessary to facilitate the acquisition of lands and waters, and interests therein, for the refuge and to facilitate the administration of the refuge.

The Secretary may utilize such additional statutory authority as may be available to him for the conservation and development of wildlife and natural resources, the development of outdoor recreation opportunities, and interpretive environmental education as he considers appropriate to carry out such purposes. Within two years after the effective date of this section, the Secretary shall complete a master plan for the development of the Bayou Sauvage Urban National Wildlife Refuge.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Department of the Interior—

(1) from funds not otherwise appropriated from the Land and Water Conservation Fund, such sums as may be necessary for the acquisition of lands and waters, and interests therein, for the Bayou Sauvage Urban National Wildlife Refuge; and

The SPEAKER pro tempore. Is a second demanded?

Mr. YOUNG of Alaska. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from North Carolina [Mr. JONES] will be recognized for 20 minutes, and the gentleman from Alaska [Mr. YOUNG] will be recognized for 20 minutes.

The Chair recognizes the gentleman from North Carolina [Mr. JONES].

Mr. JONES of North Carolina. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, S. 740, the Emergency Wetlands Resources Act, is very similar to legislation that passed the House of Representatives in the last Congress, and H.R. 1203, legislation that has been reported by both the Committee on Merchant Marine and Fisheries and the Interior and Insular Affairs Committee.

The House bill was the result of a number of years of hearings by the Subcommittee on Fisheries and Wildlife Conservation and the Environment on the problem of loss and degradation of wetlands in this country. As you know, wetlands are those periodically inundated areas that we once believed were wastelands. We have since learned of their value, not only for fish and wildlife, but also for flood control, ground water recharge and pollution control. Studies done by a number of scientists tell us that the value of preserved wetlands is often many times greater than those that have been converted to agricultural or other uses.

There are a number of mechanisms that have been employed by both Federal and State governments to halt the destruction of wetlands, but the oldest and most successful method to date has been acquisition. In 1934, at the urging of J.N. "Ding" Darling, an ardent conservationist who was also a

talented political cartoonist, Congress passed the so-called Duck Stamp Act. This act requires hunters of migratory waterfowl to purchase and possess a Federal duck stamp. Proceeds from the sale of the stamps are placed in the migratory bird conservation account and used to purchase habitat for migratory waterfowl. The acquisitions are directed by a bipartisan commission made up of the Secretaries of Interior, Transportation, and Agriculture and two Members each from the House and the Senate. Since the program was established in 1934, more than $225 million has been spent for habitat acquisition and more than 3 million acres of waterfowl habitat have been purchased.

In 1961, Congress passed the Wetlands Loan Act to provide a means to accelerate the acquisition of migratory waterfowl habitat. This law, as amended, authorizes $200 million to be appropriated as a loan against future duck stamp revenues and can be used only for the purchase of migratory waterfowl habitat. The authorization, of which more than $185 million have been appropriated, expired on September 30 of this year.

Mr. Speaker, in spite of the contribution of waterfowl hunters, the fact is that we have not done enough to protect wetlands through acquisition. In the early 1950's, the Fish and Wildlife Service, the States, and the International Association of Fish and Wildlife Agencies set a goal for the protection of 12.5 million acres—8 million acres of the Federal Government and 4.5 million acres by the States—of waterfowl habitat needed to maintain populations that existed at that time. To date, 1.6 million acres of the Federal share remain to be acquired, with an estimated cost of approximately $1,000 per acre.

Both H.R. 1203 and S. 740 would increase the funds available for wetland acquisition in a number of ways. Our philosophy behind these bills was relatively simple—we should continue to expand the user pay concept and we should provide additional support from the Federal Government to match the contributions of those who have been supporting wildlife conservation for decades. To expand the user pay concept, these bills would make two changes in existing law. First, they would raise the price of the duck stamp from $7.50 to $15 over a 5-year period. The major waterfowl hunting groups, like Ducks Unlimited, have endorsed this proposal.

Second, both bills proposed that entrance fees be charged at refuges where it is feasible and that the proceeds of these fees be placed in the migratory bird conservation account. Persons holding valid duck stamps or golden eagle passports would be admitted to any refuge without additional charge. We should note that the Committee on Merchant Marine and Fisheries accepts the current language only with the understanding and expectation that the Secretary of the Interior's discretionary authority to designate refuges and impose access charges shall not be exercised so as to apply new or additional entrance fees to holders of special access permits to traverse the Back Bay National Wildlife Refuge. The terms and conditions regarding special access permits across the Back Bay National Wildlife Refuge has been the subject of past legislation and much debate and it is not our intent that this bill affect or modify the current arrangement in any way.

The philosophy behind the entrance fee proposal was that people other than hunters who benefited from refuges should also contribute to the expansion of the refuge system. While the House legislation would have placed all of the funds from entrance fees in the migratory bird conservation account and thus made them available for wetlands acquisition, S. 740 would provide that up to 30 percent of the resulting funds would be used for operation and maintenance of units of the national wildlife refuge system.

Third, while this provision was not included in the House bill, S. 740 would place an amount equal to the import duties on sporting arms and ammunition into the migratory bird conservation account. I would point out that hunters have been paying an 11-percent excise tax on sporting arms and ammunition for almost 50 years and that the proceeds of that tax have been used to fund State wildlife conservation programs. The excise taxes have provided over $100 million per year for conservation. Addition of an amount equal to the level of annual import duties would result in an increase of approximately $10 million for wildlife conservation.

Mr. Speaker, to match the support of conservationists, H.R. 1203 contained a special authorization of $75 million for wetlands acquisition from the land and water conservation fund [LWCF]. Up to two-thirds of these funds could have been used to provide matching funds for land acquisition by State fish and game agencies. The House bill also increased the authorization for the land and water conservation fund by $75 million per year and extended the land and water conservation fund through fiscal year 1995.

Responding to administration concerns, S. 740 sets no authorization level within the land and water conservation fund for wetlands acquisition but simply authorizes wetland acquisition from the fund. It also would require the States to include the acquisition of wetlands as part of their State comprehensive outdoor recreation plans. This would make matching money from the LWCF available for States to acquire wetlands. In addition, S. 740, like H.R. 1203, would direct the Secretary of the Interior, in consultation with other Federal agencies and State conservation agencies to develop a national wetlands priority conservation plan to identify the types of wetlands and interests in wetlands which should be given priority with respect to Federal and State acquisition. The last large contiguous tracts of bottomland hardwoods, such as those in the vicinity of the Tensas River National Wildlife Refuge in northeast Louisiana, the Boyles Island Area along the Altamaha River in Georgia, the Ray Property Area along the Ocmulgee River near Macon, GA, and the Roanoke River in North Carolina, are examples of areas that should receive consideration of funding. The wetlands in the Atchafalaya basin, those along the St. John River in Florida and riverside habitat in the west are additional examples that deserve priority consideration.

S. 740, provides that wetlands may be used as replacement for lands acquired with LWCFA money that are proposed for conversion to other uses. The other body amended the Environment and Public Works Committee reported bill to delete from section 303 the phrase "and shall be eligible without regard to location." I understand that this is intended to avoid the situation where a project in one portion of the State is proposed to be converted and unprotected wetlands in another area of that State are to be acquired as replacement lands. The wetlands to be acquired and the project area being converted should be in a reasonably equivalent location—or area—within the State. Further, in the event that funds had been transferred by the State to a political subdivision or other appropriate public agency for the original project, it is intended that the replacement wetlands should be within that jurisdiction unless there is agreement by that political subdivision or agency to the contrary.

Finally, S. 740, as amended in the other body, includes language identical to that contained in H.R. 5262, which passed the House unanimously on September 23 of this year. That legislation authorizes establishment of the Bayou Sauvage Urban National Wildlife Refuge in Louisiana.

Mr. Speaker, while S. 740 is not all we hoped for, it would be a major step in our efforts to protect wetlands. It carries on the tradition of user-pay that we have fostered and matches the commitment of sportsmen with additional funds to protect resources enjoyed by all of the public. It is a tribute to the sportsmen of this country that well over one-third of the budget of the U.S. Fish and Wildlife Service is

provided for by special excise taxes and the duck stamp. This legislation expands on that concept and provides the support needed to protect our wetlands. It has the support of the leadership of the House Committee on Interior and Insular Affairs who have been most cooperative and supportive of this wetland conservation initiative. I, therefore, urge all of my colleagues to support its adoption.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of S. 740, the Emergency Wetlands Resources Act of 1986.

The loss of wetlands across our country is at an alarming rate. Because of the value of wetlands not only for wildlife but also for flood prevention, ground water recharge, and pollution control, this rate must be slowed. One way of doing this is through wetlands acquisition.

S. 740 would increase the funds available for wetlands acquisition in a number of ways. It would extend the Wetlands Loan Act and forgive repayment of advances made to the Duck Stamp Fund by that act. It would increase the price of the Federal duck stamp from $7.50 to $15 over 5 years to enhance the wetlands acquisition power of that program. It would authorize entry fees for certain national wildlife refuges from which 70 percent of the receipts would go for wetlands purchases and the remainder for refuge operation and maintenance. It would amend the Land and Water Conservation Fund Act to authorize Federal use of the fund for wetlands purchases that benefit migratory birds. Finally, it would change the LWCF Act of require State comprehensive outdoor recreational plans to include wetlands acquisition as a component.

Mr. Speaker, this legislation, dealing with saving our Nation's wetlands, has been an issue that the Merchant Marine and Fisheries Committee has dealt with for a number of years. Legislation similar to this passed the House in the 98th Congress. In this Congress, H.R. 1203, a similar bill dealing with the wetlands issue, was passed unanimously by our committee during the first session. The main theme of all of these bills has been primarily to accelerate the process of wetlands acquisition. S. 740 establishes this process and does so in a very concrete fashion.

I would like to point out the fine leadership that our Merchant Marine and Fisheries Committee chairman, Congressman WALTER JONES, ranking minority member; Congressman BOB DAVIS; along with Congressman JOHN BREAUX, chairman of the Subcommittee on Fisheries and Wildlife Conservation and the Environment, have shown with this legislation. I support the bill and urge its adoption by this body.

Mr. WALKER. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Alaska. I am glad to yield to the gentleman from Pennsylvania.

Mr. WALKER. Mr. Speaker, I am trying to figure out just exactly what we are doing here. I do not think there is a problem, but do I understand that the Land and Water Conservation Fund, first established in 1964 for the first time, is going to be authorized to be used to acquire wetlands?

Mr. YOUNG of Alaska. I believe the gentleman is correct, yes.

Mr. WALKER. Does this mean that we are depriving some other environmental areas from use of those funds? Where is that money coming from? I do not see any indication here that we are going to increase the funds available to the LWCF, so where is the money going to come from that we are now going to put into the wetlands?

Mr. YOUNG of Alaska. In the first place, there is a surplus of money already established, already in position that has not been used, so there will not be the taking of any moneys away from any other existing programs or moneys that have been applied for. So it is our belief that this will, in fact, by using the funds, acquire lands that we think right now should be acquired, and if we do not have the moneys they will not be acquired and we will lose them.

Mr. WALKER. The Land and Water Conservation Fund is presently in surplus?

Mr. YOUNG of Alaska. The gentleman is correct.

Mr. WALKER. So we would be using surplus money out of that trust fund for wetlands purchase?

Mr. YOUNG of Alaska. The gentleman is correct, subject to appropriation. This gives the authorization to do so, but it is subject to appropriation.

Mr. WALKER. I thank the gentleman.

Mr. JONES of North Carolina. Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, a significant portion of the subject matter in S. 740, specifically those provisions dealing with the Land and Water Conservation Fund Act, fall within the jurisdiction of the Committee on Interior and Insular Affairs. As such, the committee would be within its rights and responsibilities to have requested a referral of this legislation. However, we did not object and demand consideration of this measure by the Interior and Insular Affairs Committee based on that point, but I do want to make it clear that the Committee on Interior and Insular Affairs will certainly continue to maintain its jurisdictional responsibilities with regard to the Land and Water Conservation Fund Act.

H.R. 1203, a bill similar to S. 740 is currently pending before the House. The House measure, after being reported by the Merchant Marine and Fisheries Committee in May 1985 was sequentially referred to the Committee on Interior and Insular Affairs. The committee discharged H.R. 1203 only after reaching agreement with the Merchant Marine and Fisheries Committee regarding those matters within the Interior Committee's jurisdiction.

I would note that the measure before the House today (S. 740) departs from the agreement reached by the two House committees of jurisdiction. Nevertheless, because of the circumstances I am willing to support this measure and see it proceed because I believe the overall thrust of the bill will achieve an important public policy purpose; Namely, the important conservation and enhancement of our vital wetlands resources.

As many Members are aware, wetlands are disappearing, because of development, at an alarming rate. Wetlands are a vital resource to our wildlife and plant species, and their continued loss bodes ill for the health of our environment.

Mr. Speaker, while I do have serious concerns about some of the provisions of S. 740, I believe the bill as a whole is important, to stem the decline in our wetlands resources and support the measure.

□ 1305

Mr. JONES of North Carolina. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from North Carolina [Mr. JONES] that the House suspend the rules and pass the Senate bill, S. 740.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. JONES of North Carolina. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on S. 740, the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

WETLANDS LOAN ACT EXTENSION

Mr. JONES of North Carolina. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 589) to provide for the concurrence of the House to the amendment of the Senate to the bill (H.R. 4531) to extend the Wetlands Loan Act, and for other purposes, with amendments.

The Clerk read as follows:

Senate amendment: page 3, after line 2, insert:

SEC. 4. CONVEYANCE OF FISH HATCHERY TO THE STATE OF NEW HAMPSHIRE.

Notwithstanding any other law, the Secretary of the Interior and the Secretary of Agriculture shall convey, without reimbursement, to the State of New Hampshire no later than December 31, 1986, all of the right, title, and interest including the water rights, of the United States in and to the fish hatchery property located in the northwest corner of Berlin township in the White Mountain National Forest, New Hampshire, and known as the Berlin National Fish Hatchery, consisting of 510 acres, more or less, of land together with any improvements and related personal property thereon. The property conveyed shall be used by the New Hampshire Fish and Game Department as a part of the New Hampshire fishery resources management program and if it is used for any other purpose, title to such property shall revert to the United States.

H. RES. 589

Resolved, That upon the adoption of this resolution the bill (H.R. 4531) to extend the Wetlands Loan Act, and for other purposes, be and is hereby taken from the Speaker's table to the end that the Senate amendment be and is hereby agreed to with the following amendments:

Strike out section 1 of the bill and insert the following:

SECTION 1. TRANSLOCATION OF CALIFORNIA SEA OTTERS.

(a) DEFINITIONS.—For purposes of this section—

(1) The term "Act" means the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.).

(2) The term "agency action" has the meaning given that term in section 7(a)(2) of the Act.

(3) The term "experimental population" means the population of sea otters provided for under a plan developed under subsection (b).

(4) The phrase "parent population" means the population of sea otters existing in California on the date on which proposed regulations setting forth a proposed plan under subsection (b) are issued.

(5) The phrase "prospective action" refers to any prospective agency action that—

(A) may affect either the experimental population or the parent population; and

(B) has evolved to the point where meaningful consultation under section 7(a) (2) or (3) of the Act can take place.

(6) The term "Secretary" means the Secretary of the Interior.

(7) The term "Service" means the United States Fish and Wildlife Service.

(b) PLAN SPECIFICATIONS.—The Secretary may develop and implement, in accordance with this section, a plan for the relocation and management of a population of California sea otters from the existing range of the parent population to another location. The plan, which must be developed by regulation and administered by the Service in cooperation with the appropriate State agency, shall include the following:

(1) The number, age, and sex of sea otters proposed to be relocated.

(2) The manner is which the sea otters will be captured, translocated, released, monitored, and protected.

(3) The specification of a zone (hereinafter referred to as the "translocation zone") to which the experimental population will be relocated. The zone must have appropriate characteristics for furthering the conservation of the species.

(4) The specification of a zone (hereinafter referred to as the "management zone") that—

(A) surrounds the translocation zone; and

(B) does not include the existing range of the parent population or adjacent range where expansion is necessary for the recovery of the species.

The purpose of the management zone is to (i) facilitate the management of sea otters and the containment of the experimental population within the translocation zone, and (ii) to prevent, to the maximum extent feasible, conflict with other fishery resources within the management zone by the experimental population. Any sea otter found within the management zone shall be treated as a member of the experimental population. The Service shall use all feasible non-lethal means and measures to capture any sea otter found within the management zone and return it to either the translocation zone or to the range of the parent population.

(5) Measures, including an adequate funding mechanism, to isolate and contain the experimental population.

(6) A description of the relationship of the implementation of the plan to the status of the species under the Act and to determinations of the Secretary under section 7 of the Act.

(c) STATUS OF MEMBERS OF THE EXPERIMENTAL POPULATION.—(1) Any member of the experimental population shall be treated while within the translocation zone as a threatened species for purposes of the Act, except that—

(A) section 7 of the Act shall only apply to agency actions that—

(i) are undertaken within the translocation zone,

(ii) are not defense-related agency actions, and

(iii) are initiated after the date of the enactment of this section; and

(B) with respect to defense-related actions within the translocation zone, members of the experimental population shall be treated as members of a species that is proposed to be listed under section 4 of the Act.

For purposes of this paragraph, the term "defense-related agency action" means an agency action proposed to be carried out directly by a military department.

(2) For purposes of section 7 of the Act, any member of the experimental population shall be treated while within the management zone as a member of a species that is proposed to be listed under section 4 of the Act. Section 9 of the Act applies to members of the experimental population; except that any incidental taking of such a member during the course of an otherwise lawful activity within the management zone, may not be treated as a violation of the Act or the Marine Mammal Protection Act of 1972.

(d) IMPLEMENTATION OF PLAN.—The Secretary shall implement the plan developed under subsection (b)—

(1) after the Secretary provides an opinion under section 7(b) of the Act regarding each prospective action for which consultation was initiated by a Federal agency or requested by a prospective permit or license applicant before April 1, 1986; or

(2) if no consultation under section 7(a)(2) or (3) regarding any prospective action is initiated or requested by April 1, 1986, at any time after that date.

(e) CONSULTATION AND EFFECT OF OPINION.—A Federal agency shall promptly consult with the Secretary, under section 7(a)(3) of the Act, at the request of, and in cooperation with, any permit or license applicant regarding any prospective action. The time limitations applicable to consultations under section 7(a)(2) of the Act apply to consultations under the preceding sentence. In applying section 7(b)(3)(B) with respect to an opinion on a prospective action that is provided after consultation under section 7(a)(3), that opinion shall be treated as the opinion issued after consultation under section 7(a)(2) unless the Secretary finds, after notice and opportunity for comment in accordance with section 553 of title 5, United States Code, that a significant change has been made with respect to the action or that a significant change has occurred regarding the information used during the initial consultation. The interested party may petition the Secretary to make a finding under the preceding sentence. The Secretary may implement any reasonable and prudent alternatives specified in any opinion referred to in this subsection through appropriate agreements with any such Federal agency, prospective permit or license applicant, or other interested party.

(f) *Construction.*—For purposes of implementing the plan, no act by the Service, an authorized State agency, or an authorized agent of the Service or such an agency with respect to a sea otter that is necessary to effect the relocation or management of any sea otter under the plan may be treated as a violation of any provision of the Act or the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq.).

Amend the title of the bill so as to read: "An Act to improve the operation of certain fish and wildlife programs.".

The SPEAKER pro tempore. Is a second demanded?

Mr. YOUNG of Alaska. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from North Carolina [Mr. JONES] will be recognized for 20 minutes and the gentleman from Alaska [Mr. YOUNG] will be recognized for 20 minutes.

The Chair recognizes the gentleman from North Carolina [Mr. JONES].

Mr. JONES of North Carolina. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 4531, as amended by the other body, contains a number

of noncontroversial changes in laws affecting the U.S. Fish and Wildlife Service. Our committee amendment would add a provision that is necessary to allow the service to carry out conservation efforts to bring back the threatened California sea otter and would delete a provision that is the same as contained in legislation we have just passed and is therefore now unnecessary.

Mr. Speaker, H.R. 4531, with our amendment, contains the following legislative items. First, it contains special provisions relating to the translocation of the threatened California sea otter. These provisions were contained in H.R. 1027, the Endangered Species Act reauthorization, which passed the House in July 1985, and have been endorsed by both the friends of the sea otter and the Western Oil and Gas Association, as well as the U.S. Fish and Wildlife Service.

Second, H.R. 4531 contains language authorizing a boundary adjustment of a wildlife refuge in Louisiana to facilitate acquisition.

Third, H.R. 4531 would make a clarifying technical change in the Migratory Bird Conservation Act made necessary by the provisions of Gramm-Rudman-Hollings.

Fourth, H.R. 4531 would transfer the Berlin national fish hatchery in New Hampshire to the New Hampshire Fish and Game Department. This hatchery is currently being operated by the New Hampshire Fish and Game Department under a memorandum of agreement with the U.S. Fish and Wildlife Service and the Service does not object to this transfer.

Finally, the committee amendment deletes unnecessary language extending the Wetlands Loan Act because an identical provision was contained in S. 740, the comprehensive wetlands bill which has just passed the House and has been sent to the President.

As the Members can see, these are all noncontroversial provisions and I urge the adoption of H.R. 4531 as amended.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of House Resolution 589, providing concurrence of the House to the amendment of the Senate to the bill H.R. 4531 with amendments. The bill includes technical changes to the Atchafalaya National Wildlife Refuge concerning its boundary and to the Duck Stamp Act concerning unobligated funds due to the Gramm-Rudman-Hollings sequestration. It also provides for the conveyance of the Berlin national fish hatchery to the State of New Hampshire.

As I understand the resolution, the section of H.R. 4531 dealing with the Wetlands Loan Act will be deleted since that provision is now a part of S. 740 which this body just adopted. The resolution also calls for the addition of a new section dealing with a provision to encourage the development and protection of an experimental population of California sea otters. This provision had previously been adopted by the House of Representatives during the first session of the Congress with the passage of H.R. 1027, reauthorization of the Endangered Species Act. The provision represents a consensus among the various entities involved on how best to provide for the establishment and management of an experimental population of this species. The administration is very supportive of this action.

Mr. Speaker, I would like to commend the chairman of the Merchant Marine and Fisheries Committee, Congressman WALTER JONES, ranking minority member, Congressman BOB DAVIS, as well as Congressman JOHN BREAUX, chairman of the Subcommittee on Fisheries and Wildlife Conservation and the Environment, in dealing with these vitally important issues.

I support the resolution and urge its adoption.

Mr. Speaker, I yield back the balance of my time.

Mr. JONES of North Carolina. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from North Carolina [Mr. JONES] that the House suspend the rules and agree to the resolution, House Resolution 589.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. JONES of North Carolina. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on House Resolution 589, the resolution just agreed to.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

CONFERENCE REPORT ON H.R. 3113, PROVIDING FOR COORDINATED OPERATION OF THE CENTRAL VALLEY PROJECT AND THE STATE WATER PROJECT IN CALIFORNIA

Mr. MILLER of California submitted the following conference report and statement on the bill (H.R. 3113) providing for the coordinated operation of the Central Valley project and the State water project in California.

CONFERENCE REPORT (H. REPT. 99-991)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 3113) entitled the "Providing for the Coordinated Operation of the Central Valley Project and the State Water Project in California", having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate to the text of the bill and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

TITLE I—COORDINATED OPERATIONS

PROJECT OPERATION POLICY

SEC. 101. Section 2 of the Act of August 26, 1937 (50 Stat. 850) is amended by—

(a) inserting at the beginning "(a)"; and

(b) inserting the following new subsection:

"(b)(1) Unless the Secretary of the Interior determines that operation of the Central Valley project in conformity with State water quality standards for the San Francisco Bay/Sacramento-San Joaquin Delta and Estuary is not consistent with the congressional directives applicable to the project, the Secretary is authorized and directed to operate the project, in conjunction with the State of California water project, in conformity with such standards. Should the Secretary of the Interior so determine, then the Secretary shall promptly request the Attorney General to bring an action in the court of proper jurisdiction for the purpose of determining the applicability of such standards to the project.

"(2) The Secretary is further directed to operate the Central Valley project, in conjunction with the State water project, so that water supplied at the intake of the Contra Costa Canal is of a quality equal to the water quality standards contained in the Water Right Decision 1485 of the State of California Water Resources Control Board, dated August 16, 1978, except under drought emergency water conditions pursuant to a declaration by the Governor of California. Nothing in the previous sentence shall authorize or require the relocation of the Contra Costa Canal intake.".

REIMBURSABLE COSTS

SEC. 102. Section 2 of the Act of August 26, 1937 (50 Stat. 850) is amended by inserting the following new subsection:

"(c)(1) The costs associated with providing Central Valley project water supplies for the purpose of salinity control and for complying with State water quality standards identified in exhibit A of the 'Agreement Between the United States of America and the Department of Water Resources of the State of California for Coordinated Operation of the Central Valley Project and the State Water Project' dated May 20, 1985 shall be allocated among the project purposes and shall be reimbursed in accordance with existing Reclamation law and policy. The costs of providing water for salinity control and for complying with State water quality stnadards above those standards identified in the previous sentence shall be nonreimbursable.

"(2) The Secretary of the Interior is authorized and directed to undertake a cost allocation study of the Central Valley project, including the provisions of this Act, and to

implement such allocations no later than January 1, 1988.".

"(d) The Secretary of the Interior is authorized and directed to execute and implement the "Agreement Between the United States of America and the Department of Water Resources of the State of California for Coordinated Operation of the Central Valley Project and the State Water Project" dated May 20, 1985: Provided, That—

"(1) the contract with the State of California referred to in subarticle 10(h)(1) of the agreement referred to in this subsection for the conveyance and purchase of Central Valley project water shall become final only after an Act of Congress approving the execution of the contract by the Secretary of the Interior; and,

"(2) the termination provisions of the agreement referred to in this subsection may only be exercised if the Secretary of the Interior or the State of California submits a report to Congress and sixty calendar days have elapsed (which sixty days, however, shall not include days on which either the House of Representatives or the Senate is not in session because of an adjournment of more than three days to a day certain) from the date on which said report has been submitted to the Speaker of the House of Representatives and the President of the Senate for reference to the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the Senate. The report must outline the reasons for terminating the agreement and, in the case of the report by the Secretary of the Interior, include the views of the Administrator of the Environmental Protection Agency and the Governor of the State of California on the Secretary's decision.".

REFUGE WATER SUPPLY INVESTIGATION

SEC. 104. The Secretary of the Interior shall not contract for the delivery of more than 75 percent of the firm annual yield of the Central Valley project not currently committed under long-term contracts until one year after the Secretary has transmitted to the Congress a feasibility report, together with his recommendations, on the "Refuge Water Supply Investigations, Central Valley Basin, California.".

ADJUSTMENT OF RATES AND ABILITY TO PAY

SEC. 105. The Secretary of the Interior shall include in all new or amended contracts for the delivery of water from the Central Valley project a provision providing for the automatic adjustment of rates by the Secretary of the Interior if it is found that the rate in effect may not be adequate to recover the appropriate share of the existing Federal investment in the project by the year 2030. The contracts shall also include a provision authorizing the Secretary of the Interior to adjust determinations of ability to pay every five years.

OPERATION AND MAINTENANCE DEFICITS

SEC. 106. The Secretary of the Interior shall include in each new or amended contract for the delivery of water from the Central Valley project provisions ensuring that any annual deficit (outstanding or hereafter arising) incurred by a Central Valley project water contractor in the payment of operation and maintenance costs of the Central Valley project is repaid by such contractor under the terms of such new or amended contract. together with interest on any such deficit which arises on or after October 1, 1985, at a rate equal to the average market yields on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the applicable reimbursement period of the project, adjusted to the nearest one-eighth of 1 percent.

TITLE II—SUISUN MARSH PRESERVATION AGREEMENT

(b) the Federal share of continuing annual operation and maintenance costs, including monitoring, shall not exceed 40 percent of the actual operation and maintenance costs; and,

(c) the costs incurred by the United States for construction and for annual operation and maintenance in connection with the implementation of said agreement shall constitute an integral part of the cost of the Central Valley project. The Secretary shall allocate such costs to the reimbursable and nonreimbursable purposes served by the project.

COSTS INCURRED

SEC. 203. Costs incurred both before and after the date of execution of the agreement herein authorized are to be included in the total for determining the Federal share of construction, operation, and maintenance costs.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 3113) entitled "Providing for the Coordinated Operation of the Central Valley Project and the State Water Project in California", submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment to the text of the bill struck out all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate to the text of the bill with an amendment which is a substitute for the House bill and the Senate amendment. The differences between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

TITLE I—COORDINATED OPERATION AGREEMENT

SECTION 101—PROJECT OPERATION POLICY

Project operation policy

House bill.—The House bill amends the Act of August 26, 1937 (50 State. 850), the basic Central Valley Project (CVP) authorization, by authorizing and directing the Secretary of the Interior to operate the CVP, in conjunction with the State water project, in compliance with State water quality standards for the San Francisco Bay/Sacramento-San Joaquin Delta and Estuary unless the Secretary determines that new standards are not consistent with the Confressional directives applicable to the project. If the Secretary so determines, he or she must promptly request the Attorney General to bring an action in the court of proper jurisdiction for purpose of determining the applicability of any new standards to the project.

Senate bill.—The Senate bill has no such provision.

Conference agreement.—The conference agreement retains the House language with a clarifying amendment.

Contra Costa Canal water quality

House bill.—The House included a provision to require the Secretary to operate the CVP so that water supplied at the intake of the Contra Costa Canal is of a quality equal

to the municipal and industrial water quality standards contained in the California State Water Resources Control Board water quality standards Decision 1485 (August 16, 1978). This provision must be met except under drought emergency conditions pursuant to a declaration by the Governor of the State of California.

Senate bill.—The Senate bill has no such provision.

Conference agreement.—The conference agreement retains the House language with one addition. The conference agreement adds a new sentence to make it clear that this provision does not authorize or require the relocation of the Contra Costa Canal intake.

SECTION 102—REIMBURSABLE COSTS

Compliance with standards

House bill.—The House bill provides that the costs associated with providing CVP water supplies for the purpose of salinity control and for complying with State water quality standards over and above existing water quality objectives identified in the water rights exchange contract dated February 14, 1968 (the so-called "Tracy Standards") shall be considered nonreimbursable project costs.

Senate bill.—The Senate bill has no such provision.

Conference agreement.—The conference agreement modifies the language in the House provision. The conference agreement provides that the costs associated with providing CVP water supplies for the purpose of salinity control and for complying with the State water quality standards contained in Decision 1485 shall be reimbursed in the following manner: The Secretary will calculate those costs and then allocate them among all of the project purposes in accordance with existing Reclamation law and policy for purposes of repayment. Thus, all project purposes (e.g., irrigation, power, navigation, flood control, fish and wildlife, etc.) will share in reimbursing these costs in accordance with the law and policies now in effect. Finally, all costs associated with complying with salinity control and State water quality standards established in the future by the State Water Resources Control Board which are determined to be consistent with the Congressional directives and that exceed the costs of the D-1485 standards shall be considered nonreimbursable.

Cost allocation study

House bill.—The House bill authorizes and directs the Secretary to undertake a cost allocation study of the Central Valley Project, and to implement the new allocations no later than January 1, 1987.

Senate bill.—The Senate bill has no such provision.

Conference agreement.—The conference agreement retains the House language, but changes the date for the implementation of the new allocations to January 1, 1988.

SECTION 103—COORDINATED OPERATIONS AGREEMENT

Authority to enter into agreement

Conference agreement.—The conference agreement retains the language in the House bill.

Congressional review of conveyance and purchase contract

Conference agreement.—The conference agreement retains the House language.

Apportioning water supplies

House bill.—The House bill provides that if the Secretary determines there is a shortage in the quantity of project water available to meet the project's contractual commitments and the State water quality standards implemented pursuant to Article 11, then the Secretary shall apportion available water among all the water users capable of receiving water by reducing deliveries to all water users by the same percentage, unless the Secretary is prohibited by then existing contract or law from doing so, or has determined that some other method of apportionment is required to prevent undue hardship.

Senate bill.—The Senate bill contains no such provision.

Conference agreement.—The conference agreement is to delete the House language.

Exercising termination provisions

House bill.—The House bill allows the Secretary to exercise the termination provisions of the agreement only after the Secretary has submitted a report to the Congress and 180 legislative days have elapsed. The report must outline the Secretary's reasons for terminating the agreement, and include the views of the Administrator of the Environmental Protection Agency and the Governor of the State of California on the Secretary's proposed decision to withdraw from the agreement.

Senate bill.—The Senate bill contains no such provision.

Conference agreement.—The conference agreement retains the House language with two exceptions. First, if either the Secretary or the State of California desires to terminate the agreement, that party must submit a report to the Congress stating the reasons for exercising the termination provisions. And second, the conference agreement reduces the time for Congressional review from 180 to 60 days (not including days on which either the House or Senate is not in session because of an adjournment of more than 3 days to a day certain).

SECTION 104—REFUGE WATER SUPPLY INVESTIGATION

Conference agreement.—The conference agreement is to adopt the Senate provision.

SECTION 105—ADJUSTMENT OF RATES AND ABILITY TO PAY

Conference agreement.—The conference agreement is to adopt the Senate provision. The conferees intend that the automatic rate adjustment will take place on an annual basis.

SECTION 106—OPERATION AND MAINTENANCE DEFICITS

House bill.—The House bill contains no such provision.

Senate bill.—The Senate bill provides that new or amended contracts for the delivery of water from the CVP include provisions ensuring that operation and maintenance (O&M) deficits of the project be repaid with interest. The section provides that interest would be charged at a rate equal to the average market yields on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the applicable reimbursement period of the project.

Conference agreement.—The conference agreement modifies the Senate language to provide that each new or amended contract for CVP water must ensure that any O&M deficits incurred by an individual contractor must be repaid by that contractor, with interest. The conferees believe the revised language provides a more equitable arrangement for repayment of O&M deficits.

TITLE II—SUISUN MARSH PRESERVATION AGREEMENT

Conference agreement.—The conference agreement is to accept Title II of the Senate bill in its entirety.

TITLE III—SMALL RECLAMATION PROJECTS ACT AMENDMENTS

SECTION 301—REFERENCE TO SMALL PROJECTS ACT

Conference agreement.—The conference agreement is to adopt the Senate language.

SECTION 302—REHABILITATION AND BETTERMENT

Conference agreement.—The conference agreement is to adopt the Senate language.

SECTION 303—FILING FEE

Conference agreement.—The conference agreement is to adopt the Senate language.

SECTION 304—COST SHARING

Conference agreement.—The conference agreement is to adopt the Senate language. The conferees expect that the Secretary will exercise the authority to waive the cost-sharing requirements only in the most unusual of instances and based on thorough documentation sufficient to convince a prudent person of the unavailability of financing.

SECTION 305—SOIL SURVEY

Conference agreement.—The conference agreement is to adopt the Senate language.

SECTION 306—COMPATIBILITY WITH CORPS PROJECT

Conference agreement.—The conference agreement is to adopt the Senate language.

SECTION 307—REPAYMENT AND INTEREST

Conference agreement.—The conference agreement is to adopt the Senate language. It is the conferees' intent that the ownership limitation of 320 acres is to be considered on a loan-by-loan basis, rather than by examining ownership by a recipient throughout the West

SECTION 308—FISH AND WILDLIFE FUNDING

Conference agreement.—The conference agreement is to adopt the Senate language.

SECTION 309—AUTHORIZATION AND LIMITATION

House bill.—The House bill contains no such provision.

Senate bill.—This provision amends section 10 of the Act to authorize the appropriation of $600 million, effective October 1, 1986. This section was also amended to require that no more than 20 percent of the newly authorized $600 million may be spent for projects located in a single State.

Conference agreement.—The conference agreement retains the Senate language in a modified form. The conference agreement would impose the 20 percent limitation for a period of 5 years. After that time period, the Secretary may waive the limitation if it is determined that a loan or grant has met the purposes of the Act (as amended). The Secretary must send the reasons for waiving the limitation to the Congress and allow Congress 60 legislative days in which to pass a joint resolution of disapproval.

The Conferees expect that from available Fiscal Year 1987 funds, the Bureau of Reclamation will allocate funding to the Upper Yampa Water Conservancy District's proposed Stagecoach Project, in accordance with the District's pending application; provided, however, that the project meets all the requirements of the Bureau in accordance with standard application procedures.

SECTION 310—TRANSITION RULES

Conference agreement.—The conference agreement retains the Senate language, except that section 302, 304(b), 306 and 307 shall apply to all draft applications received after August 15, 1986.

SECTION 311—SURPLUS CROPS REPORT

Conference agreement.—The conference agreement retains the Senate language. The Conferees consider the study required by this section to be of critical importance to the future of the loan program. It is expected that the study will be thoroghly and promptly conducted, and that practical solutions to the surplus crop issue in relation to the Small Reclamation Projects Act program will be included in the recommendations submitted by the Secretaries.

TITLE IV—VALIDATION OF CONTRACTS

House bill.—The House bill contains no such provision.

Senate bill.—The Senate bill amends the Federal Power Act to provide that no charge shall be assessed for the use of any government dam or structure if the Secretary has entered into a contract with such licensee which covers one or more projects for which a license was issued by the Federal Energy Regulatory Commission prior to January 1, 1985, and if the contract contains provisions specifically providing each of the following: a powerplant may be built by the licensee utilizing irrigation facilities constructed by the United States; the powerplant shall remain in the exclusive control, possession, and ownership of the licensee concerned; and, all revenue from the powerplant and from the use, sale, or disposal of electric energy from the powerplant shall be, and remain, the property of such licensee. KOREAN WAR MEMORIAL ACT

Ms. OAKAR. Mr. Speaker, I move to suspend the rules and take from the Speakers table the bill (H.R. 2205) to authorize the American Battle Monuments Commission to establish a memorial to honor members of the Armed Forces of the United States who served in the Korean conflict, with Senate amendments thereto, and concur in the Senate amendments.

The Clerk read as follows:

Senate amendments: strike out all after the enacting clause and insert:

AUTHORIZATION OF MEMORIAL

SECTION 1. The American Battle Monuments Commission is authorized to establish a memorial on Federal land in the District of Columbia and its environs to honor members of the Armed Services of the United States who served in the Korean War, parcularly those who were killed in action, are still listed as missing in action, or were held as prisoners of war. Such memorial shall be established in accordance with the provisions of H.R. 4378, as approved by the House of Representatives on September 29, 1986.

ESTABLISHMENT OF KOREAN WAR VETERANS MEMORIAL ADVISORY BOARD

SEC. 2. There is hereby established a Korean War Veterans Memorial Advisory Board which shall consist of twelve veterans who served in the Korean war. The members of the Board shall be appointed by the President within one hundred and twenty calendar days of enactment of this Act.

(b) The Korean War Veterans Memorial Advisory Board shall be responsible for:

(1) recommending the site and selecting the design for the memorial, subject to the approval of the American Battle Monuments Commission and in accordance with section 7(a) of H.R. 4378, as approved by the House of Representatives on September 29, 1986; and

(2) promoting the establishment of the memorial and encouraging the donation of private funds for the construction and maintenance of the memorial.

FEDERAL AUTHORIZATION AND PRIVATE FUNDING

SEC. 3. (a) The American Battle Monuments Commision shall establish the memorial with private funds except as provided in subsection (b) of this section. For the purpose of carrying out this Act, the American Battle Monuments Commission is authorized to solicit and accept private contributions. The Commission is directed to establish an account into which these private funds shall be deposited and to maintain documentation of such contributions.

(b) There are hereby authorized to be appropriated:

(1) $500,000 for site preparation, design, planning, and associated administrative costs for the establishment of the memorial; and

(2) $500,000 for construction of the memorial, to be available only after a construction permit has been issued for the memorial.

(c) Private funds donated in excess of the cost of construction and maintenance of the memorial shall be deposited in the Treasury as miscellaneous receipts to reimburse the United States for funds appropriated pursuant to subsection (b) of this section.

Amend the title so as to read: "An Act to authorize the erection of a memorial on Federal land in the District of Columbia and its environs to honor members of the Armed Forces of the United States who served in the Korean war.".

The SPEAKER pro tempore. Is a second demanded?

Mr. FRENZEL. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentlewoman from Ohio [Ms. OAKAR] will be recognized for 20 minutes and the gentleman from Minnesota [Mr. FRENZEL] will be recognized for 20 minutes.

The Chair recognizes the gentlewoman from Ohio [Ms. OAKAR].

Ms. OAKAR. Mr. Speaker, I yield myself such time as I may consume. Mr. Speaker, I am proud to be a cosponsor of H.R. 2205, the "Korean War Memorial" bill. This bill originally passed in the House unanimously (406–0) on November 6, 1985. The resolution was referred to the other body and was reported favorably, as amended, on September 19, 1986. On October 9, 1986, H.R. 2205 passed in the other body, as amended.

Mr. Speaker, there were 54,000 Americans killed and 103,000 wounded in Korea. Today, there are approximately 5 million living United States veterans who fought in Korea. During the Korean war, which lasted 3 years, there were nearly as many lives lost as in the 10-year Vietnam conflict. This memorial would serve as a timely reminder of the important sacrifices made by these veterans some 32 years ago. Their service to their country was no less important than those who fought in World War I, World War II, or the conflict in Vietnam. It is therefore appropriate to have a Korean War Memorial to honor those "forgotten soldiers" who fought in the "forgotten war."

Mr. Speaker, I am proud to be a cosponsor of H.R. 2205, legislation that will authorize the erection of a memorial on Federal land in the District of Columbia and its environs to the millions of Americans who served in the Korean conflict. H.R. 2205 was introduced by my distinguished colleague, Representative JAMES FLORIO along with the distinguished chairman of the House Veterans Affairs Committee, the Honorable G.V. "SONNY" MONTGOMERY and the ranking minority member of that committee, the Honorable JOHN PAUL HAMMERSCHMIDT.

H.R. 2205 passed the House of Representatives as amended on November 6, 1985, in a historic yea-nay vote of 406 to 0—rollcall vote No. 392. This bill was referred to the other body and was reported out of committee as amended on September 19, 1986.

The display of bipartisan leadership and cosponsors in both bodies of Congress is indicative of the importance and the enthusiastic support for this bill.

The Korean conflict lasted officially from 1950 to 1953. During these 3 years, American soldiers experienced casualties that were catastrophic in proportion to previous conflicts. The United States alone lost 54,246 lives during that period—103,284 were

wounded and 4,675 were captured. The U.S. Defense Department concluded that more than 6,000 American troops and 5,500 other soldiers had perished after falling into the hands of the enemy. Approximately half of those 11,500 soldiers were victims of atrocities perpetrated by the North Koreans and the other half died in prisons. The Army shows that 1,036 American soldiers had been murdered after their capture.

This international police action as it was commonly called, was a war in every sense of the word. This war became the testing ground for the militarization of American diplomacy. War strategy was transferred from the hands of the military to the formulators of foreign policy. Rules applied to traditional warfare were disregarded in most instances.

The Korean conflict marked a major turning point in post-1945 American military policy. It provided the political context for rearmament and the development of NATO. It would also draw the United States into a policy that would have long-range consequences in the future of active military participation in Asia.

This Memorial will serve as a timely reminder of the important sacrifices made by these veterans some 32 years ago. Their service to their country was no less important than those who fought in World War I, World War II, or the conflict in Vietnam that was to follow. It is, therefore, appropriate to have a Korean War Memorial to honor those forgotten soldiers who fought in the forgotten war.

Mr. Speaker, I reserve the balance of my time.

□ 1315

Mr. FRENZEL. Mr. Speaker, I yield 5 minutes to the distinguished gentleman from New York [Mr. SOLOMON] also a veteran of the Korean war.

Mr. SOLOMON. I thank the gentleman for yielding me this time.

Mr. Speaker, I would like to congratulate the gentlewoman from Ohio [Ms. OAKAR].

Mr. Speaker, I rise in strong support of this legislation.

Some like to sanitize it by calling it a police action. But to the men who knew best, those who fought and died, it was war, plain, and simple. An undeclared hell in a small place faraway.

The Korean war—and let's not whitewash it by calling it anything else—began on June 26, 1950, when North Korean forces burst across the 38th parallel. American ground forces fighting with the U.N. Command were pushed as far south as Pusan, but rallied after Gen. Douglas MacArthur staged a daring amphibous landing at Inchon. Our troops broke the North Korean offensive, freeing Seoul and pushing the enemy north to toward the Yalu River.

Then the Red Chinese entered the fray, and Korea became a whole new war. It didn't end so much as it ground to a halt. The armistice fixed the border between North and South at about the same point it was when the war began 37 months earlier. Some Americans wanted to forget this limited, undeclared war, a stepchild war fought in the shadows of World War II.

Yet we must never allow the record of bravery purchased in blood by that war's veterans to be overshadowed. Nearly 55,000 Americans gave their lives in Korea. Today, after 35 years, there are 389 American troops still missing and unaccounted for, that were thought to be alive at the end of that war.

Are these to be our forgotten warriors? Knowing America, I say no. Americans found the moral courage to face up to their duty to honor the veterans of Vietnam, and I am certain they are ready to do the same for those who fought in Korea, the war that stopped the spread of deadly communism dead in its tracks!

General MacArthur was right in calling Korea a whole new war. The Red Chinese attacked at night, overrunning our troops with waves of assaults, showing no quarter. The rules of Western civilization seemed not to apply.

The withdrawal of American marines from the Chosin Reservoir, for instance, was marked by some of the bloodiest fighting ever seen. The marines had to battle through every foot, pounding again and again against the Red Chinese.

When it was all over, however, the history books recorded that the bleak Chosin landscape was the scene of some of the most courageous acts in U.S. military history. Some things do not change.

Our Memorial is meant to serve as an everlasting reminder of this steadfast valor and as a vigil to the ever-present danger of the spread of atheistic communism that threatens the free world in which we live. I urge support of this legislation.

Ms. OAKAR. Mr. Speaker, I yield 5 minutes to one of the major sponsors of this legislation, the gentleman from New Jersey [Mr. FLORIO].

Mr. FLORIO. Mr. Speaker, I appreciate the time being yielded on this very important piece of legislation.

Mr. Speaker, in April 1985, on behalf of the distinguished chairman of the House Veterans' Affairs Committee and the ranking minority member of the Veterans' Affairs Committee, Mr. HAMMERSCHMIDT, I introduced H.R. 2205, the Korean War Memorial Act.

Last November, the Korean War Memorial passed the House 405 to 0. At that time I held up a computer printout of the names of those 54,000 Americans who died in Korea during the war. In those brief 36 months of war our Nation lost over 54,000 American military personnel. Contrast this figure to the 11-year Vietnam conflict which resulted in the deaths of over 58,000 Americans. The severe brutality and fierceness of the fighting in Korea is a matter of record. The numbers speak for themselves.

The time for a Korean War Memorial is long overdue. The war has been over for more than 30 years. The memory of that war is slowly eroding in the minds of many Americans who have forgotten, or were not alive, when the United States was forced, in a far-off corner of the world, to preserve freedom. And, Mr. Speaker, this response came after the supreme effort of World War II, coming only 5 years after that sacrifice seemingly guaranteed world peace for much longer than those brief 5 years.

Mr. Speaker, the bill before us is a good one. It is stronger than the bill which we sent to the Senate last November. Senators ARMSTRONG, GLENN, and DENTON have done well with it and I commend them for their work.

Let me briefly review what the bill now includes.

Provides $1 million for initial site preparation and design selection.

Construction of the Memorial by the American Battle Monument Commission—staffed by active U.S. Army personnel, and eligible to receive tax-deductible contributions from individuals, companies and foundations to defray the cost of construction.

The establishment of a Korean War Memorial Advisory Board to be composed of 12 Korean war veterans who will promote and encourage private donations to the American Battle Monument Commission.

Any surplus funds which are received from donors over and above what is used for construction of the memorial will be turned over to the Treasury to reimburse the Government for the $1 million expended. Thus there does exist the possibility that the Government might receive back every cent it expends.

Mr. Speaker, this is a good bill and one which deserves passage. There are many millions of Korean veterans who are watching what we do today and hoping that this long-ignored wrong will be made a right. Today, we have the chance to do that for these people. Let's not fail them, now that we've brought it this far. Today is the day that we will end the era of the forgotten veteran of Korea. Today, we will remember them.

Mr. FRENZEL. Mr. Speaker, I yield myself 3 minutes.

Mr. Speaker, this bill passed the House of Representatives unanimously in a different form. All of us were strong in its support at that time.

At the time, there was no Federal money involved in the bill. When the bill went over to the Senate, it was amended to provide for a $1 million authorization of the taxpayers' money to help launch the memorial. Half a million dollars was for planning and site preparation and half a million dollars for construction.

At that point, Mr. Speaker, I, as a veteran of the Korean war, am obliged to oppose the bill.

I have served on this House Committee on House Administration for 16 years. I cannot remember ever authorizing a memorial in which the Federal Government put up the money.

When the Vietnam veterans arranged for their own memorial, they got the money to build it. When other groups, the black patriots, the women heroes and others have come to the Congress, they have said, "We will put up the money to build our own memorial."

It comes as a great embarrassment to me that the other body believes that there is one privileged group of American veterans who must have the Federal Government help to get their memorial going.

Yes, Mr. Speaker, there is in the bill a provision that if private funds are raise, the Government can be compensated for the money that it has put forward. But in my judgment this is a very dangerous kind of precedent that will cause every group that comes to us now for a memorial to demand that the Federal Government put up the front money and therefore make it easier for it to raise its own money to repay back.

I would remind all Members that there is no provision that is forcing on any group or the group which builds this Memorial to repay money to the Federal Government.

So, it is with great pride I hail the fact that there will finally be a long overdue memorial erected to Americans who justly earned that honor in the Korean war. At the same time I am filled with terrible sadness and embarrassment to note that it will be planned and built with the taxpayers' money, in stark contrast to all other memorials.

Mr. Speaker, I reserve the balance of my time.

The SPEAKER pro tempore (Mr. RANGEL). The gentlewoman from Ohio has 15 minutes remaining.

Ms. OAKAR. Mr. Speaker, I yield 6 minutes to the distinguished chairman of the Committee on Veterans' Affairs, the gentleman from Mississippi [Mr. MONTGOMERY].

Mr. MONTGOMERY. Mr. Speaker, I want to thank the leadership first for giving us the opportunity to bring this bill to the floor today. The bill has been introduced well over a year, but problems did develop and that is why the bill is being brought up today. It is very important, as has been said earlier, that we do have a national memorial for the Korean veterans. I am very, very proud to be a sponsor, as my colleagues have spoken of here today, of this H.R. 2205.

I want to commend the gentleman, the main sponsor of this bill, the gentleman from New Jersey [Mr. FLORIO] for the work he has done. There have been many people involved.

I am proud that I am a Member of Congress who served in the Korean conflict. We probably have more Members of Congress now who participated in the Korean conflict than did in World War II.

So it is an important matter.

I am really especially grateful to the gentlewoman from Ohio for the work she has done. She chairs the subcommittee which handled this legislation and has really given strong support.

As has been said, for a year now we have been having problems on this memorial, something that should have been done years ago.

MARY ROSE OAKAR was right there working all the time. She never wavered for a moment.

I thank her for standing up for the Korean veteran. The chairman of the House Committee on House Administration, Mr. ANNUNZIO, is very helpful in letting us bring this bill to the floor. As has been mentioned before, JOHN PAUL HAMMERSCHMIDT, as well as Congressman PARRIS, Congressman SOLOMON on this side of the aisle, have all been totally supportive of this legislation.

Now let me touch on a subject that my good friend from Minnesota mentioned about the cost of this bill. What we tried to do, Mr. Speaker, in bringing up this legislation that we will vote on today is to not make the mistakes that were made in raising the private funds to build the Vietnam Memorial. We tried to find out where those mistakes were made and not let it happen in bringing this Memorial forward to the people of this country.

We found out that $10 million was raised for the Vietnam Memorial by private funds handled in the private manner and only $6 million really got into the Memorial. The rest, the $4 million went into raising the funds to do this Memorial. That is too much.

We did not want that to happen to the Korean Memorial. So the Federal Government, yes, does put up $1 million, but it will be paid back and not one penny can be spent until private funds have come into the Government, to the Treasury to cover that $1 million.

Also I think the Government will end up getting a large amount of money over the $1 million from private sources. We know of one group that already basically has said they will give $1 million. So we are on the right track. The American Battle Monuments Commission, a comission of the Federal Government, will watch and control what kind of memorial, what kind of monument we get. So there is plenty of protection to see that the money is spent wisely. We thought it was not a smart idea to take and spend $4 million or $5 million, to raise $2 million or $3 million. So we just tried to do, to find out the mistakes made in the Vietnam Memorial and correct them in this bill. We certainly hope Members will give their support. The Korean veteran needs to be honored.

Ms. OAKAR. Mr. Speaker, will the gentleman yield?

Mr. MONTGOMERY. I yield to the chairman of the subcommittee, the gentlewoman from Ohio [Ms. OAKAR].

Ms. OAKAR. I thank the gentleman for yielding.

Mr. Speaker, I want to thank the gentleman for his explanation because it is, I think, a legitimate concern on the part of the minority leader that there are funds in the other body's version which were not in the House version. But when we did have our hearing, we did notice there were some problems with some few groups who were collecting money that may not be as reliable.

The gentleman was concerned and there will be established a Korean War Veterans Memorial Advisory Board consisting of 12 veterans who served in the Korean war, and members of this board will be appointed by the President within 100 calendar days of enactment of this act.

□ 1330

And they will recommend the site and the design, and they will also oversee the moneys that do come in. And when the private funds collected are in excess of the cost of construction and maintenance of the Memorial, they will then be given back to the Treasury as the funds are appropriated today.

It is a kind of convoluted way to do this, but it is because this Memorial has attracted a lot of attention, and you are attempting to learn from the problems that were had. As a result, this is the version we are bringing up today.

But I do want to say on behalf of my friend from Minnesota, the fact that the gentleman is floor managing the bill along with myself is a very, very important step, and I really respect that kind of cooperation very, very much.

Mr. FRENZEL. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Virginia [Mr. PARRIS].

Mr. PARRIS. Mr. Speaker, I thank the gentleman from Minnesota for yielding this time to me.

Mr. Speaker, much has been said already with regard to the merits of this

measure, and I want to extend to the gentlewoman from Ohio [Ms. OAKAR] and my friend, the gentleman from New Jersey [Mr. FLORIO] and others my appreciation for all of their hard work on this legislation.

For those of us who had the opportunity to serve in the Korean war, and for the balance of the Nation as well this is an important measure.

Mr. Speaker, I submit that as much respect as I have for my friend, the gentleman from Minnesota [Mr. FRENZEL], who opposes this measure because it provides $1 million from the Federal Government for the planning, design, and construction of this facility, I take exception to that position in spite of my high regard for the gentleman, because the gentleman makes the point that the Federal Government cannot, and perhaps should not, finance all of the memorials that all of us, the mind of man runneth to the contrary not, can think of that ought to be constructed in the District of Columbia. I agree with that point of view. But the exception that I make to that point of view, Mr. Speaker, is that I as one Member of the Congress will be willing to vote for any reasonable sum of money to commemorate the sacrifices made by American military personnel in every single war in which this Nation is engaged for the protection of freedom in this country and around the world.

When you stop to think that this appropriation is only 18 cents for every person who served in the Korean war, $180 for every American young man who gave his life in the defense of freedom in that contest, I do not think that is an exorbitant expenditure of Federal taxpayers' moneys for this purpose.

The thing that I regret most of all, Mr. Speaker, is that in some bizarre way, history has jumped over those of us who served in the Korean war. We have the Iwo Jima Memorial and other monuments for World War II, Vietnam and other conflicts, but we have no recognition of the sacrifices of the 5.7 million Americans who served in that conflict. I think it is a terrible oversight. We can correct it with this bill, which I hope my colleagues will agree is a fundamental matter of justice. And the million dollars that we are considering out of a trillion dollar budget is of no real consequence when compared with the magnitude of the sacrifices that have been made by so many.

So I would hope that my colleagues would support the adoption of this proposal and get on with the approval of the creation of this monument, which I know will be a tribute to this city and to those young Americans who sacrificed so much.

Mr. FRENZEL. Mr. Speaker, I yield myself 1 minute.

Mr. Speaker, I would merely remind my friend, the gentleman from Virginia, of Benjamin Franklin's comment: "If you watch out for the millions, the trillions will take care of themselves."

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Ms. OAKAR. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this is a very important memorial. It is long overdue. I think many of us have had members of our family who served in this conflict. I myself, have a brother who served and a brother-in-law who served.

The Senator from Ohio, Senator GLENN, was one of our most forceful witnesses.

I hope we pass this bill.

One of the things that I would like to say that has been somewhat unfortunate is the very same day that we passed this bill unanimously, we also passed two other memorial bills unanimously on this floor as well. These were also long overdue. One was House Joint Resolution 36, the Women's Veterans Memorial, which would honor women who served historically since the Revolutionary War time; and House Joint Resolution 142, the Black Revolutionary War Patriots, to honor the minority people who had served, black revolutionary patriots. The Speaker pro tempore himself [Mr. RANGEL] has served as a major sponsor of the bill, along with NANCY JOHNSON. These bills are awaiting floor consideration in the other body.

I think it would be most inappropriate if the other body holds up the bills relating to women and minorities. As enthusiastic as I am for the Korean war vets bill, and I really am a strong advocate and compliment all the people who have done such a great job in bringing this bill to fruition, I must say that I am anxiously awaiting the other body to take further action. The bills were passed out of committee. It does not appear that anybody is in disagreement, but the other body should pass these two memorial bills. I urge immediate consideration of these bills.

Mr. FRENZEL. Mr. Speaker, will the gentlewoman yield?

Ms. OAKAR. I yield to the gentleman from Minnesota.

Mr. FRENZEL. Mr. Speaker, I must agree with the gentlewoman. The committee's three highest priorities were the black patriots, the women patriots, and the Korean War Memorial. For reasons that we cannot fathom, the two of these three very high priority bills could not move in the other body.

The gentlewoman has agreed to move the Korean Memorial mostly as a sign of good faith that those other bills will be coming along soon. I join the gentlewoman in suggesting that it is very important that those two bills be passed in this session, because almost everybody in both bodies wants to see all these passed this year.

I join the gentlewoman in reiterating, and restressing, the importance and the priority of those two bills.

Ms. OAKAR. Mr. Speaker, I urge passage of this very important bill.

Mr. GALLO. Mr. Speaker, I strongly support this measure, H.R. 2205, establishing a memorial in our Nation's Capital for those brave individuals who served their country and the cause of free nations everywhere during the Korean conflict.

This significant effort to honor those fine Americans and to give them a permanent place in history is long overdue.

The Korean conflict will stand in our history and in the history of the United Nations as an effort to stop the spread of aggression at a time when uncertainty and fear for the future of free nations were at their height.

Less than a decade before, we had fought to stop the spread of aggression on a world scale on virtually every continent, and we were, for the most part, successful.

Then, as we slipped into a cold war, we found ourselves losing the peace we fought so hard for in a series of small conflicts and continued aggression.

The Korean conflict was a watershed event. The relative stability between world powers and smaller nations during the past 30 years can be traced to our commitment in Korea.

Without question, there have been acts of aggression in many parts of the world since the end of the Korean conflict. Without question, we have been involved in a number of efforts to fight aggression since that time. The threat of war was not erased in Korea.

But, those who served in Korea can take pride in the fact that their service effectively stopped the type of wholesale aggression that was becoming a fact of life during the postwar period.

Their service changed the course of history in ways that may not be fully understood for years to come. We cannot and should not wait for the full measure of history to be taken. We must honor these brave men and women now for their service and their sacrifice to the cause of peace and freedom.

Specifically, this bill authorizes the American Battle Monuments Commission to establish a memorial on Federal land in the District of Columbia or its environs to honor members of the U.S. Armed Forces who served in the Korean conflict.

The bill also gives the responsibility for site selection, design, and plans for the construction of such memorial to the National Commission of Fine Arts and the National Capital Planning Commission.

This is truly a grassroots effort on the part of all Americans who are committed to honoring these brave men and women. I think it is a worthy cause that deserves our support and our continuing efforts to commemorate this record of service and to honor in this way those who have gone unrecognized for 30 years. I strongly support this bill.

Mr. HAMMERSCHMIDT. Mr. Speaker, I rise in strong support of H.R. 2205, a bill to establish a memorial to veterans of the Korean war.

Mr. Speaker, as the original sponsor of legislation to create such a memorial, I am extremely pleased that the Congress is finally about to pass this bill. Our action, while long overdue, nevertheless will not send a message of national tribute to some 8 million Americans who served this Nation well and honorably during the time of the Korean war. Actually, 1.6 million served there; 40,000 were killed, and 103,000 were wounded. Many of these veterns have since died but several million still live. We honor each of them—the living and the dead—by our action here today.

Our Nation stands tallest when it honors its defenders. Our Warriors despise wars; but they despise tyranny more. They march off to serve a national will and purpose. They endure hardship and suffer deprivation. Purely and simply, they willingly answer their Nation's call and do their duty.

Mr. Speaker, H.R. 2205 says thank you to our citizen soldiers who nobly served our Nation during the Korean war. It tells them that our memories of their service will always be bright and loving memories. We do ourselves proud this day as we begin to establish a perpetual memorial in their name.

Mr. Speaker, I congratulate our colleague, Mrs. OAKAR, and her associates for their superb efforts on the bill before us. This has been a labor of love in a cause that is dear to all of us.

Thank you, Mr. Speaker.

Ms. OAKAR. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Ohio [Ms. OAKAR] that the House suspend the rules and concur in the Senate amendments to the bill, H.R. 2205.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate amendments were concurred in.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Ms. OAKAR. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the legislation just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Ohio?

There was no objection.

SMALL BUSINESS ADMINISTRATION PILOT PROGRAMS EXTENSION

Mr. MITCHELL. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 2914) to extend through fiscal year 1988 SBA pilot programs under section 8 of the Small Business Act.

The Clerk read as follows:

S. 2914

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. (a) Subparagraph (3) of section 8(a)(1) of the Small Business Act is amended by striking out "(other than the Department of Defense or any component thereof)".

(b) The designation of an agency pursuant to the amendment made by subsection (a) shall be made not later than sixty days after the date of enactment of this Act.

SEC. 2. The last sentence of section 8(a)(1) of the Small Business Act is amended to read as follows: "No contract may be entered into under subparagraph (B) after September 30, 1988.".

SEC. 3. The last sentence of section 8(a)(2) is amended to read as follows: "The authority to waive bonds provided in this paragraph (2) may not be exercised after September 30, 1988.".

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Maryland [Mr. MITCHELL] will be recognized for 20 minutes, and the gentleman from North Carolina [Mr. COBEY] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Maryland [Mr. MITCHELL].

Mr. MITCHELL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of S. 2914.

This bill is identical to H.R. 2787 as passed by the House under Suspension of the Rules on December 16, 1985. The Senate amended the bill by adding an authorization for the appropriation of $10 million for the establishment of a new Technology Transfer Institute in Bridgeport, CT. Subsequently the House agreed to tne Senate amendment on September 19, 1986, but the President vetoed the bill on October 7, 1986. The new Senate bill, which is identical to H.R. 5677 which I introduced for myself and Mr. MCDADE on October 8, does not include the Bridgeport authorization.

The purpose of this bill is to extend through September 30, 1988 two pilot programs administered by the Small Business Administration [SBA]. These pilots are intended to promote the competitive viability of firms owned and controlled by disadvantaged individuals who are participating in SBA's capital ownership and development program.

Under the Procurement Pilot Program the President is to designate an agency that will participate with the SBA in an effort to secure a steady stream of contracts for small businesses owned by the socially and economically disadvantaged.

The Surety Bond Pilot Program is intended to help startup firms owned and controlled by disadvantaged individuals to obtain a "track record" needed to secure bonds in the private sector.

Both pilot programs have been extended twice before by the Congress. The extension proposed by S. 2914 is needed to obtain more empirical evidence necessary to evaluate properly these approaches to running the Capital Ownership and Development Program.

This measure enjoys the strong bipartisan support of our committee which ordered the bill favorably reported by a vote of 38 to 1. I also want to thank all of the committee members who supported and worked to secure the passage of this legislation, particularly my ranking minority member, JOE MCDADE, who cosponsored an identical measure, H.R. 5677, which I introduced October 8.

Mr. Speaker, I reserve the balance of my time.

Mr. COBEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to commend our very distinguished chairman from Maryland for bringing this legislation to the floor and I rise in strong support.

As the gentleman from Maryland has stated this legislation would extend through fiscal year 1988 two Small Business Administration [SBA] pilot programs designed to aid in the development of business concerns owned by socially or economically disadvantaged persons. Both programs expired on September 30, 1985. This legislation is identical to title I of H.R. 2787 which was passed unanimously by both bodies. President Reagan vetoed this bill on October 7, 1986.

The President focused his veto message on title II of H.R. 2787, which authorized funding for a technology institute at the University of Bridgeport. The legislation we are considering today contains only the reauthorization of the SBA pilot programs and does not contain funding for the University of Bridgeport.

The bill extends the Pilot Procurement Program established by the SBA to set aside Government contracts for minority-owned businesses. This allows SBA to select contracts for inclusion in the 8(a) program beyond those volunteered by the procuring agency and to obtain more sophisticated contracts.

The Department of Transportation was designated the pilot agency under the most recent program.

The second pilot program extended by this legislation is the Surety Bond Waiver Pilot Program. Under this program, SBA is allowed to waive, in certain specific circumstances, Federal bonding requirements for 8(a) contractors who are startups and in the program for 1 year or less.

This legislation has been supported by the Latin American Manufacturers

Association, the National Association of Minority Contractors, the National Federation of 8(a) companies, and the Black Presidents' Roundtable.

Mr. Speaker, I urge passage of this legislation to continue our support for this country's minority entrepreneurs.

Mr. Speaker, I have no requests for time, and I yield back the balance of my time.

Mr. MITCHELL. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Maryland [Mr. MITCHELL] that the House suspend the rules and pass the Senate bill, S. 2914.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. MITCHELL. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on S. 2914, the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

EXPORT ADMINISTRATION ACT OF 1979 AUTHORIZATION

Mr. MICA. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 2245) to authorize appropriations to carry out the Export Administration Act of 1979 and export promotion activities, as amended.

The Clerk read as follows:

S. 2245

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. EXPORT ADMINISTRATION ACT.

(a) IN GENERAL.—Section 18(b) of the Export Administration Act of 1979 (50 U.S.C. App. 2417(b)) is amended to read as follows:

"(b) AUTHORIZATION.—There are authorized to be appropriated to the Department of Commerce to carry out the purposes of this Act—

"(1) $35,935,000 for each of the fiscal years 1987 and 1988, of which $12,746,000 shall be available for each such year only for enforcement, $2,000,000 shall be available for each such year only for foreign availability assessments under subsections (f) and (h)(6) of section 5, and $21,189,000 shall be available for each such year only for foreign availability assessments under subsections (f) and (h)(6) of section 5, and $21,189,000 shall be available for each such year for all other activities under this Act; and

"(2) such additional amounts for each of the fiscal years 1987 and 1988 as may be necessary for increases in salary, pay, retirement, other employee benefits authorized by law, and other nondiscretionary costs.".

(b) ENFORCEMENT ACTIVITIES OF THE CUSTOMS SERVICE.—Section 12(a)(6) of the Export Administration Act of 1979 (50 U.S.C. App. 2411(a)(6)) is amended by striking "$12,000,000 in the fiscal year 1985 and not more than $14,000,000 in the fiscal year 1986" and inserting "$14,000,000 in the fiscal year 1987 and not more than $14,000,000 in the fiscal year 1988".

SEC. 2. EXPORT PROMOTION

Section 202 of the Export Administration Amendments Act of 1985 (15 U.S.C. 4052) is amended by striking "$113,273,000 for each of the fiscal years 1985 and 1986" and inserting "$123,922,000 for each of the fiscal years 1987 and 1988".

The SPEAKER pro tempore. Is a second demanded?

Mr. ROTH. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Florida [Mr. MICA] will be recognized for 20 minutes, and the gentleman from Wisconsin [Mr. ROTH] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Florida [Mr. MICA].

Mr. MICA. Mr. Speaker, I yield myself such time as I may consume.

(Mr. MICA asked and was given permission to revise and extend his remarks, and include extraneous matter.)

Mr. MICA. Mr. Speaker, today the House considers S. 2245, a bill to authorize funds to the Department of Commerce to carry out export administration and export promotion activities for 1987 and 1988. The amendment which the House takes up today is identical to provisions that already passed the House on May 22 as part of H.R. 4800, the omnibus trade bill.

The House amendment to S. 2245 authorizes appropriations for fiscal years 1987 and 1988 of $35.9 million for the export administration and export enforcement activities, and $123.922 million for export promotion activities of the Department of Commerce. The House amendment also authorizes appropriations of $14 million in fiscal years 1987 and 1988 for the export enforcement activities of the U.S. Customs Service. All of these authorized amounts are at the levels requested by the administration.

Mr. Speaker, the House amendment to S. 2245 is identical to provisions contained in H.R. 4800, the omnibus trade bill, which passed the House on May 22, with the exception that the previously passed authorization was $5 million greater than the administration's request. While the committee still believes that additional funds are warranted to carry out the critical tasks of export enforcement and export licensing, it is improbable that the higher figure will be appropriated.

I would note that as we take up this authorization bill, our colleagues on the Appropriations Committee are putting the finishing touches on the continuing resolution, which contains the funding for these export administration and export promotion programs. I urge our colleagues to consider the critical importance of these commerce functions and to appropriate funds at the administration's requested level.

The Senate passed S. 2245 on July 22, authorizing the same overall amounts of $35.9 million for export administration, and $123.922 million for export promotion programs. The House amendment to S. 2245 differs however, from the Senate-passed authorization in two aspects. First, the Senate bill did not contain an authorization for the export enforcement activities of the Customs Service. Section 12(a)(6) of the Export Administration Act of 1979, as amended, authorized $14 million for Customs Service export enforcement activities for fiscal year 1985 and 1986. Consistent with the administration's request, the House amendment authorizes $14 million for each of the fiscal years 1987 and 1988 to the Customs Service.

The second difference concerns the earmark contained in existing law for foreign availability assessments under subsections (f) and (h)(6) of section 5 of the Export Administration Act. The House amendment continues the existing earmark of $2 million for foreign availability assessments. Just last week, the Subcommittee on Internal Economic Policy and Trade of the Committee on Foreign Affairs held an oversight hearing to review implementation of the foreign availability provisions of the act. The committee was extremely disappointed to find only one decontrol proposal to date based on foreign availability. I am inserting in the RECORD for the attention of my colleagues an article contained in the recent issue of INC. magazine detailing the problems of Silicon Technology Corp., a New Jersey company involved in this first foreign availability determination on automatic wafering saws. Although the foreign availability program has not yielded as quickly or as extensively the results Congress intended, the first decontrol proposal on automatic wafering saws is nearing completion, and a viable process for decontrolling items on the basis of foreign availability is underway. Continuation of the earmark is necessary to ensure that adequate funds are devoted to this important aspect of our export control policy.

Mr. Speaker, I include the following article for purposes of clarification.

KACHAJIAN'S REBELLION

THE STORY OF HOW ONE SMALL MANUFACTURER SPENT SIX YEARS FIGHTING TO SAVE HIS BUSINESS FROM THE DEADENING HAND OF GOVERNMENT EXPORT CONTROLS—AND WON—SORT OF

(By Lucien Rhodes)

Welcome to George Kachajian's Theater of the Absurd.

You will know you have arrived when you see the marquee, there above the front door of his corporate headquarters at the end of Spruce Street in Oakland, N.J. No, it wasn't planned that way, but it does capture the spirit and essence of the whole long, involved, and contentious drama that's been six years in the making and not finished yet.

Once, those large blue letters announced the company he started 16 years ago as Silicon Technology Corp. (STC). But some months ago, this sign broke in the middle, as if unable to stand the weight of the company's aching frustration any longer: The letters spelling "TECH" fell and shattered on the parking lot below. Now each morning when Kachajian sees this symbol of his plight, he cannot help but mentally review the script as he's lived it thus far. In a rising spiral of incredulity, he will recall how an abrupt shift in American foreign policy suddenly denied him access to foreign markets, and how a foreign competitor used the opportunity both to fill the vacuum overseas and to raid his market in the United States. And he will remember with bitterness the layoffs of workers in Oakland, and the mounting financial losses, and his long hegira through the federal bureaucracy in search of relief.

So it is that George Kachajian comes to work, his $10-million company still dangerously close to collapse. Looking at the marquee, he asks himself, "Who took the 'tech' from my technology?" to which he answers, amazed at the improbability of his own response: "My own government, that's who."

But please come inside: The featured attraction has a lot more to offer—senators, congressional subcommittees, the Western Alliance; also the Soviet Union and the Warsaw Pact. You will see that the story of George Kachajian's quest for an export license is really only a small vignette played out against a vast backdrop of international trade deficits, East-West competition, and political feuding within the Reagan Administration. Still, it is a vignette that raises disturbing questions: Do the complex controls regulating U.S. exports sacrifice the international competitiveness of American companies, particularly high-tech companies? If our export-control system causes our companies to lose markets, and worse yet, industries, to foreign competitors, then, in the long run are they really protecting our national security? With a trade deficit of $170 billion, can the United States afford to forgo exports that surely run into the billions of dollars that are lost each year to export controls?

The controversy has by no means spent its force, although George Kachajian has now won a victory of sorts against the deadening hand of the Export Administration Act—the first of its kind in history. And as the news of this victory spreads through the high-tech community, he is being praised as the underdog who beat city hall. But Kachajian never wanted to star in his own melodrama. He wanted to be a businessman.

For 18 years, George S. Kachajian had worked for Dow Corning Corp. in various sales and marketing jobs, first selling silicones for oils, greases, and paint resins, and then solicon, the pure crystalline element used exclusively in the manufacture of semiconductors. His contacts within this new, rapidly growing industry were broad, he was well paid, and his prospects were very promising. But in 1969, he decided to quit. That fall, at a company plant in Hemlock, Mich., Kachajian watched an employee at work on an internal diameter wafering saw, which cuts silicon ingot into thin wafers, one of the first steps in creating semiconductors. For a second, the operator looked away from his work and the saw's diamond blade sliced through the back of his hand and cut off his fingers. Horrified and splattered with blood, Kachajian pulled the man away from the machine and applied a tourniquet. Then and there he decided that "there had to be a better way."

With almost $20,000 in personal savings, Kachajian turned to a machine-tool company in Massachuetts and financed the development of a prototype for a new saw that changed the orientation of the cutting blade, added a protective shield, and rearranged the work flow. In the fall of 1970, funded by $220,000 from friends and relatives and the refinancing of his house, he began to manufacture and sell his new machine. And it was not long before Kachajian realized that he would have to comply with U.S. export regulations, the vagaries of which could hardly be factored into any rational business plan or production schedule.

These days, business on the international level is rarely "strictly business," especially when it involves high tech. During World War II, export controls were used to ensure an adequate supply of various goods and commodities needed to sustain the war effort. But contrary to the original expectations, those controls were left in place long after peace had been declared—a weapon of the Cold War. The Export Control Act of 1949 finally made official what had been administrative practice, banning the export to communist countries of not only bona fide military equipment, but also dual-use commodities that might have military as well as commercial value. Beginning in 1969, Congresses and Presidents began relaxing those export restrictions, turning a more congenial and expansive face to trade with the Soviet Union and its allies. But this period of détente came to an abrupt halt with the Soviet invasion of Afghanistan in 1980. Caught up in the ebb and flow of the tensions between the superpowers was a small machine-tool company at the end of Spruce Street in Oakland, N.J.

During the 1970s, STC had prospered, controlling 80% of the domestic market in wafering saws. At the same time, Kachajian, encouraged by the prevailing attitude toward open East-West trade, had turned his attention to the demand coming from foreign markets, particularly from the Eastern Bloc, to which he traveled more than 20 times from 1974 to 1980. Because his saw is an integral part of the semiconductor manufacturing line whose end products are, in turn, essential to sophisticated weapons systems the saws were classified as dual-use commodities requiring a validated export license. In those days, however, the only problems Kachajian encountered in the licensing procedure were delays—after a wait of up to nine months, his applications, were all approved. As a result, he sold 53 wafering saws to the Soviet Union and 4 to Poland, machines that today go for $100,000 apiece.

Then suddenly, in August 1980, the U.S. Department of Commerce, for the first time, denied an export license application from STC. "One minute I was selling," Kachajian recalls, "and the next minute I was screwed. And there you are. You don't want to break the law, so you have to live with it." During the next year and a half, he made one futile call after another to the Commerce Department, only to be told cryptically that his licenses were being denied for national security reasons. Kachajian allowed himself brief interludes of optimism in which he fantasized making up his lost sales with redoubled efforts in the U.S. market. But these, it turned out, were tranquil delusions, only possible because he had not yet heard all the bad news.

By mid-1981, Kachajian discovered that STC was losing not just overseas business, but domestic customers as well. His major competitor, Meyer & Burger A.G., in Switzerland, had suddenly appeared in the United States offering comparable wafering saws for less then STC's cost of production. At first, Kachajian could not understand how the Swiss firm could sustain such suicidal dumping, but he soon learned: lacking any competitive restraint, the Swiss company was selling saws in the Eastern Bloc for prices as much as triple those that had prevailed before the export controls went into effect. "They were using those excess profits to buy market share here and drive me out of business—and I couldn't fight back," Kachajian says. "It was absurd. It was outrageous. My hands were being tied by my own government."

What's more, Kachajian could not see how the country's national-security interests were served by denying him export licenses on a product that the Soviets could get in comparable quality and quantity from the Swiss. Instead, he felt he was the victim of capricious regulations, which in effect, doomed him to extinction. Determined to correct the obvious illogic of his situation, Kachajian screwed up his courage and marched directly into the maw of the nether world of export licensing.

What he found was a forbiding tangle of categories and classifications, of processes and procedures, of laws, regulations, and inscrutable interpretations. At its center was the Commodity Control List (CCL), which presents those commodities, goods, and technologies requiring export licenses for any of five criteria national security, foreign policy, short supply, human rights, and nuclear nonproliferation. In many instances, the CCL is constructed not of products, per se, but of entries calculated according to general technical or performance standards. As a result, no one really knows how many specific products are, in fact, controlled, although estimates range to the hundred thousands. While nobody would argue that critical high technology should be sold to the Soviet Bloc, critics from industry, academia, and Congress have charged that the list is far too broad and that it includes items long since rendered technologically obsolete.

The complexity and ungainly sprawl of the CCL is replicated in the bureaucracy that has grown up around it. Today, an application to export a product that might be covered by the CCL is scrutinized not only by several divisions within the Department of Commerce, but frequently by several intelligence agencies and the Departments of State, Defense, and Energy. Nor is that the end of it. Even after applications for certain items have been reviewed by the appropriate roster of U.S. authorities, licenses still cannot be granted unless they are also ap-

proved by the 15 allies of the Coordinating Committee for Multilateral Export Controls (COCOM), a regulatory body headquartered in Paris. The intent of COCOM is to coordinate export controls with our allies, which is certainly understandable. But exporters complain that it adds yet another layer of uncertainty to the licensing system, causing delays that drive customers to the arms of competitors, either in non-COCOM countries or, even worse, in COCOM countries that interpret its restrictions more liberally than the United States. In fact, some American businesspeople charge that our allies have, on occasion, used the licensing apparatus to give a competitive advantage to their own manufacturers.

Admittedly, it is unclear how any government bureaucracy can effectively administer such a convoluted system. The General Accounting Office, the investigative arm of the Congress, once described the export controls as a "licensing system characterized more as a paper exercise than as an instrument of control." But should you get caught shipping items on the CCL without a valid license, the penalties for violating the export regulations are very real indeed: up to five years in jail, a minimum fine of $50,000, and the loss of all export privileges.

It was this phantasmagoria of licensing that nearly overwhelmed Kachajian's sensibilities. But the more he learned about it, the more he knew he was fighting for a cause that was not only empirically just, but one that was defensible under the law as well. Provisions of the Export Administration Act of 1979 had instructed the Commerce Department to establish a division of foreign availability. If this division were to determine that a product manufactured by a U.S. company was also available to proscribed countries in comparable quality and quantity, it could decontrol that product and the exporter could ship without a license. If there ever were a case of foreign availability, Kachajian, figured, his was it. What he did not figure was that it would take him nearly four more years to get the government to admit it.

Looking back, George Kachajian's plan of attack now seems fairly obvious: compiling the information needed to prove the matter of foreign availability; seeking the testimony of industry colleagues who found themselves in similar straits; enlisting the political support of the New Jersey congressional delegation. But at the time, the process was confusing, unpredictable, and enormously frustrating. When he has the need, Kachajian will arrange on the top of his office conference table, in eight indexed stacks, seemingly every piece of correspondence he has ever sent or received to or from anybody regarding some aspect of his case. If this collection were put under one cover, it's more than 1,000 pages would tell a story roughly comparable, in its own way, to the voyage of Ulysses. In Kachajian's Bureaucrats' Baedeker, there are letters addressed to the chief of the policy division of the munitions control directorate, the deputy assistant secretary of commerce for export administration, the deputy to the deputy assistant secretary for export administration, the licensing officer of the electronic instrumentation branch of the office for export administration, the special assistant to the President for public liaison, the U.S. special trade representative, the special assistant to the President for intergovernmental affairs, the director of the office of International Economic Affairs, the director of the office of Investigations of the U.S. International Trade Commission, and the undersecretary of state for political affairs—to name just a few. Then, of course, there were all those phone calls beyond counting and some 30 trips to Washington, which cost him nearly $20,000 in hotel and travel expenses. And throw in maybe $60,000 in legal fees.

But Kachajian's odyssey was much more than inconvenient and expensive. It was also desperate. While the whole involved process—the dead-end leads, the false promises, the interminable discussions—dragged on and on, Kachajian's company was slowly bleeding to death, the victim of Meyer & Burger's persistent dumping. After a decade of growth in sales and profits, STC began to lose money—nearly a million dollars to date. In 1983, Kachajian was forced to lay off almost half his employees, and even as late as July 1986, he had to sell an acre and a quarter of land the company owned across the street just to bolster cash flow. "For six years," he says, "the upside of my business has been survival and the downside was bankruptcy. I never even thought about growth."

What he was thinking about most often was the Pentagon, which had persistently raised the national-security issue in connection with the export of his wafering saws. Between 1982 and 1984, Kachajian had half a dozen meetings with various Defense Department officials, including Stephen D. Bryen, the deputy undersecretary for trade security policy. At each meeting, Kachajian would lay out his case, a Swiss competitor driving him out of business with the help of Eastern Bloc profits and counterproductive U.S. government restrictions. And at each meeting, Defense officials would tell him that an export license would jeopardize "national security." Kachajian was prepared to meet their argument head-on. He would first point out that his saws were really "glorified salami slicers" whose technology was so well known that they could hardly be considered a threat to national security. And furthermore that the Eastern Bloc could already get as many saws as it wanted from the Swiss. Then he would go on to say that the United States was in danger of losing its semiconductor manufacturing capability to foreign companies—where there were once five companies manufacturing saws in the States, now only two remained. That, he concluded, was the real threat to national security.

The Pentagon was not impressed, however, and Kachajian finally gave up in disgust. Says Wesley E. Charles, STC's president, who attended one such meeting: "They don't care about anything else, just don't give the Soviet Union anything. They wouldn't sell them a handful of sand. And if they could control that, they would."

Fortunately, as one door closed, another one opened. In the fall of 1984, Kachajian got a call from an investigator in the division of foreign availability, which only then had finally been staffed and funded as Congress had ordered back in 1979. Kachajian, hearing for the first time that a study was ecstatic. "Man, that was exciting," he says. "I had someone who was interested. I mean the guy asked questions for two hours." During the six months that it took the investigator to complete the study, Kachajian peppered the Commerce Department with information and stumped around Washington. "Because of George's involvement," says Toli Welihozkiy of the Office of Foreign Availability (OFA), "everybody became aware that this was an agenda item that needed to be moved quickly." But "quickly" has a special meaning in Washington. It was the spring of 1985, more than five years after the rejection of his first license, that the OFA determined that there was, in fact, foreign availability of wafering saws and that the item should be decontrolled.

With the OFA determination, Kachajian had established a beachhead within the bureaucracy, but the battle had only just begun. Under the procedures of the Export Administration Act of 1985. OFA sent a draft of its report detailing its findings to the Department of Defense for review and comment, and, not surprisingly, Defense disagreed strongly with the specific findings, with their interpretation, and particularly with the impulse to decontrol the saws. The reaction touched off a fierce interagency squabble within an Administration equally committed to fighting back the Russians and fighting back government restrictions on business.

"Our view," explained deputy undersecretary Bryen, "is that we have very good intelligence, incontrovertible intelligence, that the items . . . will be put to use by the Soviets directly in military. You know, in the '70s we had this great experiment: we were going to trade with the Russians and try to improve relations. But the basic bottom line is that the bulk of this stuff went right to the Soviet military, and it was used by them to modernize their military forces."

Replied Paul Freedenberg, assistant secretary of Commerce for trade administration: "The Commerce Department sees to it that you have to make a balance in these types of cases. You have to decide to balance off immediate national security against the long-term loss of the defense-industrial base, which, in itself, has a national security implication. If you lose, for example, your semiconductor manufacturing capability, ultimately you're undermined, because you no longer have that defense base to build semiconductors. Now we're just talking in this case about one specific company, but it's a microcosm of a danger—not something that's immediate, but certainly something that, long range, could be very deleterious."

Confronted with implacable opposition from Defense once again, Kachajian's spirits wilted, but only for a moment. In September 1985, his forces were joined by fresh troops. Stanley T. Myers, president and chief executive officer of California-based Siltec Corp. and a member of the Semiconductor Technical Advisory Committee (TAC), one of nine such committees advising the Commerce Department in various high-tech areas wrote a letter about STC's predicament to his fellow members. Myers, whose company uses wafering saws, knew firsthand about Meyer & Burger's tactics. And in his letter, he carefully outlined STC's plight and urged the committee to action on STC's and all U.S. manufacturers' behalf, ending with: "Unless we act quickly and decisively, we will face the ironic circumstance of having controlled an American technology into extinction."

The Advisory Committee did act quickly, using its powers under the Export Administration Act to force a decision on Kachajian's case, supposedly within 90 days. Kachajian responded by redoubling his lobbying efforts, enlisting New Jersey's two senators, Bill Bradley and Frank R. Lautenberg, and Representative Marge Roukema to put pressure on Commerce Secretary Malcolm Baldrige and his aides. "I was in the wilderness for four years," Kachajian recalls, "and now I had big names."

Commerce was leaning toward a favorable decision, both because of the merits of Kachajian's case and because a positive decision was important to the credibility of the Office of Foreign Availability. Up to that point, the OFA had not produced one single case leading to the decontrol of any item or technology listed on the CCL. The business community was becoming openly critical. So was Congress, which had ordered the establishment of the office six years earlier. But there was still the problem of the Pentagon's unrelenting opposition. Finally, the standoff between an immovable object and an irresistible force had reached an impasse, and the case of George Kachajian and his little company at the end of Spruce Street in Oakland, N.J., was taken all the way to the White House.

On May 15 at 10:30 a.m., Kachajian was attending a meeting of the Semiconductor Technical Advisory Committee in the huge Commerce building on Pennsylvania Avenue. As Kachajian remembers it, the 20 members of TAC were in their places around a large conference table while assorted guests and observers chatted from their seats around the edges of the room. Suddenly, assistant secretary Freedenberg came in and everyone fell silent as he announced that, earlier that morning, he had recommended to the National Security Council at the White House that wafering saws be decontrolled for reasons of foreign availability. "Everybody turned to look at me," Kachajian says. "Then they got up and started to congratulate me. I just sat there like the cat who swallowed a canary, but I was afraid to smile. I still couldn't believe it. . . . This happened after six years of busting my chops. When I left that place, I thought I was walking on air."

For the next month, Kachajian kept up his pressure with telephone, calls, visits, and a letter campaign that involved all 45 employees of his company. Then, in later June, he got a call from a staff person in Representative Roukema's office. The congresswoman had just received a letter, the caller said, from John M. Poindexter, the assistant to the President for national-security affairs, which stated that the council had agreed with the Commerce Department's position that the internal diameter saws should be immediately decontrolled.

Kachajian's first reaction was to shout for joy, but he knew better. Long experience with the government had taught him that seldom were problems that easily dispatched. And he was right. The saws, the letter continued, would, in fact, be decontrolled immediately for sale only to noncommunist countries such as Sweden and South Korea. The letter went on to say that, "Subsequently, we will begin working with our allies to arrive at a mutually agreed upon and orderly removal of COCOM controls on these saws to controlled countries."

In short, Kachajian, who views the reopening of Eastern Bloc markets as the key to the survival of his company, still could not sell his saws to the one market he wanted in the first place. And, at this moment, that is still where he is: one hand clutching the collar of his company to keep it from going under, the other with all its fingers crossed while he waits for COCOM to consider the issue sometime this year.

Yet as painful as it is for him, Kachajian's current limbo is entirely expressive of the lack of consensus that the current Administration brings to the issue of export controls. And it is particularly expressive of a regulatory environment in which the word "resolution" seems oddly to imply a more or less permanent state of contentiousness.

At the Commerce Department, for example, James K. Pont, the director of the OFA, speaks for many of his colleagues when he says that the Kachajian case establishes an important precedent. Claiming that the OFA has finally "found a path through the bureaucratic jungle," he predicts that over the next three to six months there may be several most positive findings.

But at the Defense Department, the feeling is that if there is any kind of precedent involved, it is only of the worst possible kind. Pointing out that the Kachajian case involves "the most sensitive technology that the Bloc can acquire," deputy undersecretary Bryen sees the handling of the issue as an example of "poor leadership" that ignored "the national interest." In his opinion, Commerce should have negotiated aggressively with the Swiss to get them to stop sales in the Eastern Bloc rather than decontrolling U.S. shipments. "There are plenty of things the Swiss want from us," he argues, "and it's outrageous that what we have is the Commerce Department laying back and saying, 'Well, we informally asked them and they said no.' I mean, that's nonsense. They [the Swiss] don't informally ask when they want something.

Bryen also makes it quite clear that George Kachajian's long ordeal is far from over, at least as far as the Pentagon is concerned. "Some of them [the saws] he will be allowed to sell," he says, "but there will be restrictions, at least if we have anything to say about it on what types of saws he will be able to sell, and for what size ingot, and so on. It won't be any open door."

Thus, while George Kachajian's victory has drawn the attention of the export community, it has not engendered much hope for a signficantly more balanced export-control policy. If anything, many of Kachajian's fellow exporters look at his six-year ordeal and wonder if it only confirms their worst fears about controls and the future competitiveness of American manufacturers abroad. Larry L. Hansen, executive vice-president of Varian Associates Inc., manufacturers of such items as ion implanters and chemical vapor deposition reactors, responds to the Kachajian case with a mixture of admiration and horror: "George put in an enormous amount of effort to get that and that's a very mundane piece of equipment. I mean who in the hell can't make a crystal slicer? For him to have had to put in that much effort, and get that many people involved to get the relief that he got is an incredible thing absolutely incredible."

"Sometimes there's a little voice inside me," says Kachajian, "that asks: 'What are you so happy about? All this means is that you can do what you should've been able to do all along.' " Maybe.

Mr. Speaker, I reserve the balance of my time.

Mr. ROTH. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of S. 2245 as amended to reauthorize appropriations for the Export Administration Act of 1979 and export promotion activities.

The bill authorizes $35.9 million for the purposes of conducting our technology security program under the Department of Commerce. This amount, which represents a 22-percent budget increase over fiscal year 1986, is authorized for each of the fiscal years 1987 and 1988.

The Soviet Union has undertaken a massive, well-organized campaign to acquire Western technology illegally and legally for its military weapons systems. Its objective is to narrow the technology gap with the West, thereby eroding the technological superiority on which United States and allied security depends.

To thwart the Soviets' collection effort, Congress enacted last year over 100 changes to the Export Administration Act, the law which governs the control of United States exports. Improving export control efforts is clearly a top priority of this administration, and one which is supported by Congress. Automation in the export licensing process is significantly improving the quality of license reviews and is cutting the redtape often associated with export controls. While vast strides have been made in recent years, there remains much to be done. Our goal must be to obtain a technology security program which safeguards Western security, yet does not threaten U.S. competitiveness. Enhancing our Technology Security Program must continue to be a top priority for Congress.

The bill also authorizes $123.9 million for export promotion activities. With a trade deficit which hits new records practically every month, a small investment in trade promotion is one of the better uses of taxpayer dollars. The United States is facing a possible $200 billion trade deficit this year. And, like a barge heading full steam down the river, it's going to take a lot of time and effort to turn the trade deficit around.

We have talented men and women in the United States and foreign commercial service who are on the front lines tasked with the mission of breaking down trade barriers and promoting American products overseas. The International Trade Administration, headed by Under Secretary Bruce Smart, provides the critical backup support for our commercial missions abroad and the necessary focus in Washington. According to a recent internal study by the Commerce Department entitled "A Review of Certain Competitor Nations Export Promotion Programs and Policies," Japan spends six times as much as the United States on export promotion. Japan's Government has committed 5,000 commercial officers to help promote Japan's exports. In comparison, the U.S. fields less than 200 officers. Japan spends $5.22 per person each year on export promotion. The United States spends 56 cents. Canada spends $7.52 on export promotion on a per capita basis. The United States spends 56 cents. The United Kingdom spends

$4.07 per person on export promotion. We spend 56 cents. Clearly other nations are vastly outspending the United States to promote their exports. Providing the necessary resources for an effective trade promotion strategy must be a priority for this Congress.

I therefore urge my colleagues to adopt S. 2245 as amended.

Mr. Speaker, I have no requests for time, and I yield back the balance of my time.

Mr. MICA. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. BLILEY. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to the provisions of clause 5, rule I, and the Chair's prior announcement, further proceedings on this motion will be postponed.

EL PORTAL ADMINISTRATION SITE LONG-TERM LEASES AUTHORIZATION

Mr. VENTO. Mr. Speaker, I move to suspend the rules and take from the Speaker's table the bill (H.R. 1390) to authorize additional long-term leases in the El Portal administrative site adjacent to Yosemite National Park, CA, and for other purposes; with Senate amendments thereto, and concur in the Senate amendments.

The Clerk read as follows:

Senate amendments: Page 4, line 5, strike out "section" and insert: "sections".

Page 4, line 12, after "sublease," insert: "the process to be used in establishing fees for such leases and subleases,".

Page 4, strike out all after line 19 over to and including line 11 on page 5.

In the selection of lessees and sublessees, the issuance of leases and subleases, the establishment or rental values, and the acquisition of any unexpired term of any lease or sublease, the Secretary shall act through an agent or agents appointed by the Secretary from among associations, corporations, or natural persons having no material, financial, legal, or equitable interest in the action proposed, other than a reasonable fee for their services.".

The SPEAKER pro tempore. Is a second demanded?

Mr. LAGOMARSINO. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. The gentleman from Minnesota [Mr. VENTO] will be recognized for 20 minutes, and the gentleman from California [Mr. LAGOMARSINO] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Minnesota [Mr. VENTO].

GENERAL LEAVE

Mr. VENTO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill presently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

Mr. VENTO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the House passed this bill by voice vote on July 15, 1985.

The other body has made some relatively minor amendments to H.R. 1390 in order to insulate the Park Superintendent from any appearance of personal influence in executing the authorities of the act, to delete a reporting requirement originally contained in the House version and to allow certain Forest Service land purchases from willing sellers to proceed.

Mr. Speaker, this bill was introduced by my friend and colleague on the Committee on Interior and Insular Affairs, TONY COELHO. I wish to compliment the gentleman from California for his persistent efforts to craft legislation to induce a public-private sector cooperative effort which will result in the removal of some of the incompatible development from Yosemite Valley and at the same time make money for the Federal Government.

Mr. Speaker, I urge all of my colleagues to support this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. LAGOMARSINO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the amended version of H.R. 1390 before us today. As the subcommittee chairman has explained, this bill will assist in moving nonessential housing and administrative facilities out of Yosemite Valley by encouraging private financial assistance for the construction of these facilities in the El Portal site.

This body originally passed H.R. 1390 in July 1985. The Senate recently approved an amended version. I believe the Senate amendments improve this legislation. Furthermore, I feel that this bill represents an innovative approach to the Yosemite problem. Therefore, I urge all of my colleagues to support the amended version of H.R. 1390.

Mr. Speaker, I yield back the balance of my time.

Mr. VENTO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this measure, as I indicated in my opening statements, did receive consideration in the House almost a year ago now, and has passed it overwhelmingly.

The fact is that El Portal is an area of land outside of Yosemite National Park, and all of us who have visited Yosemite are familiar with the problems that occur on the Yosemite valley floor, especially with the amount of housing both for concessionaire employees and by the public employees that serve this park.

The fact is that some of the conditions of the housing in the valley floor were such that they were among the poorest housing, the poorest public housing, in all of California. It was really a scandal. In the late 1950's, the U.S.N.P.S. actually purchased some land outside of the park where we would construct public housing for the park employees and for concessionaires. The fact of the matter is, though, that the law only provided for 55-year leases. This legislation provides for 99-year leases, that the banks and other financial entities suggest will be adequate in order to actually finance and to loan the money for any type of housing that might be built.

The hope today is that with the amendments that have been made in this measure we are considering and the way this measure is written, once and finally, we will really move some of the housing out of the floor so that the Yosemite valley can be unimpeded and available to the tourists and the many other hundreds of thousands of people who enter that valley floor each year, visiting the park.

Mr. COELHO. Mr. Speaker, I rise in support of the Senate amendments to H.R. 1390. Efforts to address the long-term housing needs in El Portal outside of Yosemite National Park have been ongoing for several years now. The House passed H.R. 1390 in 1985 and I am pleased that we are finally sending a bill to the President to be signed into law.

The El Portal administrative site was established adjacent to Yosemite National Park in 1958 to help move nonessential employee housing and administrative facilities out of Yosemite Valley. However, development of the area has been hampered because the maximum lease term is presently 55 years and

banking institutions in the area require longer lease terms before loaning money.

This legislation authorizes the length of the term for leases at the El Portal administrative site to be increased to 99 years. It also broadens the class of lessees to include Federal employees and employees of the park concessionaire.

As amended in the Senate, H.R. 1390 would insure that no undue influence is exercised in the awarding of leases by making an agent of the Secretary responsible for the selection of lessees and sublessees, the issuance of leases and subleases, the establishment of rental values and the acquisition of any unexpired term of any lease or sublease.

Finally, I am pleased that the Senate retained the language in the bill allowing the proceeds from the leases to be earmarked for the management of the El Portal community. I felt this was an essential part of the House bill as the Park Service has not been successful in obtaining funds in the past for adequate housing or administrative facilities at the El Portal site. By using the lease funds for the site, we will insure that El Portal will be properly maintained for the local residents and it will not again deteriorate to the position it is in today because of the lack of adequate improvements.

The residents of Yosemite National Park and El Portal have been waiting for this legislation for a long time. By passing this bill, it should encourage development at the El Portal administrative site and ensure the removal of housing and support services outside of Yosemite Valley. I urge my colleagues to support H.R. 1390 today so we can sent the bill to the President to be signed into law.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota [Mr. VENTO] that the House suspend the rules and concur in the Senate amendments to H.R. 1390.

The question was taken; and (two-thirds having voted in favor thereof), the rules were suspended and the Senate amendments were concurred in.

A motion to reconsider was laid on the table.

The SPEAKER pro tempore. Is a second demanded?

Mr. HORTON. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from New York [Mr. GARCIA] will be recognized for 20 minutes, and the gentleman from New York [Mr. HORTON] will be recognized for 20 minutes.

The Chair recognizes the gentleman from New York [Mr. GARCIA].

Mr. GARCIA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I stand before you today to ask support for S. 2216, establishing a one-time legal public holiday in honor of the signing of the U.S. Constitution.

The U.S. Constitution not only serves as the cornerstone of our Government, but signifies the importance of the law and affirms our dedication to freedom, liberty, and justice. Never before in the history of this country has any one single document proved to have such immense and invaluable importance to this country. Although there have been amendments to our Constitution, the basic form of our Government has remained unchanged. It has set a standard by which other countries have measured their own governments.

I believe it is only fitting that we celebrate the signing of the Constitution by enacting a one-time Federal holiday to commemorate its 200th anniversary and to show the importance and significance of this great document.

Mr. HORTON. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, I rise in support of S. 2216, legislation which would create a one-time holiday by designating September 17, 1987, as Constitution Day, as a legal, public holiday.

Our Constitution is perhaps the single most important document in modern history. It has provided the framework for the successful continuation of the world's oldest democracy.

Mr. Speaker, I know this might be quite controversial to ask for a legal public holiday. Everybody wants to do away with legal public holidays. That means all offices would be closed, and, of course, there is a lot of cost associated with that. I understand it would be in the vicinity of approximately $4.5 billion in the private sector alone. I realize that.

But on the other hand, we are celebrating the 200th anniversary of this great document, which has been the guidepost for us in the way in which this country has developed.

So I think it would be appropriate to have a one-time legal, public holiday to commemorate this great document, the Constitution of the United States.

Mr. Speaker, I urge the Members to adopt this bill and I urge that this bill designating September 17, 1987, as Constitution Day, be accepted.

Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania [Mr. WALKER].

Mr. WALKER. Mr. Speaker, I do not think that there is anyone in this body, certainly not this gentleman, and I cannot imagine that there is anyone who does not believe that the historical significance of the Constitution is such that we ought to be setting aside some way to commemorate the Constitution. However, the bill we have before us is a billion-dollar bill.

This bill will cost the taxpayers $1 billion. It will cost small businesses and industries across this country $4.5 billion.

□ 1400

You are talking about a $5.5 billion cost to the economy for 1 day next September. I suggest that is a little expensive and that we ought not be on this floor suggesting that what we need in order to celebrate the founding of our Constitution is a vacation, and that is exactly what this is. This is a $5.5 billion vacation we are talking about out here. We are not talking about something to commemorate the Constitution.

Let us commemorate the Constitution, set aside a Sunday—it does not cost money for Federal pay if you set aside a Sunday, do something like that. We have already set aside a bicentennial commission that is going to spend some $26 million over the next several years as a way of celebrating our Constitution. That is entirely appropriate. It is already costing the taxpayers that kind of money, but a billion-dollar bill to the taxpayers for this celebration is just too much money; $4.5 billion of cost to small businesses across this country is just too much money.

I suggest that we turn down this bill. We cannot afford it at a time that we are cutting programs for education, cutting programs in other domestic areas, cutting our defense programs and so on, to come around and suggest that we spend $1 billion for a vacation.

Mr. Speaker, I suggest that the House turn down this particular proposal.

Mr. GARCIA. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Louisiana [Mrs. BOGGS].

Mrs. BOGGS. Mr. Speaker, I thank the gentleman for yielding this time.

Mr. Speaker, I have the honor of serving on the U.S. Commission for the Celebration of the Bicentennial of the Constitution, as does our colleague, the gentleman from Illinois [Mr. CRANE], who unfortunately cannot be with us today.

In the Commission's very first report to the President of the United States on September 17, 1985, Chief Justice Burger, the Chairman of the Commission, in the very first article of their report, had this to say:

> Delegates of all twelve States represented in Philadelphia voted to approve the Constitution. Thirty-nine of the forty-two delegates present signed the engrossed copy, and a letter of transmittal to the Continental Congress was drafted.
>
> September 17 has traditionally been celebrated as "Constitution Day." The Commission supports the creation of a one-time National Holiday on this date and considers it the appropriate date for the main national observance during the 1987 Bicentennial year. This day should involve special programs across America.

Mr. Speaker, never in the history of the world have four pages had such an impact on the lives of so many. Our Constitution has been the model for so many nations gaining their freedom.

It is appropriate that we take 1 day out of the 72,000 days that have passed since September 17, 1787, to observe the heritage of our Constitution.

As well-informed a nation as we are, it is appropriate that we focus more attention on the Constitution.

Yearly we celebrate Independence Day, the anniversary of the American Revolution; however, it is the Constitution that proved that the American people had the wisdom and ability to make something of that Revolution. The Constitution established the United States as a nation and enabled the people to govern themselves and to preserve their freedoms.

Constitution Day, 1987, will give the American people the opportunity to reflect on and celebrate the existence of our basic charter. This will be the only opportunity in the lifetime of those of us here today to devote our Nation for 1 day to that great document.

Mr. Speaker, we have had a great deal of research done by the legal counsel of the U.S. Commission on the Bicentennial of the Constitution, and a legal national holiday does not impose upon the small businesses or other businesses or this Nation that they should have to close their doors of their businesses for that day unless they so desire; so it will not be such a terrible heavy burden upon the businesses of this country for us to have a legal national holiday to celebrate the signing of our Constitution.

The Federal Government has been referred to, that it would cost in the neighborhood of $88 million perhaps to close down the government services for 1 day, but I do not believe that it would be taken as a vacation. It will be a day of observance with magnificent programs all over the United States in every village and hamlet and big city and every State.

Mr. Speaker, I would urge the passage of S. 2216 to create a one-time national holiday to celebrate the signing of the Constitution.

Mr. HORTON. Mr. Speaker, I yield 2 minutes to the gentleman from Minnesota [Mr. FRENZEL].

Mr. FRENZEL. Mr. Speaker, around here whenever somebody has a good idea to memorialize an occasion, or a person, the very first thought that occurs is that we charge it to the taxpayers by giving the Federal employees an extra day off.

I would have thought from my studies of the Constitution, and its framers, and of the Revolution and its movers, that if those people could come back to life today from the 18th century, they would be more likely to say, "Let's have a holiday for the taxpayers, not for the bureaucrats."

This bill says that the taxpayer should pony up another half a billion dollars, so a rather privileged group of Americans, that is, Federal employees, including all of us in this room, will get an extra day off with pay. I say rather privileged only in the sense that Federal employees on average get more days off with pay than people in the private sector.

It is quite true that probably private businesses will not give the day off. Therefore the day of contemplation, or merrymaking, or whatever we are going to do to honor the Constitution, is going to have to be confined to Federal employees, rather than to the public at large.

I believe the Constitution is bigger than this bill. I believe the Constitution should be an object of honor, not a means of featherbedding. It ought to be honored by all citizens at all times.

There are going to be plenty of serious, justified celebrations in 1987. We do not have to set aside a special day on which the taxpayers of the United States will pay monetary tribute to a special class of employees of the United States by giving them a free day off with pay.

Mr. Speaker, this bill should be defeated soundly and unanimously.

Mr. GARCIA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker——

The SPEAKER pro tempore (Mr. RANGEL). The Chair would like to remind the gentleman from New York that specific comments or references to the Members of the Senate should be omitted from his remarks.

Mr. GARCIA. Well, let me just say, Mr. Speaker, with permission of the Chair, I would like to have those words stricken.

The SPEAKER pro tempore. Without objection, it is so ordered.

There was no objection.

Mr. GARCIA. Mr. Speaker, I would just like to say, according to the Congressional Budget Office, which reviewed S. 2216, there would be an additional expenditure; there is no question about that. However, they estimate that expenditure to be $27 million. It is not the $4.5 billion that my colleague from Pennsylvania indicated. I might add that this estimate would be further reduced since the holiday does not include the postal employees.

It just seems to me that $27 million for something that has kept 200 years of peace and prosperity, has given us the strongest Nation in the world, a document that was written at a time when horses and carriages were the means of transportation, instead of rockets to the Moon, and here we are still living by that Constitution. This is to the credit of the great genius or geniuses of those who put that Constitution together. It would seem to me that $27 million is a very small price to pay for what I consider to be a very

71-059 O-87-29 (Pt. 21)

significant day, because without that Constitution God knows where this country would be today.

So it is to that end that I ask that we support this measure. I think it is important. I know that come 1987 that we are going to have a big celebration in the city of Philadelphia.

I might add, Mr. Speaker, that the person who really has been instrumental on this side is the Congressman from Philadelphia, Mr. FOGLIETTA, who could not be with us today because he has some business pertaining to his district, but it was the gentleman from Pennsylvania [Mr. FOGLIETTA] who got over 218 signatures together, working with the gentlewoman from Louisiana [Mrs. BOGGS] who is a member of the Bicentennial Commission.

It just seems to me that this is a very small price to pay to celebrate what I consider to be one of the most important documents in the world.

Mr. HORTON. Mr. Speaker, I yield myself 1 minute to point out that in addition to the gentleman from Pennsylvania [Mr. FOGLIETTA], the bill is also sponsored, of course, by the gentlewoman from Louisiana [Mrs. BOGGS], and then also by the gentleman from Illinois [Mr. CRANE], a Republican.

It is a bipartisan bill. I want to agree with what the chairman, the gentleman from New York [Mr. GARCIA] has said, that this is a one-time proposition. It is a one-time legal holiday in commemoration of a very historical document, a document that most people do not have a chance to see, that most people realize we have the Constitution, but if you check with the Archivist at the Archives, you will find very few of them actually get in to see the Constitution, which is on display there.

Mr. Speaker, I think it is appropriate when we are only going to do this once every 200 years that we set aside this special day; so I would urge my colleagues to vote for the bill.

Mr. CRANE. Mr. Speaker, as a member of the President's Commission on the Bicentennial of the U.S. Constitution, I rise in strong support of S. 2216. This legislation, identical to that introduced by Representatives FOGLIETTA, BOGGS, and myself, would make September 17, 1987, a one-time national holiday to commemorate the 200th anniversary of the U.S. Constitution.

James Madison once boasted that the "American Constitution would accomplish a revolution which has no parallels in the annals of human society." The Constitution has lived up to Madison's expectation. The document which provides the framework for our laws and beliefs has matured and met the challenges of a growing nation without infringing on individual freedoms.

In 1983, I introduced the original House legislation to create a Commission on the Bicentennial of the U.S. Constitution. The purpose of the Commission, as described in section 3 of Public Law 98–101, is to "promote and coordinate activities to commemorate the bicentennial of the Constitution." The Commission hopes that it will be able to stimulate thousands of organizations at the grassroots level to educate the public on the Constitution and the unique aspects of this document which ensures freedom under law.

In an effort to facilitate this grassroots celebration, the 23-member Bicentennial Commission, chaired by Chief Justice Burger, unanimously approved a resolution endorsing the one-time holiday bill. Following Senate passage on a bipartisan basis, it is now up to the House of Representatives to determine whether or not the 200th anniversary of our Constitution receives the celebration that it so richly deserves. I hope that the House of Representatives will fall in line in this patriotic legislative effort.

In closing, it should be remembered that while our Nation may be one of the younger nations in the world, it has the oldest, relatively unchanged, form of government in the entire world. The U.S. Constitution is considered such an act of genius that it is the most frequently used constitutional model for developing and restructuring countries. Almost 200 years ago, the framers of our Constitution fashioned a nearly perfect instrument of government, one that has demonstrated the remarkable capacity to adapt to a changing world. The Commission on the Bicentennial of the Constitution of the United States desperately needs the support of the 99th Congress to ensure that proper recognition and tribute is paid to this truly great achievement. I urge a yes vote on S. 2216.

Mr. HORTON. Mr. Speaker, I yield back the balance of my time.

Mr. GARCIA. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York [Mr. GARCIA] that the House suspend the rules and pass the Senate bill, S. 2216.

The question was taken.

Mr. FRENZEL. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 5 of rule I, and the Chair's prior announcement, further proceedings on this motion will be postponed.

CONFERENCE REPORT ON H.R. 3113, PROVIDING FOR COORDINATED OPERATION OF THE CENTRAL VALLEY PROJECT AND THE STATE WATER PROJECT IN CALIFORNIA

Mr. MILLER of California. Mr. Speaker, I move to suspend the rules and agree to the conference report on the bill (H.R. 3113) providing for the coordinated operation of the Central Valley project and the State water project in California.

The Clerk read the title of the conference report.

(For conference report and statement, see prior proceedings of the House of today.)

The SPEAKER pro tempore. Is a second demanded?

Mr. PASHAYAN. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from California [Mr. MILLER] will be recognized for 20 minutes, and the gentleman from California [Mr. PASHAYAN] will be recognized for 20 minutes.

The Chair recognizes the gentleman from California [Mr. MILLER].

Mr. MILLER of California. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to rise in support of the conference report on H.R. 3113, a bill which would authorize the Secretary of the Interior to execute the Coordinated Operations and the Suisun Marsh Preservation Agreements, and reauthorize the Small Reclamation Loan Program.

I strongly urge my colleagues to support this legislation.

Mr. Speaker, title I of H.R. 3113, which authorizes the Secretary of the Interior to enter into the Coordinated Operations Agreement [COA], is the culmination of nearly two decades of negotiations on an agreement to coordinate the operation of the Federal Central Valley project [CVP] and the California State water project.

This legislation is a historic peace treaty which can help to end the water wars which have crippled our States' water resource activities for over a decade.

For the citizens of northern California, and Contra Costa County in particular, this bill includes the legislative guarantees we have sought for decades to insure improved water quality for San Francisco Bay and the Sacramento-San Joaquin Delta.

In 1960, California prepared to launch its State water project and the Federal Government had just approved a substantial expansion of the Central Valley project. My father, then a State senator, wrote the State delta protection act which clarified the obligation of the State project to protect the delta by preventing the intrusion of ocean salinity which degrades the quality of delta water supplies.

Today, 26 years later, H.R. 3113 finally establishes as a mandate of Federal law that the CVP also must be operated to protect the water quality of the San Francisco Bay and the Sacramento-San Joaquin Delta, before surplus waters are diverted to users in other areas of the State.

Mr. Speaker, water resource policy in California has been in a state of paralysis for over a decade. When there is disagreement, nothing can happen. Now, a new generation of political leaders is demonstrating that we can work together and we can make great progress on behalf of our entire State.

This bill would not have been possible without the active involvement and the honest determination of my colleagues, Congressmen TONY COELHO and RICK LEHMAN.

Mr. Speaker, the fundamental objective of this legislation is to resolve, once and for all, the obligation of the Federal project to meet State water quality standards for the bay and the delta.

This bill clarifies that the Secretary of the Interior, at a minimum, must operate the CVP to meet the standards established from time to time for the bay and delta by the State water resources control board.

It is particularly noteworthy that this provision includes the San Francisco Bay. Protection of the bay has been too long overlooked by the State board. Recent hearings held by the Water and Power Subcommittee clearly demonstrated the need for such standards. High levels of toxic contamination have been found in shellfish, selenium in migratory waterfowl, and stripped bass populations have dropped.

The conference bill makes it clear that the Federal project must be operated to meet those bay standards should they be promulgated.

It is also important to note that the Federal obligation to meet State water quality standards will exist even if the COA becomes inoperative for some reason. Thus, we have, for the first time, firm statutory assurances that bay and delta water quality standards will be met regardless of the future of the COA.

Mr. Speaker, H.R. 3113 also contains important safeguards to the 300,000 customers of the Contra Costa Water District. The bill provides to these customers a guarantee they have never before enjoyed under Federal law: An assurance that specific water quality standards, at least as good as those contained in D-1485, will be maintained at the district's intake at Rock Slough.

Those standards may not be waived unless we confront a catastrophic drought of the sort which affected California in 1976-77, and then, only after complying with California State law and following an emergency drought declaration by the Governor where no prudent alternative exists to meeting the State water quality standards.

Maintaining and improving delta water quality benefits a wide variety of other interests, including fish and wildlife, salinity control, and river and harbor maintenance. It is impossible to enumerate all of the beneficiaries or to send a bill to them for the benefits provided by the project. As a result, the House version of H.R. 3113 made nonreimbursable all costs associated with providing salinity control and for complying with State water quality standards in excess of the so-called Tracy standards.

The conference committee has changed that formula. The conference bill provides that the costs associated with providing CVP water supplies for the purpose of salinity control and for complying with the State water quality standards contained in decision 1485 shall be reimbursed in the following manner. The Secretary will calculate those costs and then allocate them among all of the project purposes in accordance with existing reclamation law and policy for purposes of repayment.

Thus, all project purposes—such as irrigation, power, navigation, flood control, fish and wildlife—will share in these costs in accordance with the law and policies now in effect. Finally, all costs associated with complying with salinity control and State water quality standards established in the future by the State board which are determined to be consistent with the congressional directives and that exceed the costs of the D-1485 standards shall be considered nonreimbursable.

Mr. Speaker, H.R. 3113 authorizes and directs the Secretary to execute and implement the COA under two statutory conditions.

The first statutory provision provides that the conveyance and purchase contract referred to in article 10(h)(1) of the agreement will become final only after an act of Congress. We believe this contract will be critical to the long-term resolution of the controversies addressed by the agreement and H.R. 3113. It will also fundamentally affect the future of water resource development and management in California for decades. It is for these reasons that H.R. 3113 provides that Congress must approve the contract before its execution.

The second statutory provision provides that the secretary or the State of California may exercise the termination provisions of the agreement only after submitting a report to the Congress and 60 legislative days have elapsed. In the case of the secretary, the report must outline the reasons for terminating the agreement, and include the views of the Administrator of the Environmental Protection Agency and the Governor of California on the secretary's decision.

The conference bill includes important protections for California waterfowl. Section 104 of the conference bill provides that the secretary may not sign long-term contracts for more than 75 percent of the available water supplies until a feasibility report on solutions to this problem has been submitted to the Congress. This provision will insure that sufficient water is available to protect fish and wildlife resources.

The conference bill includes two important changes in CVP contracting procedures. The first requires that the secretary include automatic rate increases in all new water contracts. This will mean the elimination of 40-year, fixed-rate contracts that have bankrupted the CVP. The second change requires realistic interest rates to be changed on all operations and maintenance deficits.

Mr. Speaker, I am also pleased that the conferees have agreed to language authorizing the Secretary to implement the Suisun March Preservation Agreement. This legislation, which was first introduced by my colleagues, Congressman VIC FAZIO, will result in construction of facilities to restore the marsh area which is vital to the California flyway.

Finally, the conference bill provides an additional $600 million in authorization for the Small Reclamation Loan Program. I am pleased the conference agreed to the Senate reforms in this program. While the authorization figure of $600 million is greater than I would prefer, the new emphasis on rehabilitation, betterment, and conservation projects should help improve this program.

Mr. Speaker, this bill lays a new foundation for water policy in the California. I believe the time has come to move forward to end the suspicion and the stagnation which has impeded sound water policy in California for too long.

I firmly believe H.R. 3113 provides the framework for accomplishing that goal, and I hope my colleagues will join me in supporting the bill.

Mr. PASHAYAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. WALKER. Mr. Speaker, will the gentleman yield?

Mr. PASHAYAN. I yield to the gentleman from Pennsylvania.

Mr. WALKER. I thank the gentleman for yielding.

Mr. Speaker, do I understand correctly that the provisions of the Senate-passed bill that stipulated that all recipients of irrigation benefits whose farm lands exceed 320 acres will be obligated to pay full cost for water are included in H.R. 3113 as it comes before us?

Mr. MILLER of California. Mr. Speaker, will the gentleman yield?

Mr. PASHAYAN. I yield to the gentleman from California.

Mr. MILLER of California. Mr. Speaker, the gentleman from Pennsyl-

vania is correct. The conference report reflects that change.

Mr. PASHAYAN. Mr. Speaker, I yield such time as he may consume to the gentleman from Colorado [Mr. STRANG].

Mr. STRANG. Mr. Speaker, I rise in support of the conference report.

Mr. MILLER of California. Mr. Speaker, I yield such time as he may consume to the gentleman from California [Mr. COELHO].

Mr. COELHO. Mr. Speaker, I am rising in support of the conference report on H.R. 3113. As a House member of the conference committee, I believe that all interests have had the opportunity to express their views concerning this measure. Although each of us did not receive everything that we wanted, I believe that the agreement reached between the House and Senate conferees is fair and is in the best interest of the general public.

I want to personally thank the chairman of the Interior Committee, Mr. UDALL, for his guidance and assistance on this measure. I would also like to express my appreciation to the chairman of the Water and Power Subcommittee, GEORGE MILLER, who has shown a keen willingness to work with all California water interests and concerns. I am very pleased that this landmark agreement has been reached. California has long been known for statewide water wars, and it is a rare occasion when California is united on a water issue. The negotiations and compromises that took place in finalizing this measure are the first steps in building a workable relationship between all parties, and I would hope that such alliances will continue so that future water concerns can be mutually resolved and addressed. I would like to commend Mr. MILLER for his leadership, and thank his staff for their dedication, and long hours in working on this important measure.

In particular, I want to make sure that the intent and purpose of section 102, reimbursable costs, of title I of this measure is clarified. I would appreciate the author and manager of H.R. 3113 addressing my concerns and clarifying for the record that my statements concerning this provision clearly and accurately define the intent of section 102 as agreed to by the House and Senate conferees. This provision required a tremendous amount of negotiation and compromise from a range of interests, and in particular, on the part of my constituents.

I would appreciate Mr. MILLER confirming that this provision is to be implemented by the Secretary of the Interior in the specific manner, as authorized by this conference report. The conference agreement provides that the costs associated with providing CVP water supplies for the purpose of salinity control and for complying with the State water quality standards contained in California State Water Resources Control Board water quality standards decision 1485, dated August 16, 1978; shall be reimbursed in a specific manner. This specific manner is to require that the Secretary shall allocate those costs among all project purposes. In particular, I want to make sure that the Secretary of the Interior has clear direction that the allocation of these costs will be among all project purposes including irrigation and domestic water uses, such as municipal and industrial uses, power, navigation, flood control, river regulation which includes fish and wildlife obligations in the Bay-Delta Estuary. Could the gentleman inform me if this is a correct interpretation of the requirement of the Secretary of the Interior?

Mr. MILLER of California. Mr. Speaker, will the gentleman yield?

Mr. COELHO. I yield to the gentleman from California.

Mr. MILLER of California. Section 102 of this agreement requires the Secretary to allocate the costs of meeting the D-1485 water quality standards to all project purposes, specifically those purposes which you reviewed in your remarks. This allocation shall be performed in accordance with reclamation law and policy.

Mr. COELHO. Mr. Speaker, in determining the allocation of the costs associated with D-1485, all project functions are required to share in these costs. Furthermore, I would like to make sure that it is clear that the water users are required and obligated to pay for and reimburse only the proportion of the costs that are allocated to the water users in the allocation process that I specified in my previous statement. Is this correct?

Mr. MILLER of California. The conference agreement is very specific. It requires the Secretary to allocate the costs to the project purposes, in a proportionate manner, as specified by the allocation process, and every project purpose will be allocated a certain cost.

Mr. COELHO. Finally, the conference agreement states that any costs which are incurred as a result of meeting water quality standards which are above D-1485 shall be nonreimbursable. Therefore, water users shall not be responsible for any costs which would result if standards which exceeded D-1485 were implemented. Is this a correct interpretation of the agreement?

Mr. MILLER of California. Yes, this is an accurate interpretation. The measure is very clear in this regard and states that any costs above D-1485 standards are nonreimbursable.

□ 1425

Mr. COELHO. Mr. Speaker, I thank the gentleman from California and urge my colleagues to support this historic bill.

Mr. PASHAYAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as I did 13 months ago, I rise in support of H.R. 3113, but a difference today being that two other issues are equally resolved by the conference report on this legislation.

This legislation initiative enjoys my support today for many of the reasons I stated on September 9, 1985, when this body initially approved H.R. 3113. I remain as hopeful now as I did then that passage and subsequent approval of this legislation will lead to prompt and serious consideration by the Water and Power Resources Subcommittee of other worthwhile proposals of water project development.

For those of us representing areas south of the San Francisco-Sacramento-San Joaquin Delta, there remains the question of authorization of the midvalley unit of the Central Valley project. There remains the question of poor quality water drainage, reauthorization and indexing for the San Luis unit of the CVP, and a host of other issues.

For those in the Sacramento area north of the San Joaquin Valley there remains the question of Auburn Dam on the American River, of the Oat Reservoir at the terminus of the Tehama-Colusa Canal, and some needed legislation for the El Dorado Irrigation District.

For those in the reclamation States I feel it necessary to address section 203(b) of the Reclamation Reform Act of 1982 because undue hardship will visit upon those who were in compliance prior to reclamation reform; they now face the dilemma of uncertainty.

I should hope that now that we are at this step in solving a problem unique to California that the promises made 13 months ago will today be renewed in the same spirit of cooperation I see between farmers and the environmental community, between southern Californians and northern Californians, and between those in the delta region and the central valley.

The residents of the San Joaquin Valley that I represent have placed their good faith and hopes for the future in this agreement, and in those who have and are participating in forwarding the promise of this legislation.

I do not intend now or in the future to state uncategorically that the legislation embodied in H.R. 3113 is perfect. It is not. But acknowledging the fact that both sides have given a little here and there, it is an equitable compromise.

The issue of reimbursability will likely take a great deal of patience, as will the time required to complete the refuge water supply investigation re-

quired by section 104. Some of my water users question the need to mandate in this legislation the various cost increases that are already required by the Reclamation Reform Act of 1982. And others worry that the amendments to the Small Reclamation Project Act will thwart any efforts at utilizing the program. I appreciate those concerns.

In closing I should like to borrow a statement made by the chairman of the Water and Power Resources Subcommittee, the gentleman from California, Mr. MILLER, who stated:

The time has come to move forward to end the suspicion and stagnation which has impeded sound water policy in California for too long.

I urge my colleagues to join in helping to remove that suspicion and stagnation by supporting the conference report on H.R. 3113, and trust that the chairman will expedite the consideration of the questions I have outlined above.

Mr. MILLER of California. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, at this time I would like to thank my colleagues who have worked so hard, the gentleman from California, [Mr. COELHO], and the gentleman from central valley of California [Mr. LEHMAN], along with the gentleman from California, [Mr. PASHAYAN]. As was said earlier, this legislation is a rather historic agreement, and to arrive at this point required that all of us, those from the north and those from the south and those from the central valley all gave a little bit of our traditional ground so that we could go forward and engage in an atmosphere of planning and rational water development for the future of our State of California. I would just like to make sure that they all get recognized.

I would also like to thank the gentleman from Arizona, [Mr. UDALL], my chairman, for all of the help and the encouragement that he has given to me and to other members of the committee to get this problem resolved, because, as was witnessed, as so many in this Congress as Members of the California delegation have fought over these projects, and had their disagreements, we have seen the State of California fall further and further behind in the rational development of its resources that are so essential to its economic growth.

Mr. Speaker, I move the passage of the bill.

Mr. PASHAYAN. Mr. Speaker, will the gentleman yield for a question?

Mr. MILLER of California. I yield to the gentleman from California.

Mr. PASHAYAN. Mr. Speaker, I agree with the statement of the gentleman that there was a whole host of problems and projects out there in California that needed to be solved. The gentleman will be in a key position to get those going, and I look forward to working with the gentleman on a lot of these projects and other problems, some of them in the Reclamation Reform Act. I imagine the gentleman will be occupying the time of the members of the subcommittee for quite some time in the Congress to come with hearings and various considerations of various bills.

Would the gentleman like to talk a little about that a little bit and as a general matter?

Mr. MILLER of California. I do not like to get the cart before the horse. You know we all have a November 4 deadline here. What I would expect to do is to sit down with the members of the subcommittee right after the election and start asking them for suggestions for the agenda.

As the gentleman knows, the list of concerns certainly in our own State, but elsewhere in the West is as long as our arm, and I want to make sure that while we address the issues concerning California that we do not get so parochial that we close out other Members of the Congress.

Mr. PASHAYAN. I take it when the gentleman makes those remarks, he makes them in the spirit of a bipartisan effort to solve the problems because water is as wet for a Democrat as it is for a Republican.

Mr. MILLER of California. The gentleman would not know how else to act.

Mr. PASHAYAN. I am sure that is correct. When the gentleman is in the right mood, I am sure that is correct.

Does the gentleman have anything else to say, I wonder, about the agenda that might be on for next year?

□ 1435

Mr. MILLER of California. I really do not, no.

Mr. PASHAYAN. Well, in that case, neither does this gentleman.

Mr. FAZIO. Mr. Speaker, this legislation providing authority for the Bureau of Reclamation to meet water quality standards in the Sacramento-San Joaquin Delta culminates a process that began well before I first held public office in 1975. It is a milestone in the evolution in California water issues, representing new links between all the parties which have combined, split, recombined and resplit over the years to wage California's famous water wars.

All our constituents will benefit from its passage, especially the urban water users of Sacramento who are pressed hard to find long-term solutions to the region's water supplies.

Constituents will also benefit from two other major elements of H.R. 3113, one pertaining to the Suisun Marsh and the other to a $600 million increase in the authorization ceiling for the Bureau of Reclamation's Small Project Program.

Both these sections of H.R. 3113 were originally bills which I introduced in the House: the Marsh bill with the cosponsorship of Mr. MILLER and the small projects authorization with myself as the principal cosponsor with Interior Chairman MORRIS UDALL. I am very greatful to both of them and their staffs for the effort and diligence they devoted to the eventual compromises that allowed these measures to be part of H.R. 3113.

The Coordinated Operating Agreement sections of this bill represent peace between the north, the center, and the south in California, between the Federal water project and the State water project, and between water consumers and environmentalists.

Such a multiple junction of interests occurred only in part because historical forces lead us to a common point of view. It also occurred because of the legislative skill of my colleague, GEORGE MILLER of California, chairman of the House Interior Subcommittee on Water and Power, as well as of his committee members, TONY COELHO, RICK LEHMAN, and CHIP PASHAYAN. These members all feel acutely the political forces involved in the compromise and they held fast to a common approach when it would have been easy for any of them to hold back.

It should not go unsaid, either, that the technical and political package which this legislation implements was the product of years of painstaking negotiations between officials of the Bureau of Reclamation under both current regional Director Dave Houston, and his predecessor, Mike Catino, and officials of the California Department of Water Resources under both current Director Dave Kennedy and his predecessor, Ron Robie.

The Congress made significant changes in their work, changes which some of them opposed rather vigorously. Nonetheless, our agreement today is largely theirs in origin.

What does this agreement mean? It means in the immediate sense that the Bureau of Reclamation can now lift an 8-year moratorium on new water supply contracts, because the operational coordination the bill allows will result in another 1 million acre-feet of safe yield for the Central Valley project.

For my constituents particularly, this new water would mean the Bureau could begin to negotiate a water contract for the Yolo Zamora Water District in northern Yolo County, a district which has been waiting for a water supply from the Tehama-Colusa Canal for over 20 years.

Lifting the moratorium would also mean that the Bureau could begin to meet the growing requirement for urban water supplies in the Sacramento area. Both the city of Folsom and the San Juan Water District have proposals on the table for new water supplies out of Lake Folsom in order to meet pressing urban needs. I know from frequent contact with aggressive city officials at Folsom that they will quickly approach the Bureau about signing a contract for supplemental supplies out of the lake at their feet.

In the case of the San Juan District, new surface supplies could help implement its visionary plan for the entire tier of north Sacramento County extending from Lake Folsom as far west as McClellan Air Force Base. The needs in this region are to avoid ground water overdraft, mitigate worsening ground water quality because of overdraft, avoid increasing

pumping costs, and, in several cases, offset ground-water pollution.

It is difficult to predict the exact shape of Sacramento's future water systems. Many other difficult issues must be negotiated first. But no matter what eventually happens, this bill will prove to have been one of the major steps toward the solution.

H.R. 3113 also means that for the frist time, the Bureau of Reclamation has a clear mandate to meet water quality standards in the Sacramento-San Joaquin Delta. This issue has divided the two water projects in California from each other, divided the north from the south, and divided water users from environmentalists.

There have always been grounds for arguing that the Bureau has an obligation to meet water quality standards in the delta, unless doing so would clearly conflict with congressional mandates for the Federal Central Valley project. However, with passage of this legislation what has been arguable is now a certainly, and what was once a source of division can now become common point of departure for future water policy decisions.

It is particularly satisfying to me that the other body chose to append to the COA bill two pieces of legislation in which I have had a long and direct interest:

The Suisun Marsh in my district in Solano County will now receive an adequate quality water supply;

And the authorization ceiling on small distribution system loans has been increased by $600 million, enabling water districts up and down the Central Valley of California to expand their systems to make better use of their existing facilities.

The Treasury will gain from this bill in several ways: The interest rates for repayment are market level; the subsidies for irrigation interest will apply only to 320 acres per farm, not the 960 acres in the new farm bill.

Last year, I introduced a bill to authorize the Bureau of Reclamation to participate with the State of California and the Suisun Resources Conservation District in a $120 million program to improve water quality for the Suisun Marsh. A similar bill was introduced in the Senate by Senators ALAN CRANSTON and PETE WILSON. The Federal share of this program would amount to 40 percent of this total, or $50 million, whichever is less.

Hopefully, all this money will not be needed, should an earlier of the five stages of water quality facilities contemplated by the bill result in water quality meeting the prescribed standards.

This is the latest in a series of bills I have had the honor of carrying since I first took public office as a California State assemblyman in 1975. At that time, we began work on a land use bill to preserve the 85,000 acres of marshland and surrounding buffer from encroaching urbanization.

Even then, however, we understood that preservation of this largest contiguous fresh water marsh in the United States would entail more legislation to ensure that it gets the quality of water it needs to sustain its wildlife values. It was again my privilege as a freshman Member of Congress to carry legislation authorizing the Bureau to participate in an initial set of facilities for marsh water quality. Though the amount of money was small, $2.5 million, the pattern of Federal-State-local cooperation was set at that time and is reflected in this larger bill.

Barring unforeseen problems, and assuming that the State and Federal water agencies hold to the overall cooperative course set by the COA itself. I think this bill is the last chapter in this protracted effort to preserve one of the Pacific coast flyway's most important link.

As well as being of great interest to the State of California as a whole, the COA, Suisun Marsh, and small project provisions are of particular interest to me. I thank all those involved for their assistance.

Mr. LEHMAN of California. Mr. Speaker, I rise in support of H.R. 3113 and would like to acknowledge the role that Congressman GEORGE MILLER, chairman of the Housing Water and Power Resources Subcommittee, played in approving this important California water legislation. Because titles I and III are particularly important to my constituents, I will confine my remarks to these titles.

Title I of the bill provides for the implementation of the Coordinated Operations Agreement. This agreement not only provides for the operation of the Federal Central Valley project and the State water project, but it also ensures water quality standards for the San Francisco Bay and Sacramento-San Joaquin Delta. The agreement and this legislation end years of dispute regarding water quality standards in the delta and San Francisco Bay region with respect to the operation of the State and Federal water projects. Furthermore, title I of H.R. 3113 will enhance the manner in which the State and Federal Government operate their respective water projects and provide for a more efficient use of existing facilities and resources. Most importantly, approval of this legislation will lift the moratorium currently in place on the marketing of available Bureau of Reclamation water.

The compromise reflected in title I of the bill includes the important provisions agreed to by both State and Federal water users, as well as representatives of the delta-bay and environmental communities. It also provides adequate assurances for the Federal Government to be able to terminate its obligations if meeting the water quality standards in the bay-delta are inconsistent with congressional directives.

I would like to take this opportunity to acknowledge the many months of hard work, negotiations, and compromise by the representatives for the groups who share an interest in both the water quality standards of the delta and bay, as well as the needs of the water users throughout the State of California. Without their commitment and the guidance of GEORGE MILLER and others, this historic California water agreement would not have been possible.

Title III of H.R. 3113 authorizes $600 million for the Small Reclamation Loan Program, an important program for the development and rehabilitation of water delivery systems. The changes in the program as provided by title III address the concerns which have been expressed by various parties and I applaud the conference committee language.

Mr. Speaker, the conference committee report on H.R. 3113 reflects many weeks of negotiations and hard work on several very important and controversial issues. The resolution of these issues has not been easy nor is the compromise perfect.

However, as a member of the House-Senate conference committee, I still have reservations about several specific provisions in this package. The 20 percent per State cap included in title III of bill may be restrictive to States which have relied on the Small Reclamation Projects Loan Program and there are other issues which do not fully meet my satisfaction. However, in the spirit of compromise and acknowledging that approval of this pivotal legislation will allow us in California to move ahead on other needed water development issues, I urge the House to expeditiously approve H.R. 3113.

Mr. UDALL. Mr. Speaker, I am pleased to rise in support of the conference report on H.R. 3113.

Mr. MILLER, chairman of the Interior Committee's Water and Power Resources Subcommittee, deserves great credit for his work on this legislation. So too do Mr. COELHO, Mr. LEHMAN, and other members of the subcommittee.

Mr. Speaker, this legislation is fraught with virtue.

It provides for implementation of a cooperative agreement by which the two largest water projects in California—the Federal Central Valley project and the State water project—can be operated more efficiently and effectively.

By so doing, this agreement will assure that water quality will be maintained in the vital Sacramento-San Joaquin delta, and that the State water project will remain viable in water short years.

This legislation will thus further national policy of promoting wise use of our water resources, while providing a major advance toward ending the so-called water wars in California.

H.R. 3113 will also provide significant benefits to fish and wildlife.

It sets aside project waters for California wildlife refuges, pending completion of a study and recommendations on refuge water supply needs.

And, it would implement a major agreement between the Interior Department and California providing for the protection and management of a national environmental treasure, the Suisun Marsh.

This marsh encompasses more than 10 percent of California's remaining wetlands. It is home to more than 250 species of fish and wildlife, and is a wintering ground for much of the waterfowl that ply the Pacific flyway.

The agreement provides for the State and Federal Government to share the costs of constructing facilities necessary to maintain the quantity and quality of water needed to sustain the marsh.

As amended by the Senate, H.R. 3113 would extend and reform the very successful Small Reclamation Projects Loan Program administered by the Bureau of Reclamation.

As the principal sponsor of separate House legislation dealing with this program, I support the Senate amendments.

These amendments would authorize $600 million, enough to maintain the program for 12 to 15 years.

They would emphasize use of the program for rehabilitation and betterment of existing small irrigation projects for water and energy conservation and water quality control.

They increase requirements for cost sharing and require a shorter repayment period for project beneficiaries;

They would require beneficiaries to pay market interest on that portion of any loan used to provide benefits to lands in excess of 320 acres.

Finally, the amendments ensure that potential impacts on fish, wildlife, and the environment, especially with respect to toxic or hazardous potential irrigation return flows, are evaluated in connection with any project loan.

Mr. Speaker, H.R. 3113 is far reaching, farsighted legislation that is clearly in the national interest. I strongly support it and urge the House to adopt the conference report.

Mr. PASHAYAN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. MILLER of California. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California [Mr. MILLER] that the House suspend the rules and agree to the conference report on the bill, H.R. 3113.

The question was taken.

Mr. WALKER. Mr. Speaker, on that, I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to the provisions of clause 5, rule I, and the Chair's prior announcement, further proceedings on this motion will be postponed.

GENERAL LEAVE

Mr. MILLER of California. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the conference report on H.R. 3113, just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

"(b) ATTORNEY'S OBLIGATION.—It shall be the ethical obligation of any attorney who is consulted by an individual with respect to a vaccine-related injury or death to advise such individual that compensation may be available under the Program for such injury or death.

"PETITIONS FOR COMPENSATION

"SEC. 2111. (a) GENERAL RULE.—

"(1) A proceeding for compensation under the Program for a vaccine-related injury or death shall be initiated by service upon the Secretary and the filing of a petition with the United States district court for the district in which the petitioner resides or in which the injury or death occurred.

"(2)(A) No person may bring a civil action for damages in an amount greater than $1,000 or in an unspecified amount against a vaccine manufacturer in a State or Federal court for damages arising from a vaccine-related injury or death associated with the administration of a vaccine after the effective date of this subtitle, and no such court may award damages in an amount greater than $1,000 in a civil action for damages for such a vaccine-related injury or death, unless—

"(i) a petition has been filed, in accordance with section 2116, under subsection (b) for compensation under the Program for such injury or death,

If a petition is filed under this section with respect to the injury or death for which such civil action was brought, the date such dismissed action was filed shall, for purposes of the limitations of actions prescribed by section 2116, be considered the date the petition was filed if the petition was filed within one year of the date of the dismissal of the civil action.

"(3) No vaccine manufacturer may be made a party to a civil action (other than a civil action which may be brought under paragraph (2)) for damages for a vaccine-related injury or death associated with the administration of a vaccine after the effective date of this subtitle.

"(4) If in a civil action brought against a vaccine manufacturer before the effective date of this subtitle damages were denied for a vaccine-related injury or death or if such civil action was dismissed with prejudice, the person who brought such action may file a petition under subsection (b) for such injury or death.

"(5)(A) A plaintiff who on the effective date of this subtitle has pending a civil action for damages for a vaccine-related injury or death may, at any time within 2 years after the effective date of this title or before judgment, whichever occurs first, elect to withdraw such action without prejudice and file a petition under subsection (b) for such injury or death.

"(B) If a plaintiff who on the effective date of this subtitle had pending a civil action for damages for a vaccine-related injury or death does not withdraw the action under subparagraph (A), such person may not file a petition under subsection (b) for such injury or death.

"(6) If a person brings a civil action after the effective date of this subtitle for damages for a vaccine-related injury or death associated with the administration of a vaccine before the effective date of this subtitle, such person may not file a petition under subsection (b) for such injury or death.

"(7) If in a civil action brought against a vaccine manufacturer for a vaccine-related injury or death damages are awarded under a judgment of a court or a settlement of such action, the person who brought such action may not file a petition under subsection (b) for such injury or death.

"(1)(A) Except as provided in subparagraph (B), any person who has sustained a vaccine-related injury, the legal representative of such person if such person is a minor or is disabled, or the legal representative of any person who died as the result of the administration of a vaccine set forth in the Vaccine Injury Table may file a petition for compensation under the Program.

"(B) No person may file a petition for a vaccine-related injury or death associated with a vaccine administered before the effective date of this subtitle if compensation has been paid under this subtitle for 3500 petitions for such injuries or deaths.

"(2) Only one petition may be filed with respect to each administration of a vaccine.

"(c) PETITION CONTENT.—A petition for compensation under the Program for a vaccine-related injury or death shall contain—

"(B)(i) if such person received a vaccine set forth in the Vaccine Injury Table—

"(I) received the vaccine in the United States or in its trust territories,

"(II) received the vaccine outside the United States or a trust territory and at the time of the vaccination such person was a citizen of the United States serving abroad as a member of the Armed Forces or other-

wise as an employee of the United States or a dependent of such a citizen, or

"(III) received the vaccine outside the United States or a trust territory and the vaccine was manufactured by a vaccine manufacturer located in the United States and such person returned to the United States not later than 6 months after the date of the vaccination,

"(ii) if such person did not receive such a vaccine but contracted polio from another person who received an oral polio vaccine, was a citizen of the United States or a dependent of such a citizen,

"(C)(i) sustained, or had significantly aggravated, any illness, disability, injury, or condition set forth in the Vaccine Injury Table in association with the vaccine referred to in subparagraph (A) or died from the administration of such vaccine, and the first symptom or manifestation of the onset or of the significant aggravation of any such illness, disability, injury, or condition or the death occurred within the time period after vaccine administration set forth in the Vaccine Injury Table, or

"(ii)(I) sustained, or had significantly aggravated, any illness, disability, injury, or condition not set forth in the Vaccine Injury Table but which was caused by a vaccine referred to in subparagraph (A), or

"(II) sustained, or had significantly aggravated, any illness, disability, injury, or condition set forth in the Vaccine Injury Table the first symptom or manifestation of the onset or significant aggravation of which did not occur within the time period set forth in the Table but which was caused by a vaccine referred to in subparagraph (A),

"(D)(i) suffered the residual effects or complications of such illness, disability, injury, or condition for more than 1 year after the administration of the vaccine, (ii) incurred unreimbursable expenses due in whole or in part to such illness, disability, injury, or condition in an amount greater than $1,000, or (iii) died from the administration of the vaccine, and

"(E) has not previously collected an award or settlement of a civil action for damages for such vaccine-related injury or death,

"(2) all available relevant medical records (including autopsy reports, if any) relating to the person who suffered such injury or who died from the administration of the vaccine and an identification of any unavailable records known to the petitioner and the reasons for their unavailability, and

"(3) appropriate assessments, evaluations, and prognoses and such other records and documents as are reasonably necessary for the determination of the amount of compensation to be paid to, or on behalf of, the person who suffered such injury or who died from the administration of the vaccine.

"COURT JURISDICTION

"SEC. 2112. (a) GENERAL RULE.—The district courts of the United States shall have jurisdiction (1) over proceedings to determine if a petitioner under section 2111 is entitled to compensation under the Program and the amount of such compensation, and (2) to issue and enforce such orders as the courts deem necessary to assure the prompt payment of any compensation awarded.

"(b) PARTIES.—

"(1) The Secretary shall be named as the respondent in all proceedings brought by the filing of a petition under section 2111(b). Except as provided in paragraph (2), no other person may intervene in any such proceeding.

"(2) Within 30 days after the Secretary receives service of any petition filed under section 2111 the Secretary shall publish notice of such petition in the Federal Register. The special master designated with respect to such petition under subsection (c) shall afford all interested persons an opportunity to submit relevant, written information—

"(A) relating to the existence of the evidence described in section 2113(a)(1)(B), or

"(B) relating to any allegation in a petition with respect to the matters described in section 2111(c)(1)(C)(ii).

"(c) SPECIAL MASTERS.—

"(1) Following receipt of a petition under subsection (a), the district court of the United States in which the petition is filed shall designate a special master to carry out the functions authorized by paragraph (2).

"(2) A special master shall serve as an adjunct to the court and may—

"(A) require such evidence as may be appropriate for the preparation of proposed findings of fact and conclusions of law with respect to whether compensation is to be provided under the Program and the amount of any such compensation,

"(B) require the submission of such information as may be reasonable and necessary to determine if the petitioner is entitled to compensation,

"(C) require the testimony of any person and the production of any document as may be reasonable and necessary to determine if the petitioner is entitled to compensation,

"(D) conduct such hearings as may be appropriate, and

"(E) prepare and submit to the court proposed findings of fact and conclusions of law.

Information submitted to a special master in a proceeding on a petition may not be disclosed to a person who is not a party to the proceeding without the express, written consent of the person who submitted the information. There may be no discovery in a proceeding on a petition other than the discovery required under this paragraph.

"(d) ACTION BY THE COURT.—

"(1) Upon objection by the petitioner or respondent to the proposed findings of fact or conclusions of law prepared by the special master or upon the court's own motion, the court shall undertake a review of the record of the proceedings and may thereafter make a de novo determination of any matter and issue its judgment accordingly, including findings of fact and conclusions of law, or remand for further proceedings.

"(2) If no objection is filed under paragraph (1) or if the court does not choose to review the proceeding, the court shall adopt the proposed findings of fact and conclusions of law of the special master as its own and render judgment thereon.

"(3) The court shall render its judgment on any petition filed under the Program as expeditiously as practicable but not later than 365 days after the date on which the petition was filed.

"(e) ADMINISTRATION OF AWARD.—The Program shall administer the payments of such compensation. The Program shall audit the payments of compensation under a judgment. A petitioner awarded compensation shall notify the Program of any changes which significantly affect the compensation to be paid.

"(f) REVISION OF AWARD.—

"(1) If the court issues a judgment awarding to a petitioner compensation described in section 2115(a)(1)(A) for unreimbursable expenses and the compensation is insufficient to meet such expenses, such petitioner may petition the court to (A) review such award, and (B) increase the award to make it sufficient to meet such expenses or amend the periodic payment schedule established under section 2115, or both.

"(2) If an audit conducted under subsection (e) discloses the improper use of compensation awarded under a judgment or the termination of a need for an item of compensation, the Program shall petition the court which awarded the compensation to make an appropriate revision in the compensation.

"(g) APPEALS.—The findings of fact and conclusions of law of a district court of the United States on a petition shall be final determinations of the matters involved, except that the Secretary or any petitioner aggrieved by the findings or conclusions of the court may obtain review of the judgment of the court in the United States court of appeals for the circuit in which the court is located upon petition filed with such court of appeals.

"DETERMINATION OF ELIGIBILITY AND COMPENSATION

"SEC. 2113. (a) GENERAL RULE.—

"(1) Compensation shall be awarded under the Program to a petitioner if the court finds on the record as a whole—

"(A) that the petitioner has demonstrated by a preponderance of the evidence the matters required in the petition by section 2111(c)(1), and

"(B) that there is not a preponderance of the evidence that the illness, disability, injury, condition, or death described in the petition is due to factors unrelated to the administration of the vaccine described in the petition.

The court may not make such a finding based on the claims of a petitioner alone, unsubstantiated by medical records or by medical opinion.

"(2) For purposes of paragraph (1), the term 'factors unrelated to the administration of the vaccine'—

"(A) does not include any idiopathic, unexplained, unknown, hypothetical, or undocumentable cause, factor, injury, illness, or condition, and

"(B) may, as documented by the petitioner's evidence or other material in the record, include infection, toxins, trauma (including birth trauma and related anoxia), or metabolic disturbances which have no known relation to the vaccine involved, but which in the particular case are shown to have been the agent or agents principally responsible for causing the petitioner's illness, disability, injury, condition, or death.

"(b) MATTERS TO BE CONSIDERED.—

"(1) In determining whether to award compensation to a petitioner under the Program, the court shall consider, in addition to all other relevant medical and scientific evidence contained in the record—

"(A) any diagnosis, conclusion, medical judgment, or autopsy or coroner's report which is contained in the record regarding the nature, causation, and aggravation of the petitioner's illness, disability, injury, condition, or death, and

"(B) the results of any diagnostic or evaluative test which are contained in the record and the summaries and conclusions.

Any such diagnosis, conclusion, judgment, test result, report, or summary shall not be binding on the court. In evaluating the weight to be afforded to any such diagnosis, conclusion, judgment, test result, report, or summary, the court shall consider the entire record and the course of the injury, disability, illness, or condition until the date of the judgment of the court.

"(2) The court may find the first symptom or manifestation of onset or significant aggravation of an injury, disability, illness, condition, or death described in a petition occurred within the time period described in the Vaccine Injury Table even though the occurrence of such symptom or manifestation was not recorded or was incorrectly recorded as having occurred outside such period. Such a finding may be made only upon demonstration by a preponderance of the evidence that the onset or significant aggravation of the injury, disability, illness, condition, or death described in the petition did in fact occur within the time period described in the Vaccine Injury Table.

"(c) RECORD DEFINED.—For purposes of this section, the term 'record' means the record established by a district court of the United States in a proceeding on a petition filed under section 2111.

"VACCINE INJURY TABLE

"SEC. 2114. (a) INITIAL TABLE.—The following is a table of vaccines, the injuries, disabilities, illnesses, conditions, and deaths resulting from the administration of such vaccines, and the time period in which the first symptom or manifestation of onset or of the significant aggravation of such injuries, disabilities, illnesses, conditions, and deaths is to occur after vaccine administration for purposes of receiving compensation under the Program:

IV. Inactivated Polio Vaccine.	
A. Anaphylaxis or anaphylactic shock.	24 hours
B. Any acute complication or sequela (including death) of an illness, disability, injury, or condition referred to above which illness, disability, injury, or condition arose within the time period prescribed.	Not applicable

"(b) QUALIFICATIONS AND AIDS TO INTERPRETATION.—The following qualifications and aids to interpretation shall apply to the Vaccine Injury Table in subsection (a):

"(1) A shock-collapse or a hypotonic-hyporesponsive collapse may be evidenced by indicia or symptoms such as decrease or loss of muscle tone, paralysis (partial or complete), hemiplegia or hemiparesis, loss of color or turning pale white or blue, unresponsiveness to environmental stimuli, depression of consciousness, loss of consciousness, prolonged sleeping with difficulty arousing, or cardiovascular or respiratory arrest.

"(2) A petitioner may be considered to have suffered a residual seizure disorder if the petitioner did not suffer a seizure or convulsion unaccompanied by fever or accompanied by a fever of less than 102 degrees Fahrenheit Before the first seizure or convulsion after the administration of the vaccine involved and if—

"(A) in the case of a measles, mumps, or rubella vaccine or any combination of such vaccines, the first seizure or convulsion occurred within 15 days after administration of the vaccine and 2 or more seizures or convulsions occurred within 1 year after the administration of the vaccine which were unaccompanied by fever or accompanied by a fever of less than 102 degrees Fahrenheit, and

"(B) in the case of any other vaccine, the first seizure or convulsion occurred within 3 days after administration of the vaccine and 2 or more seizures or convulsions occurred within 1 year after the administration of the vaccine which were unaccompanied by fever or accompanied by a fever of less than 102 degrees Fahrenheit.

"(3)(A) The term 'encephalopathy' means any significant acquired abnormality of, or injury to, or impairment of function of the brain. Among the frequent manifestations of encephalopathy are focal and diffuse neurologic signs, increased intracranial pressure, or changes lasting at least 6 hours in level of consciousness, with or without convulsions. The neurological signs and symptoms of encephalopathy may be temporary with complete recovery, or may result in various degrees of permanent impairment. Signs and symptoms such as high pitched and unusual screaming, persistent unconsolable crying, and bulging fontanel are compatible with an encephalopathy, but in and of themselves are not conclusive evidence of encephalopathy. Encephalopathy usually can be documented by slow wave activity on an electroencephalogram.

"(B) If in a proceeding on a petition it is shown by a preponderance of the evidence that an encephalopathy was caused by infection, toxins, trauma, or metabolic disturbances the encephalopathy shall not be considered to be a condition set forth in the table. If at the time a judgment is entered on a petition filed under section 2111(b) for a vaccine-related injury or death it is not possible to determine the cause, by a preponderance of the evidence, of an encephalopathy, the encephalopathy shall be considered to be a condition set forth in the table. In determining whether or not an encephalopathy is a condition set forth in the table, the court shall consider the entire medical record.

"(4) For purposes of paragraphs (2) and (3), the terms 'seizure' and 'convulsion' include grand mal, petit mal, absence, myoclonic, tonic-clonic, and focal motor seizures and signs. If a provision of the table to which paragraph (1), (2), (3), or (4) applies is revised under subsection (c) or (d), such paragraph shall not apply to such provision after the effective date of the revision unless the revision specifies that such paragraph is to continue to apply.

"(c) ADMINISTRATIVE REVISION OF THE TABLE.—

"(1) The Secretary may promulgate regulations to modify in accordance with paragraph (3) the Vaccine Injury Table. In promulgating such regulations, the Secretary shall provide for notice and opportunity for a public hearing and at least 180 days of public comment.

"(2) Any person (including the Advisory Commission on Childhood Vaccines) may petition the Secretary to propose regulations to amend the Vaccine Injury Table. Unless clearly frivolous, or initiated by the Commission, any such petition shall be referred to the Commission for its recommendations. Following—

"(A) receipt of any recommendation of the Commission, or

"(B) 180 days after the date of the referral to the Commission,

whichever occurs first, the Secretary shall conduct a rulemaking proceeding on the matters proposed in the petition or publish in the Federal Register a statement of reasons for not conducting such proceeding.

"(3) A modification of the Vaccine Injury Table under paragraph (1) may add to, or delete from, the list of injuries, disabilities, illnesses, conditions, and deaths for which compensation may be provided or may change the time periods for the first symptom or manifestation of the onset or the significant aggravation of any such injury, disability, illness, condition, or death.

"(4) Any modification under paragraph (1) of the Vaccine Injury Table shall apply only with respect to petitions for compensation under the Program which are filed after the effective date of such regulation.

"(d) ROLE OF COMMISSION.—Except with respect to a regulation recommended by the Advisory Commission on Childhood Vaccines, the Secretary may not propose a regulation under subsection (c) or any revision thereof, unless the Secretary has first provided to the Commission a copy of the proposed regulation or revision, requested recommendations and comments by the Commission, and afforded the Commission at least 90 days to make such recommendations.

"(e) RECOMMENDATION.—The Secretary may recommend to Congress revisions of the table to change the vaccines covered by the table.

"COMPENSATION

Not later than 3 years after the effective date of this Act, the Secretary shall make and publish in the Federal Register findings similar to those required by subsection (b) and shall, if appropriate, propose similar regulations (and thereafter promulgate such regulations) to those required by subsection (c), with respect to compensation under the National Vaccine Injury Compensation Program established under section 2110 of the Public Health Service Act for radiculoneuritis caused, contributed to, or significantly aggravated by vaccines containing rubella.

(e) PERTUSSIS AND MMR STUDIES.—

(1) In order to assist the Secretary in making the findings required under subsections (b) and (d), the Secretary shall, in accordance with subparagraph (B), arrange for the conduct of studies of—

(A) the relationship between vaccines containing pertussis (including whole cell, extracts, and specific antigens) and the illnesses or conditions set forth in paragraphs (1) through (11) of subsection (a),

(B) the relationship between vaccines containing pertussis and any other illnesses and conditions, as selected by the Secretary or the Advisory Commission on Childhood Vaccines established under section 2119 of the Public Health Service Act, and

(C) the relationship between vaccines containing rubella (including MMR) and radiculoneuritis.

(2)(A) The Secretary shall request the Institute of Medicine of the National Academy of Sciences to conduct the studies required by paragraph (1) under an arrangement by which the actual expenses incurred by such Academy in conducting such study will be paid by the Secretary.

(B) If the Institute of Medicine is unwilling to conduct such study under such an arrangement, the Secretary shall enter into a similar arrangement with other appropriate nonprofit private groups or associations under which such groups or associations will conduct such study and prepare and submit the reports thereon as provided in paragraph (3).

(C) The Institute of Medicine or other group or association conducting the studies required by paragraph (1) shall conduct such studies in consultation with the Advisory Commission on Childhood Vaccines established under section 2119 of the Public Health Service Act.

(3) Reports on the results of the studies required by paragraph (1) shall be completed and submitted to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate and to the Secretary not later than 32 months after the effective date of this Act. Upon submission to the Secretary, the reports shall be made available to the public.

(4) There are authorized to be appropriated such sums as are necessary for the purpose of making payments for the conduct of the studies required under this subsection.

(f) DEFINITIONS.—For purposes of this section:

(1) The term "medical and scientific information" includes epidemiologic, clinical, biostatistical, pathological, toxicologic, and other laboratory data and case study information, observations, studies, and reports in peer-reviewed literature or official Government publications, as well as relevant unpublished information, data, studies, and observations.

(2) The term "MMR" means a vaccine containing material intended to prevent or confer immunity against measles, mumps, and rubella disease.

SEC. 103. STUDY OF OTHER VACCINE RISKS.

(a) STUDY.—

(1) Not later than 3 years after the effective date of this Act, the Secretary shall, after consultation with the Advisory Commission on Childhood Vaccines established under section 2119 of the Public Health Service Act—

(A) arrange for a broad study of the risks (other than the risks considered under section 102) to children associated with each vaccine set forth in the Vaccine Injury Table under section 2114 of such Act, and

(B) establish guidelines, after notice and opportunity for public hearing and consideration of all relevant medical and scientific information, respecting the administration of such vaccines which shall include—

(i) the circumstances under which any such vaccine should not be administered,

(ii) the circumstances under which administration of any such vaccine should be delayed beyond its usual time of administration, and

(iii) the groups, categories, or characteristics of potential recipients of such vaccine who may be at significantly higher risk of major adverse reactions to such vaccine than the general population of potential recipients.

(2)(A) The Secretary shall request the Institute of Medicine of the National Academy of Sciences to conduct the study required by paragraph (1) under an arrangement by which the actual expenses incurred by such Academy in conducting such study will be paid by the Secretary.

(B) If the Institute of Medicine is unwilling to conduct such study under such an arrangement, the Secretary shall enter into a similar arrangement with other appropriate nonprofit private groups or associations under which such groups or associations will conduct such study.

(C) The Institute of Medicine or other group or association conducting the study required by paragraph (1) shall conduct such studies in consultation with the Advisory Commission on Childhood Vaccines established under section 2119 of the Public Health Service Act.

(b) REVISION OF GUIDELINES.—The Secretary shall periodically, but at least every 3 years after establishing guidelines under subsection (a), review and revise such guidelines after notice and opportunity for public hearing and consideration of all relevant medical and scientific information, unless the Secretary finds that on the basis of all relevant information no revision of such guidelines is warranted and publishes such finding in the Federal Register.

(c) FACTORS AFFECTING GUIDELINES.—Guidelines under subsection (a) shall take into account—

(1) the risk to potential recipients of the vaccines with respect to which the guidelines are established,

(2) the medical and other characteristics of such potential recipients, and

(3) the risks to the public of not having such vaccines administered.

(d) DISSEMINATION.—The Secretary shall widely disseminate the guidelines established under subsection (a) to—

(1) physicians and other health care providers,

(2) professional health associations,

(3) State and local governments and agencies, and

(4) other relevant entities.

SEC. 104. REVIEW OF WARNINGS, USE INSTRUCTIONS, AND PRECAUTIONARY INFORMATION.

Not later than 1 year after the effective date of this Act and after consultation with the Advisory Commission on Childhood Vaccines established under section 2119 of the Public Health Service Act and with other appropriate entities, the Secretary of Health and Human Services shall review the warnings, use instructions, and precautionary information presently issued by manufacturers of vaccines set forth in the Vaccine Injury Table set out in section 2114 of the Public Health Service Act and shall by rule determine whether such warnings, instructions, and information adequately warn health care providers of the nature and extent of dangers posed by such vaccines. If the Secretary determines that any such warning, instruction, or information is inadequate for such purpose in any respect, the Secretary shall at the same time require the manufacturers to revise and reissue such warning, instruction, or information as expeditiously as practical, but not later than 18 months after the effective date of this Act.

An order under this paragraph shall be issued in accordance with section 554 of title 5, United States Code.

"(B) Any violation of subparagraph (A) shall subject the violator to a civil penalty of up to $100,000 per day of violation. The amount of a civil penalty under this subparagraph shall, effective December 1 of each year beginning 1 year after the effective date of this subparagraph, be increased by the percent change in the Consumer Price Index for the base quarter of such year over the Consumer Price Index for the base quarter of the preceding year, adjusted to the nearest ⅒ of 1 percent. For purposes

of this subparagraph, the term 'base quarter', as used with respect to a year, means the calendar quarter ending on September 30 of such year and the price index for a base quarter is the arithmetical mean of such index for the 3 months comprising such quarter.".

SEC. 106. STUDY OF IMPACT ON SUPPLY OF VACCINES.

On June 30, 1987, and on June 30 of each second year thereafter, the Secretary of Health and Human Services shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate—

(2) an assessment of the ability of the administrators of vaccines (including public clinics and private administrators) to provide such vaccines to children.

The SPEAKER pro tempore. Is a second demanded?

Mr. MADIGAN. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from California [Mr. WAXMAN] will be recognized for 20 minutes, and the gentleman from Illinois [Mr. MADIGAN] will be recognized for 20 minutes.

The Chair recognizes the gentleman from California [Mr. WAXMAN].

GENERAL LEAVE

Mr. WAXMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 5546, the bill presently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. WAXMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 5546 is designed to achieve two goals: first, to protect the adequacy of the Nation's supply of vaccines against such diseases as polio and measles; and second, to compensate those children who are injured by side effects or adverse reactions to those vaccines.

This bipartisan legislation is strongly supported by a coalition of groups representing parents, health professionals, and industry. Supporters include the National PTA, the American Academy of Pediatrics, Merck & Co., the American Nurses' Association, Dissatisifed Parents Together, and others.

This legislation is necessary because the vaccines that protect us from epidemics of childhood diseases also cause injuries to a small number of children. Many of the families of these children have been turning to the courts for relief. Some of them have won—sometimes millions of dollars. Many more have lost. Those who lose are left to fend for themselves on Medicaid or disability or whatever else may be available.

But the litigation costs and the occasional large award have made pharmaceutical firms nervous about the vaccine market. One result, they say, is that they are forced to increase prices drastically or simply to get out of the market. Prices on some vaccines have risen 500 percent in the past 2 years.

We cannot afford to be without a supply of vaccines for childhood illnesses.

H.R. 5546 would establish a no-fault compensation system to pay for the medical, rehabilitation, and education costs of those children who are injured. If the injuries were particularly severe, the program would pay for lost earnings of the disabled child and for the pain and suffering that he or she endures.

In turn, the bill would limit that child's ability to sue the manufacturer of the vaccine. If an injury is the result of a bad vaccine or one inadequately researched or warned of, then the courts could still make awards. But those children who are the innocent statistics of the necessary war on such diseases as polio or whooping cough would not have to go to court to get their medical bills paid.

The original bill provided that the compensation program was to be paid for through an excise tax on vaccines, set on the basis of how many reactions each type of vaccine causes. Unfortunately, the Committee on Ways and Means has not considered the tax portions of the bill, and the substitute bill to be considered today contains no excise tax. I hope that in the few days remaining in this Congress that the Ways and Means Committee will still consider legislation to create a vaccine injury tust fund and excise tax to fund it. This tax legislation is needed to make the programs effective and the need for the programs is urgent. The substitute instead specifies that the compensation program and the tort limitations are to become effective when a tax is enacted to pay for compensation expenses. Whenever this tax is made law, we can act expeditiously to begin the work of this important system.

I urge your support of the legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. MADIGAN. Mr. Speaker, I yield such time as he may consume to the gentleman from Iowa [Mr. TAUKE], a member of the committee, who has been most instrumental in developing this legislation.

Mr. TAUKE. Mr. Speaker, I rise in strong support of the National Childhood Vaccine Injury Act. As a new father I have a personal interest in ensuring that our Nation has an adequate supply of safe, effective, and affordable childhood vaccines. Members of the Subcommittee on Health and the Environment are aware of repeated crises and threats of crises in vaccine supplies. I have received testimony from many families struggling to provide for children who have been injured by vaccines.

Our passage of the National Childhood Vaccine Injury Act today will help to ensure this Nation's supply of safe, effective, affordable childhood vaccines. It will provide assistance to those who have been injured by vaccines without forcing them to go through a lengthy, costly, and unpredictable court proceeding.

As this bill was reported by the Energy and Commerce Committee, its provisions extended assistance to those injured by vaccines only up to 8 years before enactment. A number of individuals brought to my attention their interest in modifying this legislation to cover individuals older than 8 years of age. I am pleased to report that these modifications have been made. The legislation before you extends coverage retrospectively to all individuals who can demonstrate vaccine-related injuries. To achieve this broader coverage, those injured before the enactment of the legislation will generally be eligible for economic damages only. Those injured after enactment will be eligible for a fuller range of compensation.

This is a carefully crafted, much needed bill. Please join me in voting for a strong National Childhood Vaccination Program and for much-needed assistance for those who have been injured by vaccines.

Mr. Speaker, I commend the gentleman from California [Mr. WAXMAN] and the gentleman from Illinois [Mr.

MADIGAN] for their leadership in bringing this legislation to the floor.

Mr. WAXMAN. Mr. Speaker, I yield such time as he may consume to the chairman of the Committee on Energy and Commerce, the gentleman from Michigan [Mr. DINGELL].

Mr. DINGELL. Mr. Speaker, vaccines to prevent human disease are the critical element of the most effective health programs in the world: Immunization. Unfortunately, a combination of circumstances has come together to make it difficult for the Nation and the world to take full advantage of vaccines. Vaccine prices have risen rapidly; the number of vaccine manufacturers has fallen steadily. The most disturbing fact is that vaccine development and commercialization have failed to keep pace with the new scientific opportunities to produce new and improved vaccines.

H.R. 5546 meets the competing needs of compensation for vaccine injury and tort reform. It strikes a balance between profit and public health, between doctors and lawyers, between insurance companies and injured children.

The establishment of a National Vaccine Program will help ensure a full commitment by the Federal Government to the research, development and delivery of vaccines.

This is timely and needed legislation. I urge my colleagues to support it.

Mr. MADIGAN. Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota [Mr. FRENZEL].

Mr. FRENZEL. Mr. Speaker, I would like to ask a question of the distinguished ranking member of the committee: As I understand this bill, because of the absence of funding because the Committee on Ways and Means did not take action, the portion of the bill that refers to damages and claims, et cetera, will not take effect; and so most of this bill will not be effective. Is that true?

Mr. MADIGAN. Mr. Speaker, if the gentleman will yield, the statement of the gentleman from Minnesota is correct.

There is a provision in the bill for the establishment of a commission that would take effect; but the other things within the bill would not take effect until the Committee on Ways and Means has brought out a bill to provide for the funding mechanism required in the bill.

Mr. FRENZEL. I thank the distinguished gentleman from Illinois.

□ 1445

Mr. WAXMAN. Mr. Speaker, I yield such time as he may consume to my colleague, the gentleman from California [Mr. MATSUI].

Mr. MATSUI. I thank the gentleman.

I would just like to say that I want to congratulate both Mr. WAXMAN and others for putting together the coalition on this vaccination bill. I think it is a far-reaching piece of legislation, a piece of legislation that should indeed become law.

Mr. Speaker, I want to commend all of the people who worked on this legislation. I know how difficult it was to put this coalition together and to maintain it.

As a member of the Committee on Ways and Means, I am still hopeful that in the last few days of this session we will be able to get a hearing and hopefully be able to get a markup on this bill because I frankly think we really cannot wait for another year or 6 months to go by because of the need to provide a liability standard for many of the drug manufacturers and also for the young people who are inoculated on a mandatory basis. At the same time, I would say if we cannot get this legislation out of the Committee on Ways and Means this year, I am hopeful we will be able to do it in early 1987. Too much effort and time and involvement have gone into this legislation to see this part of it, that is the excise tax part of it, not be part of the bill itself. So I would just like to commend the gentleman from California [Mr. WAXMAN] and others who worked on this legislation.

Mr. MADIGAN. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. ECKERT] a member of the committee.

Mr. ECKERT of New York. I thank the gentleman for yielding.

Mr. Speaker, I want to thank the ranking member of the committee, and I want to join in congratulating my friend and colleague from California, Mr. WAXMAN, also Chairman DINGELL, Mr. MADIGAN, the ranking member, for the work that has come forth today on this very important piece of legislation. I am proud to be a cosponsor of this measure.

Back in my district in Rochester, NY, we have just recently had some startling news stories about the crisis in vaccine availability.

I remember back in July participating in our hearings with Chairman WAXMAN about this critical issue, this very important public health issue that is facing the country, about which there has been little notice in the press, in the news media generally.

I am proud of our subcommittee and proud of our full committee for bringing this important issue to the floor. It is an issue that will be of benefit to the children of my district, the children of America and their families, and it is an insurance policy for our country against the reoccurance of some dangerous threats to the health and safety of children.

I am proud to have been a participant, proud to be a cosponsor of this legislation and look forward to the Committee on Ways and Means completing its work on its share of the package so that we do have a comprehensive system that will benefit our children and all American families.

Mr. WAXMAN. Mr. Speaker, I yield myself such time as I may consume.

In closing, I want to point out there are many people who should be commended for this legislation coming to the House today: Mr. MADIGAN, the ranking Republican member of our subcommittee, has worked diligently on this legislation; Mr. TAUKE; Mr. ECKERT of New York; and I particularly want to single out Chairman DINGELL. His Oversight Subcommittee looked into the problems of encouraging new vaccine development, and part of this legislation has incorporated their recommendations.

That part of the legislation, I think will benefit American people for many, many years to come as we give new incentives for new vaccines to be developed that will prevent diseases which can be prevented from occurring.

I want to thank our staff, Tim Westmoreland, Ruth Katz, Bob Adler, and our staff director Karen Nelson.

Mr. Speaker, I yield back the balance of our time.

Mr. MADIGAN. Mr. Speaker, I yield such time as he may consume to the gentleman from California [Mr. LAGOMARSINO].

Mr. LAGOMARSINO. I thank the gentleman for yielding.

Mr. Speaker, I want to commend Mr. WAXMAN, Mr. MADIGAN, the chairman of the full committee, Mr. DINGELL, and all the others who have brought this bill before us today.

This bill does address a real problem, one that does have a Federal interest and one that needs to be solved.

I think while most people would agree that this bill of itself will not solve the problem, it sure is a good step in the right direction and hopefully the other steps will be taken and we can solve this problem which is so important to our Nation's children.

Mr. MADIGAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I, too, want to rise and acknowledge the diligent work of Mr. DINGELL, Mr. WAXMAN, Mr. TAUKE, Mr. WYDEN, Mr. ECKERT of New York, and others, and I also want to acknowledge the valuable assistance particularly with regard to the staff level negotiations which was provided to us by Mr. Mason, Mr. Allen, and Ms. Riker.

Mr. Speaker, I rise in strong support of H.R. 5546.

Mr. BIAGGI. Mr. Speaker, I rise in strong support of this bill, H.R. 5546, the National Childhood Vaccine Injury Act.

Our Nation is now facing a grave dilemma. On the one hand, we require our children to be vaccinated against a number of life-threat-

ening illnesses. These vaccines have significantly reduced the incidence of serious childhood diseases. However, with the increased use of these vaccines has also come a growing concern about vaccine-related injuries and deaths. Particularly troubling, are the decisions by some vaccine-producing pharmaceutical companies to get out of the business rather than face potential high-dollar legal penalties for vaccine-related injuries or deaths. The result has been the decreased availability of vaccines; as much as a 500-percent increase in the cost of vaccines over the last few years; and a continuing concern about the safety of vaccines.

The legislation before us today offers us a solution to this dilemma. This is clearly demonstrated by the fact that H.R. 5546 has the support of parents, health professionals, and the vaccine industry—and for good reason. The bill establishes a fair compensation system for children injured by vaccines, without unduly burdening the vaccine manufacturer; and it establishes a recordkeeping and research mechanism aimed at improving the effectiveness and safety of future vaccines. I want to also point out that this is a perfected version of legislation introduced earlier this year.

The major provisions of H.R. 5546 would:

Establish a Federal "no fault" system of compensation, to be administered by the Health and Human Services Department, for persons injured as a result of routine childhood vaccinations. Compensation under the new system would be available for the costs of medical and rehabilitative care, lost earnings, and pain and suffering. Death benefits would also be available. The legislation fixes death benefits at $250,000, and sets a limit of $250,000 on awards for pain, suffering, and emotional distress. Compensation would also be available for attorneys' fees. These dollar limits would be adjusted for inflation.

Establish a national vaccine injury compensation trust fund to provide money for the new compensation program. The trust fund would be comprised of receipts from an excise tax on the sale of childhood vaccines, amounts recovered from third parties for vaccine-related injuries, and loans from the general fund of the U.S. Treasury.

Limit the number of lawsuits against vaccine manufacturers. Once a final decision has been made under the new compensation system, the claimant would have 90 days to decide whether to accept or reject the award. If the compensation award is accepted, the claimant may not brng a separate lawsuit for damages against the vaccine manufacturer. Otherwise, claimants would be allowed to pursue legal action against the manufacturer. However, the bill provides that manufacturers will not be liable for injuries or deaths resulting from unavoidable side effects if the vaccine was properly prepared and accompanied by the proper directions and warnings.

Create a National Vaccine Program within the Department of Health and Human Services. This program would seek to coordinate Federal efforts in the areas of research, development, testing, licensing, production and distribution, and for development of a national vaccine plan.

Require both health care providers and vaccine manufacturers to report to the Department of Health and Human Services on the occurrence of any adverse vaccine reactions.

Require the Department of Health and Human Services to develop and disseminate informational materials for various vaccines describing their purposes, the potential for adverse reactions, and the reporting mechanisms that should be followed if adverse reactions do occur.

Mr. Speaker, this is a carefully crafted solution to a very difficult and serious problem. It provides compensation when appropriate. It imposes reasonable limits on the liability of vaccine manufacturers. And, most importantly of all, it establishes a National Vaccine Program, which seeks to make future vaccines safer. Clearly, this is a bill worthy of our overwhelming support.

Mr. SCHEUER. Mr. Speaker, I rise in strong support of this vaccine compensation legislation.

We have all witnessed the enormous impact immunization has had on the health of children in this country, virtually eliminating many childhood diseases that had plagued us.

Some children are undoubtedly injured by vaccines, but childhood immunizations have proven their value, and deserve to be protected.

Currently, insurance, liability, and manufacturer's pricing structures are threatening to price vaccines out of the market.

Additionally, as a result of tort law restrictions and adversary proceedings, many of those children who are injured by vaccines are never compensated.

We in Congress must act to preserve the vaccine market and provide for those who have adverse reactions to vaccines.

The value of vaccines is such that to do any less would be irresponsible.

This legislation takes the necessary steps to address these concerns.

The bill will: First, assure parents of a safe, adequate and affordable supply of childhood vaccines; second, provide for a fair system of compensation for children who are inadvertently injured; and third, promote vaccine research for new and improved vaccines.

Passage of this bill is necessary so that our children will have continued access to these required vaccines in both public and private sectors of medicine.

The current jump in vaccine prices is compromising both systems, and the losers in this process will ultimately be our children.

This legislation represents a major step towards securing a future that is free of preventable disease, and I commend the efforts of Representative WAXMAN for bringing this bill to the floor today.

The bill has broad, bipartisan support.

In addition, the bill is supported by pediatricians, parent groups, public health groups, trial attorneys, and the largest of the vaccine manufacturers.

I urge its passage.

Mr. MADIGAN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. RANGEL). The question is on the motion offered by the gentleman from California [Mr. WAXMAN] that the House suspend the rules and pass the bill, H.R. 5546, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

HEALTH CARE QUALITY IMPROVEMENT ACT OF 1986

Mr. WAXMAN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5540) to encourage good faith professional review activities of health care entities, to require collection and dissemination to hospitals and other health care providers of information concerning certain payments in medical malpractice claims and certain adverse decisions, and for other purposes, as amended.

(3) after adequate notice and hearing procedures are afforded to the physician involved or after such other procedures as are fair to the physician under the circumstances, and

(4) in the reasonable belief that the action was warranted by the facts known after such reasonable effort to obtain facts and after meeting the requirement of paragraph (3).

A professional review action shall be presumed to have met the standards necessary for the protection set out in section 101(a) unless the presumption is rebutted by a preponderance of the evidence.

(b) ADEQUATE NOTICE AND HEARING.—A health care entity is deemed to have met the adequate notice and hearing requirement of subsection (a)(3) with respect to a physician if the following conditions are met (or are waived voluntarily by the physician):

(1) NOTICE OF PROPOSED ACTION.—The physician has been given notice stating—

(A)(i) that a professional review action has been proposed to be taken against the physician,

(ii) reasons for the proposed action,

(B)(i) that the physician has the right to request a hearing on the proposed action,

(ii) any time limit (of not less than 30 days) within which to request such a hearing, and

(C) a summary of the rights in the hearing under paragraph (3).

(2) NOTICE OF HEARING.—If a hearing is requested on a timely basis under paragraph (1)(B), the physician involved must be given notice stating—

(A) the place, time, and date, of the hearing, which date shall not be less than 30 days after the date of the notice, and

(B) a list of the witnesses (if any) expected to testify at the hearing on behalf of the professional review body.

(3) CONDUCT OF HEARING AND NOTICE.—If a hearing is requested on a timely basis under paragraph (1)(B)—

(A) subject to subparagraph (B), the hearing shall be held (as determined by the health care entity)—

(i) before an arbitrator mutually acceptable to the physician and the health care entity,

(ii) before a hearing officer who is appointed by the entity and who is not in direct economic competition with the physician involved, or

(iii) before a panel of individuals who are appointed by the entity and are not in direct economic competition with the physician involved;

(B) the right to the hearing may be forfeited if the physician fails, without good cause, to appear;

(C) in the hearing the physician involved has the right—

(i) to representation by an attorney or other person of the physician's choice,

(ii) to have a record made of the proceedings, copies of which may be obtained by the physician upon payment of any reasonable charges associated with the preparation thereof,

(iii) to call, examine, and cross-examine witnesses,

(iv) to present evidence determined to be relevant by the hearing officer, regardless of its admissibility in a court of law, and

(v) to submit a written statement at the close of the hearing; and

(D) upon completion of the hearing, the physician involved has the right—

(i) to receive the written recommendation of the arbitrator, officer, or panel, including a statement of the basis for the recommendations, and

(ii) to receive a written decision of the health care entity, including a statement of the basis for the decision.

A professional review body's failure to meet the conditions described in this subsection shall not, in itself, constitute failure to meet the standards of subsection (a)(3).

(c) ADEQUATE PROCEDURES IN INVESTIGATIONS OR HEALTH EMERGENCIES.—For purposes of section 101(a), nothing in this section shall be construed as—

(1) requiring the procedures referred to in subsection (a)(3)—

(A) where there is no adverse professional review action taken, or

(B) in the case of a suspension or restriction of clinical privileges, for a period of not longer than 14 days, during which an investigation is being conducted to determine the need for a professional review action; or

(2) precluding an immediate suspension or restriction of clinical privileges, subject to subsequent notice and hearing or other adequate procedures, where the failure to take such an action may result in an imminent danger to the health of any individual.

SEC. 103. PAYMENT OF REASONABLE ATTORNEYS' FEES AND COSTS IN DEFENSE OF SUIT.

In any suit brought against a defendant, to the extent that a defendant has met the standards set forth under section 101 and the defendant substantially prevails, the court shall, at the conclusion of the action, award to a substantially prevailing party defending against any such claim the cost of the suit attributable to such claim, including a reasonable attorney's fee, if the claim, or the claimant's conduct during the litigation of the claim, was frivolous, unreasonable, without foundation, or in bad faith. For the purposes of this paragraph, a defendant shall not be considered to have substantially prevailed when the plaintiff obtains an award for damages or permanent injunctive or declaratory relief.

SEC. 104. GUIDELINES OF THE SECRETARY.

The Secretary may establish, after notice and opportunity for comment, such voluntary guidelines as may assist the professional review bodies in meeting the standards described in section 102(a).

(2) once every 2 years information reported under this title concerning any physician or such practitioner who is on the medical staff (courtesy or otherwise) of, or has been granted clinical privileges at, the hospital. A hospital may request such information at other times.

GENERAL LEAVE

Mr. WAXMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on this legislation.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. WAXMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to bring before the House H.R. 5540, the Health Care Quality Improvement Act of 1986. This legislation is designed to encourage physicians to identify and discipline other physicians who are incompetent or who engage in unprofessional behavior. Although the number of bad doctors is probably small, we know from numerous examples that they can be very harmful.

Under H.R. 5540, hospitals and physicians that conduct peer review will be protected from damages in suits by physicians who lose their hospital privileges provided the peer review actions meet the standards established in the bill. In addition, hospitals and physicians that discipline doctors will be required to report these disciplinary actions to the State medical boards, who then must forward this information to the Secretary of Health and Human Services. The bill further requires hospitals to seek this information from the Secretary before granting clinical privileges to physicians. The bill also requires paid malpractice claims to be reported to the Secretary. All reports to the Secretary could be made instead to a qualified private entity; at the Secretary's discretion.

The immunity provisions do not apply to violations of the civil rights laws, or to actions brought by the Justice Department, the Federal Trade Commission, the Equal Employment Opportunity Commission, or State attorneys general.

An important aspect of the medical malpractice problem is the difficulty in identifying and disciplining incompetent and unprofessional physicians. Unfortunately, groups such as State licensing boards, hospitals, and medical societies that should be weeding out incompetent or unprofessional doctors often do not do so.

This bill focuses on those instances in which physicians injure patients through incompetent or unprofessional service, are identified as incompetent or unprofessional by their medical colleagues, but are dealt with in a way that allows them to continue to injure patients. The reporting system in this legislation would virtually end the ability of incompetent doctors to skip from one jurisdiction to another without detection.

The limited immunity provided under this bill is essential to encourage physicians and hospitals to participate in conducting effective peer review. The immunity provisions have been restricted so as not to protect illegitimate actions taken under the guise of furthering the quality of health care. Actions that violate civil rights laws or actions that are really taken for anticompetitive purposes will not be protected under this bill.

As floor manager for the bill H.R. 5540, the Health Care Quality Improvement Act of 1986, submits on behalf of the Committee on Energy and Commerce the following comments concerning changes in the bill made subsequent to the filing of the report (99-903, part I) on the bill by the Committee on Energy and Commerce. These amendments were developed largely in response to concerns raised by the Committee on the Judiciary.

AMENDMENT NO. 1

Page 2, line 8, insert "all" after "meets".

This amendment clarifies the requirement that the standards of section 102(a) must be met in full to receive the protections provided under section 101(a).

AMENDMENT NO. 2

Page 3, at the end of line 5, insert the following new sentences:

"The preceding sentence shall not apply to any matter that constitutes a violation of any law of the United States or any State relating to the civil rights of any person or persons, including the Civil Rights Act of 1964, 42 U.S.C. 2000e, et seq., this paragraph shall prevent the United States or any Attorney General of a State from bringing an action, including an action under section 4C of the Clayton Act, 15 U.S.C. 15C, where such an action is otherwise authorized.".

This amendment changes the bill to limit its protections under subsection 101(a)(1) to laws other than civil rights laws. The bill was never intended to shield racist disciplinary actions couched as intended to promote the quality of care. Nevertheless, because of concerns raised by the chairman of the Judiciary Committee's Subcommittee on Civil and Constitutional Rights, the Energy and Commerce Committee has agreed to this amendment in order to avoid any possibility of a misinterpretation.

Similar considerations with regard to possible abuse of professional review actions against health care professionals who are not physicians led to an earlier modification of the bill limiting its effect solely to peer reviews of individual physicians. In that case, the Committee on Energy and Commerce emphasized that the modification was not in any way intended to discourage legitimate actions against nonphysician practitioners who are incompetent or unprofessional.

Similarly, the exclusion of protection from civil rights suits is in no way intended to discourage professional review actions against incompetent or unprofessional physicians simply because they belong to a group protected under the civil rights laws. Moreover, nothing in their amendment expands in any way the substance or application of civil rights laws. Hospitals and professional reviewers should have no liability so long as their professional review actions are taken for appropriate reasons and do not constitute a violation of the civil rights laws.

This amendment further clarifies that nothing in H.R. 5540 is intended to affect the legal authority of the United States or any attorney general of a State to bring an action that is otherwise authorized. The bill neither expands nor narrows the authority of the United States and State attorneys general.

AMENDMENT NO. 3

Page 3, beginning on line 24, strike "shall suspend" and all that follows through page 4, line 4, and insert the following: "shall publish the name of the entity in the Federal Register. The protections of subsection (a)(1) shall not apply to an entity the name of which is published in the Federal Register under the previous sentence with respect to professional review actions of the entity commenced during the 3-year period beginning 30-days after the date of publication of the name.".

Page 14, line 23, strike "shall" and all that follows through line 24 and insert "shall lose the protections of section 101(a)(1) if the Secretary publishes the name of the entity under section 101(b).".

This amendment addresses concerns raised by the Judiciary Committee with regard to the provision for suspending health care entities from the protections of the bill. The amendment specifies that the Secretary of the Department of Health and Human Services shall make findings with respect to compliance by health care entities with the reporting requirements of section 203(a) and shall publish those findings in the Federal Register. Any entity that the Secretary determines has failed substantially to

report information in accordance with that section is automatically suspended from the protections of section 101(a) for a period of 3 years.

AMENDMENT NO. 4

Page 5, line 10, strike "10" and insert "30".
Page 5, line 18, strike "10" and insert "30".

This amendment extends from 10 days to 30 days the minimum period during which a physician has the right to request a hearing on a proposed professional review action, and similarly extends the minimum period between notice of a professional review action and the hearing date. It is expected that reasonable requests by the physician for extensions of these periods will be granted. This amendment is made in response to testimony before the Judiciary Committee's Subcommittee on Civil and Constitutional Rights questioning the adequacy of the time periods specified in the bill as reported by the Committee on Energy and Commerce.

AMENDMENT NO. 5

Page 4, line 6, strike "The" and all that follows through "taken" on line 8 and insert: "For purposes of the protection set forth in section 101(a), a professional review action must be taken".

This amendment clarifies that the protections of section 101(a) are available only for professional review actions that meet the standards of section 102(a).

AMENDMENT NO. 6

Page 4, line 13, strike out "due process" and insert "notice and hearing procedures are afforded".

Page 4, line 14, insert before the comma the following: "or after such other procedures as are fair to the physician under the circumstances".

Page 4, line 17, strike "such due process" and insert "meeting the requirement of paragraph (3)".

Page 4, line 22, strike "DUE PROCESS PROCEDURES" and insert "NOTICE AND HEARING".

Page 4, line 23, insert "adequate notice and hearing" before "requirement".

Page 7, line 22, strike "DUE PROCESS" and insert "ADEQUATE PROCEDURES".

Page 8, line 1, strike "due process" and insert "procedures".

Page 8, beginning on line 11, strike "due process" and insert "notice and hearing or other adequate procedures".

This amendment responds to concerns raised by the Committee on the Judiciary with regard to references to "due process" in the bill. These provisions are now referred to in the amendment as "notice and hearing requirements." The substantive provisions remain unchanged. This change in terminology is intended to preclude the implication that the bill defines "due process" for any purpose beyond the purview of the bill.

The amendment further clarifies that procedures other than the ones specified in the bill, but which are generally recognized by courts to be fair to physicians under the circumstances shall also meet the standards of section 102(a). This clarification is to address the apparent confusion of several witnesses before the Judiciary Committee's Subcommittee on Civil and Constitutional Rights as to whether any adequate procedures are in fact required by the bill. The bill establishes a set of notice and hearing procedures that, if met, are adequate for the purposes of meeting the standards of section 102(a). Any other procedures that are afforded to a physician must be those generally recognized by the courts to be fair to the physician under the circumstances. Procedures that do not meet either test would not satisfy the requirements of section 102(a).

AMENDMENT NO. 7

Page 4, amend lines 18 through 21 to read as follows:

A professional review action shall be presumed to have met the standards necessary for the protection set out in section 101(a) unless the presumption is rebutted by a preponderance of the evidence.

This amendment clarifies the requirements for the presumption that defendants are afforded with regard to professional review actions. As adopted by the Committee on Energy and Commerce, the presumption applied only to the requirement that a professional review action be taken in the reasonable belief that the action was in the furtherance of quality health care. The presumption could only be overcome by clear and convincing evidence to the contrary.

This approach generated substantial confusion during hearings before the Judiciary Committee's Subcommittee on Civil and Constitutional Rights. A number of persons appeared to read this provision as applying a presumption that could only be overcome by clear and convincing evidence to all the standards of section 101(a), rather than simply to the single standard concerning quality of care.

As adopted by the Committee on Energy and Commerce, the legislative language also permitted another unintended interpretation, viz., that the other three standards would have to be pleaded and proved by the defendant as an affirmative defense. Such an interpretation would have shifted the normal burden of proof for civil trials and was never intended by the Committee on Energy and Commerce. Similarly, nothing in this bill is intended to expand or narrow current discovery rights under State or Federal laws.

This amendment is intended to clarify and simplify the requirements concerning the burden and standard of proof. All four standards are now treated similarly. The standard concerning whether the action was in furtherance of the quality of care still has the benefit of a presumption, but now that presumption is to be overcome by a preponderance of the evidence. Similarly, the amendment now makes clear that the burden of proof with respect to the other three standards is the same as that for subsection 102(a)(1) and rests on the plaintiff, not the defendant or defendants.

The amendment emphasizes the importance of resolving the issue of immunity in as expeditious a manner as possible, as noted by the Committee on Energy and Commerce on page 12 of the report accompanying H.R. 5540. The amendment simplifies the rules for determining whether a professional review action meets the standards required for immunity from damages, and should permit a court to make an early finding in that regard.

AMENDMENT NO. 8

Page 8, amend lines 17 through 24 to read as follows:

In any suit brought against a defendant, to the extent that a defendant has met the standards set forth under section 101 and the defendant substantially prevails, the court shall, at the conclusion of the action, award to a substantially prevailing party defending against any such claim the cost of the suit attributable to such claim, including a reasonable attorney's fee, if the claim, or the claimant's conduct during the litigation of the claim, was frivolous, unreasonable, without foundation, or in bad faith. For the purposes of this paragraph, a defendant shall not be considered to have substantially prevailed when the plaintiff obtains an award for damages or permanent injunctive or declaratory relief.

This amendment deletes any reference to awards of fees to a prevailing plaintiff. Such awards, if made, will arise under existing law. The amendment further establishes specific circumstances under which substantially prevailing defendants who can demonstrate that they have met the standards under section 101 are entitled to attorneys' fees and costs.

The amendment also clarifies circumstances in which a defendant shall not be considered to have substantially prevailed. This clarification is to address some confusion apparent during the hearings before the Judiciary Committee's Subcommittee on Civil and Constitutional Rights. Some persons apparently read the bill as reported by the Committee on Energy and Commerce to permit award of attorneys' fees even when the plaintiff obtained substantial relief. H.R. 5540 was never intended to permit this interpretation, and this amendment should clarify that intention.

AMENDMENT NO. 9

Page 9, after line 19, insert the following new subsection:

(d) TREATMENT OF PATIENT MALPRACTICE CLAIMS.—Nothing in this title shall be construed as limiting in any manner the rights and remedies afforded patients under any provision of Federal or State law to seek redress for any harm or injury suffered as a result of negligent treatment or care by any physician, health care practitioner, or health care entity, or as limiting any defenses or immunities available to any physi-

cian, health care practitioner, or health care entity.

This amendment clarifies that the rights and remedies of patients, and the defenses and immunities of defendants with regard to malpractice claims are not affected by this legislation. This amendment is consistent with the related comments by the Committee on Energy and Commerce beginning on page 9 of the report on the bill.

AMENDMENT NO. 10

Page 23, amend lines 1 through 3 to read as follows:

(B) the physician's fees or the physician's advertising or engaging in other competitive acts intended to solicit or retain business,

Page 23, line 7, strike "or".

Page 23, line 13, before the period add the following:

"(E) the intent to retaliate illegally against a physician who, prior to the commencement of an investigation regarding the physician's competence or professional conduct, raised legitimate questions regarding the quality of health care of the health care entity, or

"(F) any other matter that does not relate to the competence or professional conduct of a physician."

This amendment clarifies the exclusions from matters that can be considered to be related to the competence or professional conduct of a physician. The change in paragraph (B) is to clarify that actions taken to enforce illegal price-fixing arrangements are not protected under the bill.

New paragraph (E) makes explicit that professional review actions taken in retaliation against whistleblowers are not protected under the bill. This exclusion is in response to concerns raised by a witness before the Judiciary Committee's Subcommittee on Civil and Constitutional Rights about the problems facing whistleblowers in some hospitals. It is not intended to create a safe haven for incompetent or unprofessional physicians who seek to fend off legitimate professional review actions by suddenly questioning the competence or professional conduct of others. To qualify for this exclusion, a physician must convince a court that the professional review action was commenced after the physician had raised legitimate charges against the health care entity, and was initiated illegally in retaliation for the physician's having done so.

New paragraph (F) is intended to clarify that the list of exclusions is not exhaustive. This subsection reflects the concern that professionals review actions brought for illegitimate reasons may not appear as such on their face. Actions which specify, for example, that they are based on a physician's fees, or actions brought against a nonphysician practitioner, are clearly not eligible for protection under this bill. The more serious issues arise when actions are stated to be for legitimate reasons, but are challenged as not being genuinely based on the competence or professional conduct of an individual physician. It is, of course, the plaintiff physician's burden of pleading and proving to the court that the action was based on matters that do not relate to the physician's competence or professional conduct. The purpose of paragraph (F) is simply to avoid the inference that any matters not listed in this subsection are necessarily ones related to competence or professional conduct. For example, actions based solely on competitive considerations other than the ones enumerated in the bill would not qualify as being based on professional conduct or competence. For example, an action taken against a physician because of a style of practice or a pattern of patients that does not generate sufficient revenue for a hospital would not be covered by this bill.

On the other hand, competence and professional conduct should be interpreted in a way that is sufficiently broad to protect legitimate actions based on matters that raise concerns for patients or patient care. It would certainly include all specific conduct that could adversely affect the health or welfare of a patient or patients. This would include not only activities directly involving patients of the physician but also activities that raise the possibility of adversely affecting other patients. Such activities clearly would encompass felonies or crimes of moral turpitude. They would also include illicit transactions involving drugs, serious sexual offenses, violent behavior, and other similar acts.

AMENDMENT NO. 11

Page 22, line 6, before the period insert the following: "(or any person illegally posing as a physician)".

This amendment clarifies that the definition of "physician" for purposes of discipline or reporting under this bill encompasses persons illegally posing as a physician. This amendment recognizes that it would be paradoxical to provide protection for and require reporting of actions against legitimate physicians, while not doing so with regard to impostors.

Additional views regarding rept. 99-903, part 1:

First, page 21, first sentence of the third full paragraph: The sentence should read as follows: "Actions against practitioners who are not physicians also are not under the purview of this legislation."

Second, the report does not explain the word "call" as used in section 102(b)(3)(C)(iii) of H.R. 5540. One witness at the hearings before the Judiciary Committee questioned whether the word would permit a physician-respondent to compel the testimony of witnesses. Obviously, the bill cannot confer subpoena power on a private body. However, it is the intention of the committee that any witness who testifies for the hospital should be reasonably available to be called as a witness on an equal basis by the physician-respondent.

AMENDMENT NO. 12

Page 4, after line 4, insert the following:

(c) TREATMENT UNDER STATE LAWS.—

(1) PROFESSIONAL REVIEW ACTIONS TAKEN ON OR AFTER OCTOBER 14, 1989.—Except as provided in paragraph (2), subsection (a) shall apply to State laws in a State only for professional review actions commenced on or after October 14, 1989.

(2) EXCEPTIONS.—

(A) STATE EARLY OPT-IN.—Subsection (a) shall apply to State laws in a State for actions commenced before October 14, 1989, if the State by legislation elects such treatment.

(B) STATE OPT-OUT.—Subsection (a) shall not apply to State laws in a State for actions commenced on or after October 14, 1989, if the State by legislation elects such treatment.

(C) EFFECTIVE DATE OF ELECTION.—An election under State law is not effective, for purposes of subparagraphs (A) and (B), for actions commenced before the effective date of the State law, which may not be earlier than the date of the enactment of that law.

This amendment responds to the concerns of those who believe that the States should have a choice as to whether the protections afforded under this bill should apply with regard to State law.

Under this section, a State that chooses to adopt a different policy than that set forth in this legislation may freely do so. The amendment is extremely flexible. It provides States 2 years in which to choose whether or not to provide professional review bodies and personnel with immunity from damages in private actions under State law. If a State does not wish to participate, it may enact a law opting out from this provision. On the other hand, if a State wishes to participate immediately, it may do so by enacting a law to that effect.

The only restriction on State opt-outs or opt-ins is that they may not be made retroactive. This restriction is intended to prevent unfairness to those who might rely on the law at a particular moment. In such a case, those persons should not have their expectations undermined by a change in the law affecting them after they have already acted in reliance on a different legal standard.

Mr. LELAND. Mr. Speaker, will the gentleman yield?

Mr. WAXMAN. I yield to the gentleman from Texas.

Mr. LELAND. I thank the gentleman for yielding.

Mr. Speaker, I would like to engage the gentleman in a colloquy. It has come to my attention that hearings before the Judiciary Committee's Subcommittee on Civil and Constitutional Rights raised questions about whether this bill might be used to discriminate against black and other minority phy-

sicians. How does the gentleman respond to that question?

Mr. WAXMAN. I am aware of that criticism, and the bill being considered today is amended to exclude any application in cases involving a violation of civil rights laws.

I would like to say that I believe that the bill as reported by the Committee on Energy and Commerce would not have protected any violations of the civil rights laws, and I would never have supported any bill that would have done so. Nevertheless, to avoid any lingering confusion about the effect of this bill, it has been amended so that the immunity provision simply does not apply to any matter that constitutes a violation of any Federal or State civil rights law.

Mr. LELAND. I thank the gentleman and I am very gratified by his response.

Mr. EDWARDS of California. Mr. Speaker, the distinguished chairman of the Subcommittee on Health and the Environment has, on this day, forwarded a letter to me outlining the several changes he has made in an effort to address the myriad concerns raised by the physicians, quality health care advocates, and health care attorneys in their testimony before the Judiciary Committee during the 2 days of hearings on H.R. 5540. I commend the gentleman for seeking to address some of those concerns. But I am compelled to say that the changes made do not address the fundamental legal and constitutional problems created by this bill—issues which fall within the jurisdiction of the Committee on the Judiciary.

On September 29, the Judiciary Committee obtained a sequential referral of this legislation. The initial referral ran through October 3. The referral was subsequently extended until today. The 2 days of hearings which the Judiciary Committee conducted were intended to provide a more complete record on the implications of the immunity and due process provisions set forth in title I of H.R. 5540, including immunity from individual damage claims brought under any Federal or State civil rights or antitrust laws. We felt this was especially important since the only primary issue addressed during the July 15 hearing conducted by the Subcommittee on Health and the Environment was the reporting mechanism established in title II of the proposed legislation.

Based upon the only CONGRESSIONAL RECORD to date on title I of the bill, I recommended the title be deleted from H.R. 5540, and that the distinguished chairman proceed with the reporting requirement set forth in title II of the bill. It is my belief that there is strong bipartisan support for title II and if title I were deleted, there would be prompt passage of the bill in both the House and Senate in this Congress.

My concern about the bill, as reported and with the changes now recommended, is based upon these conclusions, the immunity provision in title I does not create an incentive to more effective voluntary peer review, it would instead shield illegal peer review action from effective challenges brought by those doctors who find themselves improperly sanctioned by peer review committees. Under the scheme established by this proposed legislation, competent doctors, with limited financial resources, whose rights have been violated by illegal peer review actions will be driven from medical practice with no hope of redress from existing Federal and State laws which provide protections from such illegal acts. Competent doctors who have financial means will find that the cost of challenging illegal peer review—both to the challenging physician and to the peer review participants—will be more costly and the physician who has been wronged will be denied the full panoply of remedies currently available under existing law.

The committee report accompanying H.R. 5540, rests the damage immunity provision almost exclusively on the treble damage remedy available under the Federal antitrust law. The report cites as its compelling example a $2 million jury award made in an Oregon case, Patrick versus Astoria Clinic. Four days after the filing of the committee report, the ninth circuit joined the seventh and third circuits in determining peer review is not subject to Federal antitrust laws pursuant to the State action doctrine.

Mr. Speaker, each one of our witnesses agreed that more effective physician peer review should and must be encouraged. But they unanimously agreed that the bill fails to adequately protect competent physicians from abusive actions by illegal professional review. In light of the Judiciary Committee's review, the chairman of the Subcommittee on Health and the Environment has made some significant changes to improve this bill; however, the fundamental flaw of the bill in its present form continues to be that the immunities shield professional actions which are fair as well as actions which are illegal.

COMMITTEE ON THE JUDICIARY,
Washington, DC, October 10, 1986.

HENRY A. WAXMAN,
House Annex 1,
Washington, DC.

DEAR HENRY: On September 29, the Judiciary Committee obtained a sequential referral of H.R. 5540, the "Health Care Quality Improvement Act of 1986." The initial referral ran through October 3. The referral was subsequently extended until Tuesday, October 14.

The bill was referred to the Subcommittee on Civil and Constitutional Rights to consider issues raised by the bill that fall within the jurisdiction of the Judiciary Committee. The Subcommittee just concluded two days of hearings on the bill. It was our intention in holding these hearings to provide a more complete record on the implications of the immunities and due process provisions set forth in Title I of H.R. 5540. Our review would thus augment the hearing held on July 15, 1986 by the Subcommittee on Health and Environment. We felt this was especially important since the primary issue addressed during the July 15 hearing was the reporting mechanism established in Title II of the proposed legislation.
